(b) **LAWS ADMINISTERED BY THE ADMINISTRATOR.**—The Administrator shall coordinate actions taken under this Act with actions taken under other Federal laws administered in whole or in part by the Administrator. If the Administrator determines that a risk to health or the environment associated with a chemical substance or mixture could be eliminated or reduced to a sufficient extent by actions taken under the authorities contained in such other Federal laws, the Administrator shall use such authorities to protect against such risk unless the Administrator determines, in the Administrator's discretion, that it is in the public interest to protect against such risk by actions taken under this Act. (e) **BASIC RESEARCH.**—The Administrator shall, in consultation and cooperation with the Secretary of Health, Education, and Welfare, establish research programs to develop the fundamental scientific basis of the screening and monitoring techniques described in subsections (c) and (d), the bounds of the reliability of such techniques, and the opportunities for their improvement.

(ii) in the case of a petition to initiate a proceeding for the issuance of a rule under section 6 or 8 or an order under section 6(b)(2), there is a reasonable basis to conclude that the issuance of such a rule or order is necessary to protect health or the environment against an unreasonable risk of injury to health or the environment.

the court shall order the Administrator to initiate the action requested by the petitioner. If the court finds that the extent of the risk to health or the environment alleged by the petitioner is less than the extent of risks to health or the environment with respect to which the Administrator is taking action under this Act and there are insufficient resources available to the Administrator to take the action requested by the petitioner, the court may permit the Administrator to defer initiating the action requested by the petitioner until such time as the court prescribes.

(C) The court in issuing any final order in any action brought pursuant to subparagraph (A) may award costs of suit and reasonable fees for attorneys and expert witnesses if the court determines that such an award is appropriate. Oct. 11, 1976

[S. 2839]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "International Investment Survey Act of 1976".

International
Investment
Survey Act of
1976.

note.

(1) the United States Government is presently authorized to collect limited amounts of information on United States investment abroad and foreign investment in the United States;

U.S. and foreign
investment
information.

(2) international investment has increased rapidly within recent years;

(3) such investment significantly affects the economies of the United States and other nations;

(4) international efforts to obtain information on the activities of multinational enterprises and other international investors have accelerated recently;

(5) the potential consequences of international investment cannot be evaluated accurately because the United States Government lacks sufficient information on such investment and its actual or possible effects on the national security, commerce, employment, inflation, general welfare, and foreign policy of the United States;

(6) accurate and comprehensive information on international investment is needed by the Congress to develop an informed United States policy on such investment; and

(7) existing estimates of international investment, collected under existing legal authority, are limited in scope and are based on outdated statistical bases, reports, and information which are insufficient for policy formulation and decisionmaking.

(b) It is therefore the purpose of this Act to provide clear and unambiguous authority for the President to collect information on international investment and to provide analyses of such information to the Congress, the executive agencies, and the general public. It is the intent of the Congress that information which is collected from the public under this Act be obtained with a minimum burden on business and other respondents and with no unnecessary duplication of effort, consistent with the national interest in obtaining comprehensive and reliable information on international investment.

“ADVANCES FOR RESERVE FUNDS OF STATE AND NONPROFIT PRIVATE LOAN
INSURANCE PROGRAMS

20 USC 1072.

“SEC. 422. (a) (1) From the sums appropriated pursuant to clauses (3) and (4) (A) of section 421(b), the Commissioner is authorized to make advances to any State with which he has made an agreement pursuant to section 428(b) for the purpose of helping to establish or strengthen the reserve fund of the student loan insurance program covered by that agreement. If for any fiscal year a State does not have a student loan insurance program covered by an agreement made pursuant to section 428(b), and the Commissioner determines after consultation with the chief executive officer of that State that there is no reasonable likelihood that the State will have such a student loan insurance program for such year, the Commissioner may make advances for such year for the same purpose to one or more nonprofit private institutions or organizations with which he has made an agreement pursuant to section 428(b) in order to enable students in the State to participate in a program of student loan insurance covered by such an agreement. The Commissioner may make advances under this subsection both to a State program (with which he has such an agreement) and to one or more nonprofit private institutions or organizations (with which he has such an agreement) in that State if he determines that such advances are necessary in order that students in each eligible institution have access through such institution to a student loan insurance program which meets the requirement of section 428(b) (1).

“Unencumbered
non-Federal
portion.”

“(2) No advance shall be made after June 30, 1968, unless matched by an equal amount from non-Federal sources. Such equal amount may include the unencumbered non-Federal portion of a reserve fund. As used in the preceding sentence, the term ‘unencumbered non-Federal portion’ means the amount (determined as of the time immediately preceding the making of the advance) of the reserve fund less the greater of (A) the sum of (i) advances made under this section prior to July 1, 1968, (ii) an amount equal to twice the amount of advances made under this section after June 30, 1968, and before the advance for purposes of which the determination is made, and (iii) the proceeds of earnings on advances made under this section, or (B) any amount which is required to be maintained in such fund pursuant

to State law or regulation, or by agreement with lenders, as a reserve against the insurance of outstanding loans.

“(3) Advances pursuant to this subsection shall be upon such terms and conditions (including conditions relating to the time or times of payment) consistent with the requirements of section 428(b) as the Commissioner determines will best carry out the purposes of this section. Advances made by the Commissioner under this subsection shall be repaid within such period as the Commissioner may deem to be appropriate in each case in the light of the maturity and solvency of the reserve fund for which the advance was made.

“(b)(1) The total of the advances to any State prior to July 1, 1968, pursuant to subsection (a) may not exceed an amount which bears the same ratio to 2½ per centum of \$700,000,000 as the population of that State aged eighteen to twenty-two, inclusive, bears to the total population of all the States aged eighteen to twenty-two inclusive. The amount available, however, for advances to any State for each fiscal year ending prior to July 1, 1968, shall not be less than \$25,000, and any additional funds needed to meet this requirement shall be derived by proportionately reducing (but not below \$25,000 per year) the amount available for advances to each of the remaining States. Advances to nonprofit private institutions and organizations prior to July 1, 1968, pursuant to subsection (a) may be in such amounts as the Commissioner determines will best achieve the purposes for which they are made, except that the sum of (1) advances to such institutions and organizations for the benefit of students in any State plus (2) the amounts advanced to such State, may not exceed the maximum amount which may be advanced to that State pursuant to the first two sentences of this subsection.

“(2) The total of the advances from the sums appropriated pursuant to clause (4) (A) of section 421(b) to nonprofit private institutions and organizations for the benefit of students in any State and (B) to such State may not exceed an amount which bears the same ratio to such sums as the population of such State aged eighteen to twenty-two, inclusive, bears to the population of all the States aged eighteen to twenty-two, inclusive, but such advances may otherwise be in such amounts as the Commissioner determines will best achieve the purposes for which they are made. The amount available, however, for advances to any State shall not be less than \$25,000, and any additional funds needed to meet this requirement shall be derived by proportionately reducing (but not below \$25,000) the amount available for advances to each of the remaining States.

“(3) For the purposes of this subsection, the population aged eighteen to twenty-two, inclusive, of each State and of all the States shall be determined by the Commissioner on the basis of the most recent satisfactory data available to him.

“(c)(1) From sums appropriated pursuant to section 421(b)(4) (B), the Commissioner shall advance to each State which has an agreement with the Commissioner under section 428(c) with respect to a student loan insurance program, an amount determined in accordance with paragraph (2) of this subsection to be used for the purpose of making payments under the State's insurance obligations under such program.

“(2) (A) Except as provided in subparagraph (B), the amount to be advanced to each such State shall be equal to the greater of (i) \$50,000, or (ii) 10 per centum of the principal amount insured by such agency on those loans on which the first payment of principal became due during the fiscal year immediately preceding the fiscal year in which the advance is made.

“(B) The amount of any advance determined according to subparagraph (A) of this paragraph shall be reduced by (i) the amount of any advance or advances made to such State pursuant to this subsection at an earlier date, and (ii) the amount of the unspent balance of the advances made to a State pursuant to subsection (a).

“(C) For purposes of subparagraph (B) the unspent balance of the advances made to a State pursuant to subsection (a) shall be that portion of the balance of the State’s reserve fund (remaining at the time of the State’s first request for an advance pursuant to this subsection) which bears the same ratio to such balance as the Federal advances made and not returned by such State, pursuant to subsection (a), bears to the total of all past contributions to such reserve fund from all sources (other than interest on investment of any portion of the reserve fund) contributed since the date such State executed an agreement pursuant to section 428(b).

“(3) The earnings, if any, on any investments of advances received pursuant to this subsection must be used for making payments under the State’s insurance obligations.

“(4) (A) No repayment of any advances made pursuant to this subsection shall be required until such time as the sum of the advances under this subsection exceeds 20 per centum of the State’s outstanding insurance obligation determined in accordance with subparagraph (B) of this paragraph.

“(B) For purposes of this paragraph, a State’s outstanding insurance obligation shall be determined by subtracting from the total principal amount of loans insured by the State since it entered into an agreement pursuant to section 428(b), the total principal amount of loans insured by such State which have been fully repaid by the borrower, the State itself, or the Commissioner, and loans which have been canceled.

“(C) At such time as advances pursuant to this subsection reach the level indicated in subparagraph (A) of this paragraph, the amount of any excess shall be paid over to the Commissioner in a lump sum at the beginning of each fiscal year for deposit in the fund established by section 431.

“(5) Advances pursuant to this subsection shall be made to a State—

“(A) in the case of a State which is actively carrying on a program under an agreement pursuant to section 428(b) which was entered into before the effective date of this subsection, upon such date as such State may request, but not before October 1, 1977, and on the same day of each of the two succeeding calendar years after the date so requested; and

“(B) in the case of a State which enters into an agreement pursuant to section 428(b) on or after the effective date of this subsection, upon such date as such State may request, but not before October 1, 1977, and on the same day of each of the four succeeding calendar years after the date so requested of the advance.

“(6) (A) If for any fiscal year a State does not have a student loan insurance program covered by an agreement made pursuant to section 428(b), and the Commissioner determines after consultation with the chief executive officer of that State that there is no reasonable likelihood that the State will have such a student loan insurance program for such year, the Commissioner may make advances pursuant to this subsection for such year for the same purpose to one or more nonprofit private institutions or organizations with which he has made an agreement pursuant to subsection (c), as well as subsection (b), of section

428 and subparagraph (B) of this paragraph in order to enable students in that State to participate in a program of student loan insurance covered by such agreements.

“(B) The Commissioner may enter into an agreement with a private nonprofit institution or organization for purposes of this paragraph under which such institution or organization—

Agreement with private nonprofit institution or organization.

“(i) agrees to establish within such State at least one office with sufficient staff to handle written and telephone inquiries from students, eligible lenders, and other persons in the State, to encourage maximum commercial lender participation within the State, and to conduct periodic visits to at least the major eligible lenders within the State,

“(ii) agrees that its insurance will not be denied any student because of his choice of eligible institutions or the student’s lack of need, and

“(iii) certifies that it is neither an institution, nor has any substantial affiliation with an institution.

“EFFECTS OF ADEQUATE NON-FEDERAL PROGRAMS

“SEC. 423. (a) Except as provided in subsections (b) and (c), the Commissioner shall not issue certificates of insurance under section 429 to lenders in a State if he determines that every eligible institution has reasonable access in that State to a State or private nonprofit student loan insurance program which is covered by an agreement under section 428(b).

20 USC 1073.

“(b) The Commissioner may issue certificates of insurance under section 429 to a lender in a State—

“(1) for insurance of a loan made to a student borrower who does not, by reason of his residence, have access to loan insurance under the loan insurance program of such State (or under any private nonprofit loan insurance program which has received an advance under section 422 for the benefit of students in such State), or

“(2) for insurance of all of the loans made to student borrowers by a lender who satisfies the Commissioner that, by reason of the residence of such borrowers, such lender will not have access to any single State or nonprofit private loan insurance program which will insure substantially all of the loans such lender intends to make to such student borrowers.

“(c) The Commissioner shall not deny, because of any provision of this section, a certificate of insurance under section 429 to any eligible lender which is an eligible institution if such lender has previously executed an agreement with the Commissioner pursuant to section 433 of this part, unless the Commissioner determines, based upon studies and surveys satisfactory to him, that access to a loan by all eligible students who make an active and diligent effort to obtain a loan under this part will be otherwise available. In order to carry out the provisions of the preceding sentence the Commissioner shall periodically assess the availability of loans to eligible students through studies and surveys undertaken by him and through review of properly conducted studies and surveys made available to him.

“(2) The aggregate insured unpaid principal amount for all such insured loans made to any student shall not at any time exceed \$7,500, in the case of any student who has not successfully completed a program of undergraduate education, and \$15,000 in the case of any

“(b)(1)(A) Except as provided in subparagraph (B), the insurance liability on any loan insured by the Commissioner under this part shall be 100 per centum of the unpaid balance of the principal amount of the loan plus interest, except that—

“(i) if, for any fiscal year, the total amount of payments under section 430 by the Commissioner to any eligible lender as described in section 435(g)(1)(D) exceeds 5 per centum of the sum of the loans made by such lender which are insured by the Commissioner and which were in repayment at the end of the preceding fiscal year, the insurance liability under this subsection for that portion of such excess which represents loans insured after the applicable date with respect to such loans, as determined under subparagraph (C), shall be equal to 90 per centum of the amount of such portion;

“(C) The applicable date with respect to a loan made by an eligible lender as described in section 435(g)(1)(D) shall be—

“(i) the 90th day after the adjournment of the next regular session of the appropriate State legislature which convenes after the date of enactment of the Education Amendments of 1976, or

"FEDERAL PAYMENTS TO REDUCE STUDENT INTEREST COSTS

20 USC 1078.

"SEC. 428. (a) (1) Each student who has received a loan for study at an eligible institution—

"(A) which is insured by the Commissioner under this part;

"(B) which was made under a State student loan program (meeting criteria prescribed by the Commissioner), and which was contracted for, and paid to the student, within the period specified by paragraph (5); or

"(C) which is insured under a program of a State or of a non-profit private institution or organization which was contracted for, and paid to the student, within the period specified in paragraph (5), and which—

"(i) in the case of a loan insured prior to July 1, 1967, was made by an eligible lender and is insured under a program which meets the requirements of subparagraph (E) of subsection (b)(1) and provides that repayment of such loan shall be in installments beginning not earlier than sixty days after the student ceases to pursue a course of study (as described in subparagraph (D) of subsection (b)(1)) at an eligible institution, or

"(ii) in the case of a loan insured after June 30, 1967, is insured under a program covered by an agreement made pursuant to subsection (b),

shall be entitled to have paid on his behalf and for his account to the holder of the loan a portion of the interest on such loan under circumstances described in paragraph (2).

"(2) (A) Each student qualifying for a portion of an interest payment under paragraph (1) shall—

"(i) have provided to the lender a statement from the eligible institution, at which the student has been accepted for enrollment, or at which he is in attendance in good standing (as determined by such institution), which—

"(I) sets forth such student's estimated costs of attendance and

"(II) sets forth such student's estimated financial assistance; and

"(ii) meet the requirements of subparagraph (B).

"(B) For the purposes of clause (ii) of subparagraph (A), a student shall qualify for a portion of an interest payment under paragraph (1) if such student's adjusted family income at the time of execution of the note or written agreement evidencing such loan—

"(i) is less than \$25,000; or

Interest
payment.

"(ii) is equal to or greater than \$25,000 and the eligible institution has provided the lender with a statement evidencing a determination of need and recommending a loan in the amount of such need.

"(C) For the purposes of paragraph (1) and this paragraph—

Definitions.

"(i) a student's estimated cost of attendance means, for the period for which the loan is sought, the tuition and fees applicable to such student together with the institution's estimate of other expenses reasonably related to attendance at such institution, including, but not limited to, the cost of room and board, reasonable commuting costs, and costs for books;

"(ii) a student's estimated financial assistance means, for the period for which the loan is sought, the amount of assistance such student will receive under parts A, C, and E of this title, plus other scholarship, grant, or loan assistance;

"(iii) the term 'eligible institution' when used with respect to a student is the eligible institution at which the student has been accepted for enrollment or, in the case of a student who is in attendance at such an institution, at which the student is in good standing (as determined by such institution);

"(iv) the determination of need and the amount of a loan recommended by an eligible institution under subparagraph (B) (ii) with respect to a student shall be determined by subtracting from the estimated cost of attendance at such institution the total of the expected family contribution with respect to such student (as determined by means other than one formulated by the Commissioner under subpart 1 of part A of this title) plus any other resources or student financial assistance reasonably available to such student.

"(D) For the purposes of this paragraph, the adjusted family income of a student shall be determined pursuant to regulations of the Commissioner in effect at the time of the execution of the note or written agreement evidencing the loan. Such regulations shall provide for taking into account such factors, including family size, as the Commissioner deems appropriate. In the absence of fraud by the lender, such determination of the need of a student under this paragraph shall be final insofar as it concerns the obligation of the Commissioner to pay the holder of a loan a portion of the interest on the loan.

"(3) (A) Except as provided in paragraph (8), the portion of the interest on a loan which a student is entitled to have paid on his behalf and for his account to the holder of the loan pursuant to paragraph (1) of this subsection shall be equal to the total amount of the interest on the unpaid principal amount of the loan which accrues prior to the beginning of the repayment period of the loan, or which accrues during a period in which principal need not be paid (whether or not such principal is in fact paid) by reason of a provision described in subsection (b) (1) (M) of this section or in section 427(a) (2) (C); but, except as provided in paragraph (8) of this subsection, such portion of the interest on a loan shall not exceed, for any period, the amount of the interest on that loan which is payable by the student after taking into consideration the amount of any interest on that loan which the student is entitled to have paid on his behalf for that period under any State or private loan insurance program. The holder of a loan with respect to which payments are required to be made under this section shall be deemed to have a contractual right, as against the United States, to receive from the Commissioner the portion of interest which has been so determined. The Commissioner shall pay this portion of the interest to the holder of the loan on behalf of and for

the account of the borrower at such times as may be specified in regulations in force when the applicable agreement entered into pursuant to subsection (b) was made, or, if the loan was made by a State or is insured under a program which is not covered by such an agreement, at such times as may be specified in regulations in force at the time the loan was paid to the student.

“(B) If (i) a State student loan insurance program is covered by an agreement under subsection (b), (ii) a statute of such State limits the interest rate on loans insured by such program to a rate which is less than 7 per centum per annum on the unpaid principal balance, and (iii) the Commissioner determines that section 428(d) does not make such statutory limitation inapplicable and that such statutory limitation threatens to impede the carrying out of the purposes of this part, then he may pay an administrative cost allowance to the holder of each loan which is insured under such program and which is made during the period beginning on the sixtieth day after the date of enactment of the Higher Education Amendments of 1968 and ending 120 days after the adjournment of such State’s first regular legislative session which adjourns after January 1, 1969. Such administrative cost allowance shall be paid over the term of the loan in an amount per annum (determined by the Commissioner) which shall not exceed 1 per centum of the unpaid principal balance of the loan.

20 USC 1001
note.

“(4) Each holder of a loan with respect to which payments of interest are required to be made by the Commissioner shall submit to the Commissioner, at such time or times and in such manner as he may prescribe, statements containing such information as may be required by or pursuant to regulation for the purpose of enabling the Commissioner to determine the amount of the payment which he must make with respect to that loan.

“(5) The period referred to in subparagraphs (B) and (C) of paragraph (1) of this subsection shall begin on the date of enactment of this Act and end at the close of September 30, 1981, except that, in the case of a loan made or insured under a student loan or loan insurance program to enable a student who has obtained a prior loan made or insured under such program to continue his educational program, such period shall end at the close of September 30, 1985.

“(6) No payment may be made under this section with respect to the interest on a loan made from a student loan fund established under title II of the National Defense Education Act of 1958 or part E of this title.

20 USC 401 note,
20 USC 1088.

“(7) Nothing in this or any other Act shall be construed to prohibit or require, unless otherwise specifically provided by law, a lender to evaluate the total financial situation of a student making application for a loan under this part, or to counsel a student with respect to any such loan, or to make a decision based on such evaluation and counseling with respect to the dollar amount of any such loan.

“(8) (A) In the case of any eligible lender (other than an eligible institution or an agency or instrumentality of a State), which is approved by the Commissioner pursuant to subparagraph (B) of this paragraph for the purpose of authorizing multiple disbursements and which enters into a binding agreement with a student to make a loan—

“(i) for which the student is entitled to have a portion of the interest paid on his behalf under this section, and

“(ii) the proceeds of which loan are to be paid to the student in multiple disbursements over the period of enrollment for which the loan is made, but not to exceed twelve months,

the amount of the interest payment and the amount of any special allowance payment to be paid under section 438 shall be determined as if the entire amount to be made available for that period of enrollment had been disbursed on the date on which the first installment thereof was disbursed, and any increase in the rate of interest on the loan attributable to such multiple disbursements shall not be deemed to violate any provision of this part relating to the maximum rate of interest on such loan. The provisions of this paragraph shall apply only in the case of loans paid in multiple disbursements, in accordance with regulations of the Commissioner, based on the need of the student for the proceeds of such loan over the course of the academic year.

“(B) The Commissioner may approve an eligible lender for the purposes of this paragraph if he determines—

Eligible
lender.

“(i) that such lender is making or will be making a substantial volume of loans on which an interest subsidy is payable under this section, and

“(ii) that such lender has sufficient experience and administrative capability in processing such loans to enable the lender to make such multiple disbursements in accordance with regulations issued by the Commissioner under this subparagraph.

“(9) With respect to any loan for which a portion of the interest is payable under this section, in the case of a student attending an eligible institution which is located in other than a State, the determinations to be made (except determinations of good standing) and the statement to be provided by such institution under paragraph (2)(A)(i) and (2)(B)(ii) of this subsection shall be made and provided by (A) the Commissioner in the case of a loan described by paragraph (1)(A), (B) the State in the case of a loan described by paragraph (1)(B), or (C) the State or a nonprofit private institution or organization as the case may be, in the case of a loan described by paragraph (1)(C).

“(b)(1) Any State or any nonprofit private institution or organization may enter into an agreement with the Commissioner for the purpose of entitling students who receive loans which are insured under a student loan insurance program of that State, institution, or organization to have made on their behalf the payments provided for in subsection (a) if the Commissioner determines that the student loan insurance program—

“(i) that the program may not authorize the insurance of a loan which is made by an eligible lender as described in section 435(g)(1)(D) or which is made or originated (as defined in section 433(b)) by an eligible institution to a student who has not successfully completed a program of undergraduate education in an amount in excess of \$2,500 or 50 per centum of the estimated cost of attendance (calculated in accordance with section 428(a)(2)(C)(i)),

“(ii) that the program may not authorize the insurance of a loan in excess of \$1,500 for an academic year which is made or originated (as defined in section 433(b)) by an eligible institution, and is made to a student for his first academic year of postsecondary education, unless the loan is to be disbursed in two or more installments, none of which exceeds

one-half of the loan, with the interval between the first and second of such installments being not less than one-third of the period of enrollment for which the student received the loan, and

“(iii) in cases where the Commissioner determines, pursuant to regulations prescribed by him, that a higher amount is warranted in order to carry out the purposes of this part with respect to students engaged in specialized training requiring exceptionally high costs of education, but the annual insurable limit per student shall not be deemed to be exceeded by a line of credit under which actual payments by the lender to the borrower will not be made in any years in excess of the annual limit;

“(B) provides that the aggregate insured unpaid principal amount for all such insured loans made to any student shall not at any time exceed \$7,500, in the case of any student who has not successfully completed a program of undergraduate education, and \$15,000 in the case of any graduate or professional student (as defined by regulations of the Commissioner and including any loans which are insured by the Commissioner under this part, or by a State or nonprofit institution or organization with which the Commissioner has an agreement under section 428(b), made to such person before he became a graduate or professional student);

“(i) that, if the program provides for the insurance of loans for part-time study at eligible institutions, the program shall provide that such repayment period shall begin not earlier than nine months nor later than one year after the student ceases to carry at an eligible institution at least one-half the normal full-time academic workload as determined by the institution;

“(ii) that the lender and the student, after the student ceases to carry at an eligible institution at least one-half the normal full-time academic workload, as determined by the institution, may agree to a repayment schedule which begins earlier, or is of shorter duration, than required by this sub-

"CERTIFICATE OF FEDERAL LOAN INSURANCE—EFFECTIVE
DATE OF INSURANCE

"Sec. 429. (a) (1) If, upon application by an eligible lender, made upon such form, containing such information, and supported by such evidence as the Commissioner may require, and otherwise in conformity with this section, the Commissioner finds that the applicant has made a loan to an eligible student which is insurable under the provisions of this part, he may issue to the applicant a certificate of insurance covering the loan and setting forth the amount and terms of the insurance.

20 USC 1079.

"(2) Insurance evidenced by a certificate of insurance pursuant to subsection (a) (1) shall become effective upon the date of issuance of the certificate, except that the Commissioner is authorized, in accord-

ance with regulations, to issue commitments with respect to proposed loans, or with respect to lines (or proposed lines) of credit, submitted by eligible lenders, and in that event, upon compliance with subsection (a) (1) by the lender, the certificate of insurance may be issued effective as of the date when any loan, or any payment by the lender pursuant to a line of credit, to be covered by such insurance was made. Such insurance shall cease to be effective upon sixty days' default by the lender in the payment of any installment of the premiums payable pursuant to subsection (c).

Application.

"(3) An application submitted pursuant to subsection (a) (1) shall contain (A) an agreement by the applicant to pay, in accordance with regulations, the premiums fixed by the Commissioner pursuant to subsection (c), and (B) an agreement by the applicant that if the loan is covered by insurance the applicant will submit such supplementary reports and statements during the effective period of the loan agreement, upon such forms, at such times, and containing such information as the Commissioner may prescribe by or pursuant to regulation.

"(b) (1) In lieu of requiring a separate insurance application and issuing a separate certificate of insurance for each student loan made by an eligible lender as provided in subsection (a), the Commissioner may, in accordance with regulations consistent with section 424, issue to any eligible lender applying therefor a certificate of comprehensive insurance coverage which shall, without further action by the Commissioner, insure all insurable loans made by that lender, on or after the date of the certificate and before a specified cutoff date, within the limits of an aggregate maximum amount stated in the certificate. Such regulations may provide for conditioning such insurance, with respect to any loan, upon compliance by the lender with such requirements (to be stated or incorporated by reference in the certificate) as in the Commissioner's judgment will best achieve the purpose of this subsection while protecting the financial interest of the United States and promoting the objectives of this part, including (but not limited to) provisions as to the reporting of such loans and information relevant thereto to the Commissioner and as to the payment of initial and other premiums and the effect of default therein, and including provision for confirmation by the Commissioner from time to time (through endorsement of the certificate) of the coverage of specific new loans by such certificate, which confirmation shall be incontestable by the Commissioner in the absence of fraud or misrepresentation of fact or patent error.

"(2) If the holder of a certificate of comprehensive insurance coverage issued under this subsection grants to a student a line of credit extending beyond the cutoff date specified in that certificate, loans or payments thereon made by the holder after that date pursuant to the line of credit shall not be deemed to be included in the coverage of that certificate except as may be specifically provided therein; but, subject to the limitations of section 424, the Commissioner may, in accordance with regulations, make commitments to insure such future loans or payments, and such commitments may be honored either as provided in subsection (a) or by inclusion of such insurance on comprehensive coverage under this subsection for the period or periods in which such future loans or payments are made.

"(c) The Commissioner shall, pursuant to regulations, charge for insurance on each loan under this part a premium in an amount not to exceed one-fourth of 1 per centum per year of the unpaid principal amount of such loan (excluding interest added to principal), payable in advance, at such times and in such manner as may be prescribed by the Commissioner. Such regulations may provide that such premium

shall not be payable, or if paid shall be refundable, with respect to any period after default in the payment of principal or interest or after the borrower has died or becomes totally and permanently disabled, if (1) notice of such default or other event has been duly given, and (2) requests for payment of the loss insured against has been made or the Commissioner has made such payment on his own motion pursuant to section 430(a).

“(d) The rights of an eligible lender arising under insurance evidenced by a certificate of insurance issued to it under this section may be assigned as security by such lender only to another eligible lender, and subject to regulation by the Commissioner.

“(e) The consolidation of the obligations of two or more federally insured loans obtained by a student borrower in any fiscal year into a single obligation evidenced by a single instrument of indebtedness shall not affect the insurance by the United States. If the loans thus consolidated are covered by separate certificates of insurance issued under subsection (a), the Commissioner may upon surrender of the original certificates issue a new certificate of insurance in accordance with that subsection upon the consolidated obligation; if they are covered by a single comprehensive certificate issued under subsection (b), the Commissioner may amend that certificate accordingly.

“DEFAULT OF STUDENT UNDER FEDERAL LOAN INSURANCE PROGRAM

“SEC. 430. (a) Upon default by the student borrower on any loan covered by Federal loan insurance pursuant to this part, and prior to the commencement of suit or other enforcement proceedings upon security for that loan, the insurance beneficiary shall promptly notify the Commissioner, and the Commissioner shall if requested (at that time or after further collection efforts) by the beneficiary, or may on his own motion, if the insurance is still in effect, pay to the beneficiary the amount of the loss sustained by the insured upon that loan as soon as that amount has been determined. The ‘amount of the loss’ on any loan shall, for the purposes of this subsection and subsection (b), be deemed to be an amount equal to the unpaid balance of the principal amount and interest accrued from the date of submission of a valid default claim (as determined by the Commissioner) to the date on which payment is authorized by the Commissioner, reduced to the extent required by section 425(b). Such beneficiary shall be required to meet the standards of due diligence in the collection of the loan.

Commissioner.
20 USC 1080.

“(b) Upon payment of the amount of the loss pursuant to subsection (a), the United States shall be subrogated for all of the rights of the holder of the obligation upon the insured loan and shall be entitled to an assignment of the note or other evidence of the insured loan by the insurance beneficiary. If the net recovery made by the Commissioner on a loan after deduction of the cost of that recovery (including reasonable administrative costs) exceeds the amount of the loss, the excess shall be paid over to the insured. The Commissioner may, in attempting to make recovery on such loans, contract with private business concerns, State student loan insurance agencies, or State guaranty agencies, for payment for services rendered by such concerns or agencies in assisting the Commissioner in making such recovery. Any contract under this subsection entered into by the Commissioner shall provide that attempts to make recovery on such loans shall be fair and reasonable, and do not involve harassment, intimidation, false or misleading representations, or unnecessary communications concerning the existence of any such loan to persons other than the student borrower.

"(c) Nothing in this section or in this part shall be construed to preclude any forbearance for the benefit of the student borrower which may be agreed upon by the parties to the insured loan and approved by the Commissioner, or to preclude forbearance by the Commissioner in the enforcement of the insured obligation after payment on that insurance.

"(d) Nothing in this section or in this part shall be construed to excuse the holder of a federally insured loan from exercising reasonable care and diligence in the making and collection of loans under the provisions of this part. “(2) Whenever the Commissioner determines that the termination of the eligible institution's status as a lender under paragraph (1) would be a hardship to the present or prospective students of the eligible institution after considering the management of that institution, the opportunities that institution provides to economically disadvantaged students, and related factors, the Commissioner shall waive the provisions of such paragraph with respect to that institution.

“(b) (1) An eligible institution shall be deemed to have originated a loan for purposes of this section if it has had delegated to it by an eligible lender a substantial portion of the functions and responsibilities normally performed by a lender prior to the making of a loan, such as interviewing the applicant for the loan, explaining the applicant's responsibilities under the loan, obtaining completion of necessary forms, obtaining necessary documentation, or verifying that the student is eligible for the loan.

“SPECIAL ALLOWANCES

“SEC. 438. (a) In order to assure (1) that the limitation on interest payments or other conditions (or both) on loans made or insured under this part, do not impede or threaten to impede the carrying out of the purposes of this part or do not cause the return to holders of loans to be less than equitable, (2) that incentive payments on such loans are paid promptly to eligible lenders, (3) that appropriate consideration of relative administrative costs and money market conditions is made in setting the quarterly rate of such payments, and (4) that participating lenders will have a better and more accurate way of assessing the rate of such payments for current and prospective quarters, the Congress finds it necessary to establish an improved method for the determination of the quarterly rate of the special allowance on such loans, and to provide for a thorough, expeditious and objective examination of alternative methods for the determination of the quarterly rate of such allowance.

20 USC 1087-1.

“(b)(1) A special allowance shall be paid for each of the three-month periods ending March 31, June 30, September 30, and December 31 of every year and the amount of such allowance paid to any holder with respect to any three-month period shall be a percentage of the unpaid balance of disbursed principal (not including unearned interest added to principal) of all eligible loans held by such holder during such period.

“(2)(A) Subject to subparagraphs (B) and (C) and paragraph (4), the special allowance paid pursuant to this subsection shall be computed (i) by determining the average of the bond equivalent rates of the ninety-one-day Treasury bills auctioned for such three-month period, (ii) by subtracting 3.5 per centum from such average, and (iii) by rounding the resultant per centum upward to the nearest one-eighth of 1 per centum.

“(B) Except as provided in paragraph (4), if the special allowance computed according to subparagraph (A) would (i) cause the special allowance for any twelve-month period during the period ending September 30, 1977, to exceed 3 per centum, the special allowance rate to be paid for such period shall be reduced to the highest one-eighth of 1 per centum rate interval which would not cause such excess.

“(C) Except as provided in subparagraph (4), if the special allowance computed according to subparagraph (A) would (i) cause the special allowance for any twelve-month period after October 1, 1977, to exceed 5 per centum, the special allowance rate to be paid for such period shall be reduced to the highest one-eighth of 1 per centum rate which would not cause such excess.

“(3) Subject to paragraph (4) the special allowance determined for any such three-month period shall be payable at such time, after the close of such period, as may be specified by or pursuant to regulations promulgated under this section. The holder of a loan with respect to which any such allowance is to be paid shall be deemed to have a contractual right, as against the United States, to receive such allowance from the Commissioner.

“(4) (A) If payment of the special allowance payable under this section or of interest payments under section 428(a) with respect to a loan have not been made within thirty days after the Commissioner has received an accurate, timely, and complete request for payment thereof, the special allowance payable to such holder shall be increased by an amount equal to the daily interest accruing on the special allowance and interest benefits payments due the holder.

“(B) Such daily interest shall be computed at the daily equivalent rate of the special allowance rate computed pursuant to paragraph (3) plus 7 per centum and shall be paid for the later of (i) the thirty-first day after the receipt of such request for payment from the holder, or (ii) the thirty-first day after the final day of the period or periods covered by such request, and shall be paid for each succeeding day until, and including, the date on which the Commissioner authorizes payment.

“(C) For purposes of reporting to the Congress the amounts of special allowances paid under this section, amounts of special allowances paid pursuant to this subparagraph shall be segregated and reported separately.

“Eligible loan.”

“(5) As used in this section, the term ‘eligible loan’ means a loan which is insured under this part, or made under a program covered by an agreement under section 428(b) of this Act.

“(c) The Commissioner shall adopt or amend appropriate regulations pertaining to programs carried on under this part to prevent, where practicable, any practices which he finds have denied loans to a substantial number of students. Regulations issued under section 2(a)(6)(B)(ii) of the Emergency Insured Student Loan Act of 1969 shall remain in effect until superseded or amended under this subsection, but no payments shall be made under such Act after the effective date of this section.

"(d) There are authorized to be appropriated such sums as may be necessary for special allowances authorized by this section.

"(e) In order to assure (i) that the limitation on interest payments or other conditions (or both) on loans made or insured under this part, do not impede or threaten to impede the carrying out of the purposes of this part or do not cause the return to holders of loans to be less than equitable, (ii) that incentive payments on such loans are paid promptly to eligible lenders, (iii) that appropriate consideration of relative administrative costs and money market conditions is made in setting the quarterly rate of such payments, and (iv) that participating lenders will have a better and more accurate way of assessing the rate of such payments for current and prospective quarters, there is established a Committee on the Process of Determining Student Loan Special Allowances (hereinafter in this section referred to as the 'Committee'). The Committee shall be composed of—

- "(1) the Commissioner of Education;

"(f) The Commissioner shall appoint the members of the Committee described in paragraphs (4), (5), (6), (7), and (8) of subsection (e) of this section, after consultation in the case of those members appointed under each such paragraph, with nationally-recognized organizations of such persons or agencies.

"(g) (1) No later than October 1, 1977, the Committee shall prepare and submit to the President of the Senate and the Speaker of the House of Representatives a report of their findings and recommendations for an improved method or methods for the determination of the quarterly rate of the special allowance paid under this Act which they believe will carry out the objectives set forth in subsection (a) of this section.

"(2) The Committee shall make every effort to reach a unanimous decision with respect to the method for the determination of the quarterly rate of the special allowance established under this section.

"(3) In developing the method for the determination of the quarterly rate of the special allowance under this section, the Committee shall consider—

"(d) The amount of any State's allotment under this section from appropriations provided under section 102, for any fiscal year shall not be less than the total amount of payments made to the State under allotments determined under this Act for the fiscal year ending June 30, 1976.

"(e) From the sums allotted to a State under this section from appropriations made under section 102(a), 80 per centum of such sums shall be available to each State for the purpose of carrying out subpart 2 of this part and 20 per centum shall be available for the purpose of carrying out subpart 3 of this part.

“GENERAL APPLICATION

20 USC 2306.

“Sec. 106. (a) Any State desiring to receive the amount for which it is eligible for any fiscal year pursuant to this Act shall, through its

State board, submit to, and maintain on file with, the Commissioner a general application providing assurances—

“(1) that the State will provide for such methods of administration as are necessary for the proper and efficient administration of the Act;

“(2) that the State board will cooperate with the State advisory council on vocational education in carrying out its duties pursuant to section 105 and with the agencies, councils, and individuals specified in sections 107 and 108 to be involved in the formulation of the five-year State plan and of the annual program plans and accountability reports;

“(3) that the State will comply with any requests of the Commissioner for making such reports as the Commissioner may reasonably require to carry out his functions under this Act;

“(4) that funds will be distributed to eligible recipients on the basis of annual applications which—

“(A) have been developed in consultation (i) with representatives of the educational and training resources available in the area to be served by the applicant and (ii) with the local advisory council required to be established by this Act to assist such recipients,

“(B) (i) describe the vocational education needs of potential students in the area or community served by the applicant and indicate how, and to what extent, the program proposed in the application will meet such needs, and (ii) describe how the findings of any evaluations of programs operated by such applicant during previous years, including those required by this Act, have been used to develop the program proposed in the application,

“(C) describe how the activities proposed in the application relate to manpower programs conducted in the area by a prime sponsor established under the Comprehensive Employment and Training Act of 1973, if any, to assure a coordinated approach to meeting the vocational education and training needs of the area or community, and

29 USC 801 note.

“(D) describe the relationship between vocational education programs proposed to be conducted with funds under this Act and other programs in the area or community which are supported by State and local funds;

and that any eligible recipient dissatisfied with final action with respect to any application for funds under this Act shall be given reasonable notice and opportunity for a hearing;

“(5) (A) that the State shall, in considering the approval of such applications, give priority to those applicants which—

“(i) are located in economically depressed areas and areas with high rates of unemployment, and are unable to provide the resources necessary to meet the vocational education needs of those areas without Federal assistance, and

“(ii) propose programs which are new to the area to be served and which are designed to meet new and emerging manpower needs and job opportunities in the area and, where relevant, in the State and the Nation; and

“(B) that the State shall, in determining the amount of funds available under this Act which shall be made available to those applicants approved for funding, base such distribution on economic, social and demographic factors relating to the need for

vocational education among the various populations and the various areas of the State, except that—

“(i) the State will use as the two most important factors in determining this distribution (I) in the case of local educational agencies, the relative financial ability of such agencies to provide the resources necessary to meet the need for vocational education in the areas they service and the relative number or concentration of low-income families or individuals within such agencies, and (II) in the case of other eligible recipients, the relative financial ability of such recipients to provide the resources necessary to initiate or maintain vocational education programs to meet the needs of their students and the relative number or concentration of students whom they serve whose education imposes higher than average costs, such as handicapped students, students from low-income families, and students from families in which English is not the dominant language; and

“(ii) the State will not allocate such funds among eligible recipients within the State on the basis of per capita enrollment or through matching of local expenditures on a uniform percentage basis, or deny funds to any recipient which is making a reasonable tax effort solely because such recipient is unable to pay the non-Federal share of the cost of new programs;

“(6) that Federal funds made available under this Act will be so used as to supplement, and to the extent practicable, increase the amount of State and local funds that would in the absence of such Federal funds be made available for the uses specified in the Act, and in no case supplant such State or local funds;

“(7) that the State will make provision for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid to the State (including such funds paid by the State to eligible recipients under this Act);

able to demonstrate in its five-year plan the need to shift funds from such use;

“(b) (1) In order to meet the needs in all States for qualified vocational education personnel (such as administrators, supervisors, teacher educators, researchers, guidance and counseling personnel, and instructors in vocational education programs) the Commissioner shall make available leadership development awards in accordance with the provisions of this subsection only upon his determination that—

“Subpart 3—Bilingual Vocational Training

“STATEMENT OF FINDINGS

“SEC. 181. The Congress hereby finds that one of the most acute problems in the United States is that which involves millions of citizens, both children and adults, whose efforts to profit from vocational education are severely restricted by their limited English-speaking ability because they came from environments where the dominant language is other than English; that such persons are therefore unable to help to fill the critical need for more and better educated personnel in vital occupational categories; and that such persons are unable to make their maximum contribution to the Nation's economy and must, in fact, suffer the hardships of unemployment or underemployment. The Congress further finds that there is a critical shortage of instructors possessing both the job knowledge and skills and the dual language capabilities required for adequate vocational instruction of such language-handicapped persons and to prepare such persons to perform adequately in a work environment requiring English

language skills, and a corresponding shortage of instructional materials and of instructional methods and techniques suitable for such instruction.

“(3) report their findings annually to the President and the Congress.

Oct. 12, 1976
[H.R. 5546]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE: REFERENCE TO ACT

Health
Professions
Educational

42 USC 201 note.

SECTION 1. (a) This Act may be cited as the "Health Professions Educational Assistance Act of 1976".

FINDINGS AND DECLARATION OF POLICY

SEC. 2. (a) The Congress finds and declares that—

42 USC 292 note.

(1) the availability of high quality health care to all Americans is a national goal;

(2) the availability of high quality health care is, to a substantial extent, dependent upon—

(A) the availability of qualified health professions personnel; and

(B) the availability of adequate numbers of physicians engaged in the delivery of primary care, including family practice, general internal medicine, and general pediatrics, and in the various specialties, but numbers which do not exceed the need for physicians in such specialties;

(3) there are many areas in the United States which are unable to attract adequate numbers of health professions personnel to meet their health care needs; and

(4) physician specialization has resulted in inadequate numbers of physicians engaged in the delivery of primary care.

(b) The Congress further finds and declares that—

(1) health professions personnel are a national health resource and the Federal Government shares the responsibility of assuring that such qualified personnel are available to meet the health care needs of the American people;

(2) it is therefore appropriate to provide support for the education and training of such personnel; and

(3) at the same time it is appropriate to provide such support in a manner which will assure the availability of health professions personnel to all of the American people.

(c) The Congress further finds and declares that there is no longer an insufficient number of physicians and surgeons in the United States such that there is no further need for affording preference to alien physicians and surgeons in admission to the United States under the Immigration and Nationality Act.

“CERTIFICATE OF FEDERAL LOAN INSURANCE—EFFECTIVE DATE OF INSURANCE

42 USC 294e.

“SEC. 732. (a) (1) If, upon application by an eligible lender, made upon such form, containing such information, and supported by such evidence as the Secretary may require, and otherwise in conformity with this section, the Secretary finds that the applicant has made a loan to an eligible student which is insurable under the provisions of this subpart, he may issue to the applicant a certificate of insurance covering the loan and setting forth the amount and terms of the insurance.

“(2) Insurance evidenced by a certificate of insurance pursuant to subsection (a) (1) shall become effective upon the date of issuance of the certificate, except that the Secretary is authorized, in accordance with regulations, to issue commitments with respect to proposed loans, or with respect to lines (or proposed lines) of credit, submitted by eligible lenders, and in that event, upon compliance with subsection (a) (1) by the lender, the certificate of insurance may be issued effective as of the date when any loan, or any payment by the lender pursuant to a line of credit, to be covered by such insurance was made. Such insurance shall cease to be effective upon 60 days' default by the lender in the payment of any installment of the premiums payable pursuant to subsection (c).

Application.

“(3) An application submitted pursuant to subsection (a) (1) shall contain (A) an agreement by the applicant to pay, in accordance with regulations, the premiums fixed by the Secretary pursuant to subsection (c), and (B) an agreement by the applicant that if the loan is covered by insurance the applicant will submit such supplementary reports and statements during the effective period of the loan agreement, upon such forms, at such times, and containing such information as the Secretary may prescribe by or pursuant to regulation.

“(b) (1) In lieu of requiring a separate insurance application and issuing a separate certificate of insurance for each student loan made by an eligible lender as provided in subsection (a), the Secretary

may, in accordance with regulations consistent with section 728, issue to any eligible lender applying therefor a certificate of comprehensive insurance coverage which shall, without further action by the Secretary, insure all insurable loans made by that lender, on or after the date of the certificate and before a specified cutoff date, within the limits of an aggregate maximum amount stated in the certificate. Such regulations may provide for conditioning such insurance, with respect to any loan, upon compliance by the lender with such requirements (to be stated or incorporated by reference in the certificate) as in the Secretary's judgment will best achieve the purpose of this subsection while protecting the financial interest of the United States and promoting the objectives of this subpart, including (but not limited to) provisions as to the reporting of such loans and information relevant thereto to the Secretary and as to the payment of initial and other premiums and the effect of default therein, and including provision for confirmation by the Secretary from time to time (through endorsement of the certificate) of the coverage of specific new loans by such certificate, which confirmation shall be incontestable by the Secretary in the absence of fraud or misrepresentation of fact or patent error.

"(2) If the holder of a certificate of comprehensive insurance coverage issued under this subsection grants to a student a line of credit extending beyond the cutoff date specified in that certificate, loans or payments thereon made by the holder after that date pursuant to the line of credit shall not be deemed to be included in the coverage of that certificate except as may be specifically provided therein; but, subject to the limitations of section 728, the Secretary may, in accordance with regulations, make commitments to insure such future loans or payments, and such commitments may be honored either as provided in subsection (a) or by inclusion of such insurance in comprehensive coverage under this subsection for the period or periods in which such future loans or payments are made.

"(c) The Secretary shall, pursuant to regulations, charge for insurance on each loan under this subpart a premium in an amount not to exceed 2 percent per year of the unpaid principal amount of such loan (excluding interest added to principal), payable in advance, at such times and in such manner as may be prescribed by the Secretary. Such regulations may provide that such premium shall not be payable, or if paid shall be refundable, with respect to any period after default in the payment of principal or interest or after the borrower has died or become totally and permanently disabled, if (1) notice of such default or other event has been duly given, and (2) requests for payment of the loss insured against has been made or the Secretary has made such payment on his own motion pursuant to section 733(a).

Regulations.

"(d) The rights of an eligible lender arising under insurance evidenced by a certificate of insurance issued to it under this section may be assigned as security by such lender only to another eligible lender, and subject to regulation by the Secretary.

Assignment of rights.

"(e) The consolidation of the obligations of two or more federally insured loans obtained by a student borrower in any fiscal year into a single obligation evidenced by a single instrument of indebtedness shall not affect the insurance by the United States. If the loans thus consolidated are covered by separate certificates of insurance issued under subsection (a), the Secretary may upon surrender of the original certificates issue a new certificate of insurance in accordance with that subsection upon the consolidated obligation. If the loans thus consolidated are covered by a single comprehensive certificate issued under subsection (b), the Secretary may amend that certificate accordingly.

Loan consolidation.

"DEFAULT OF STUDENT UNDER FEDERAL LOAN INSURANCE PROGRAM

42 USC 294f.

"SEC. 733. (a) Upon default by the student borrower on any loan covered by Federal loan insurance pursuant to this subpart, and after a substantial collection effort (including, if appropriate, commencement of a suit) as determined under regulations of the Secretary, the insurance beneficiary shall promptly notify the Secretary and the Secretary shall, if requested (at that time or after further collection efforts) by the beneficiary, or may on his own motion, if the insurance is still in effect, pay to the beneficiary the amount of the loss sustained by the insured upon that loan as soon as that amount has been determined.

"(b) Upon payment by the Secretary of the amount of the loss pursuant to subsection (a), the United States shall be subrogated for all of the rights of the holder of the obligation upon the insured loan and shall be entitled to an assignment of the note or other evidence of the insured loan by the insurance beneficiary. If the net recovery made by the Secretary on a loan after deduction of the cost of that recovery (including reasonable administrative costs) exceeds the amount of the loss, the excess shall be paid over to the insured.

"(c) Nothing in this section or in this subpart shall be construed to preclude any forbearance for the benefit of the student borrower which may be agreed upon by the parties to the insured loan and approved by the Secretary or to preclude forbearance by the Secretary in the enforcement of the insured obligation after payment on that insurance.

"(d) Nothing in this section or in this subpart shall be construed to excuse the holder of a federally insured loan from exercising reasonable care and diligence in the making of loans under the provisions of this subpart and from exercising a substantial effort in the collection of loans under the provisions of this subpart. If the Secretary, after reasonable notice and opportunity for hearing to an eligible lender, finds that the lender has failed to exercise such care and diligence, to exercise such substantial efforts, to make the reports and statements required under section 732(a)(3), or to pay the required Federal loan insurance premiums, he shall disqualify that lender from obtaining further Federal insurance on loans granted pursuant to this subpart until he is satisfied that its failure has ceased and finds that there is reasonable assurance that the lender will in the future exercise necessary care and diligence, exercise substantial effort, or comply with such requirements, as the case may be.

Definitions.

"(e) As used in this section—

"(1) the term 'insurance beneficiary' means the insured or its authorized assignee in accordance with section 732(d);

"(2) the term 'amount of the loss' means, with respect to a loan, the unpaid balance of the principal amount and interest on such loan; and

"(3) the term 'default' includes only such defaults as have existed for (A) 120 days in the case of a loan which is repayable in monthly installments, or (B) 180 days in the case of a loan which is repayable in less frequent installments.

Notice and hearing.

"(f) The Secretary may, after notice and opportunity for a hearing, cause to be reduced Federal reimbursements or payments for health services under any Federal law to borrowers who are practicing their professions and have defaulted on their loans insured under this subpart in amounts up to the remaining balance of such loans.

"(g) A debt which is a loan insured under the authority of this subpart may be released by a discharge in bankruptcy under title 11 of

the United States Code only if such discharge is granted after the expiration of the five-year period beginning on the first date, as specified in section 731(a)(2)(B), when repayment of such loan is required.

11 USC 1 *et seq.*

Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of the notes or other obligations. The Secretary of the Treasury shall purchase any notes and other obligations issued hereunder and for that purpose he is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under that Act, as amended, are extended to include any purchase of such notes and obligations. Oct. 13, 1976

[S. 3383]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Weather Modification Policy Act of 1976".

National Weather

15 USC 330 note.

15 USC 330 note.

SEC. 2. DECLARATION OF POLICY.

(a) FINDINGS.—The Congress finds and declares the following:

(1) Weather-related disasters and hazards, including drought, hurricanes, tornadoes, hail, lightning, fog, floods, and frost, result in substantial human suffering and loss of life, billions of dollars of annual economic losses to owners of crops and other property, and substantial financial loss to the United States Treasury;

(2) Weather modification technology has significant potential for preventing, diverting, moderating, or ameliorating the adverse effects of such disasters and hazards and enhancing crop production and the availability of water;

(3) The interstate nature of climatic and related phenomena, the severe economic hardships experienced as the result of occasional drought and other adverse meteorological conditions, and the existing role and responsibilities of the Federal Government with respect to disaster relief, require appropriate Federal action to prevent or alleviate such disasters and hazards; and

(4) Weather modification programs may have long-range and unexpected effects on existing climatic patterns which are not confined by national boundaries.

(b) PURPOSE.—It is therefore declared to be the purpose of the Congress in this Act to develop a comprehensive and coordinated national weather modification policy and a national program of weather modification research and development—

Policy.
Research and
development
program.

(1) to determine the means by which deliberate weather modification can be used at the present time to decrease the adverse impact of weather on agriculture, economic growth, and the general public welfare, and to determine the potential for weather modification;

(2) to conduct research into those scientific areas considered most likely to lead to practical techniques for drought prevention or alleviation and other forms of deliberate weather modification;

(3) to develop practical methods and devices for weather modification;

(4) to make weather modification research findings available to interested parties;

(5) to assess the economic, social, environmental, and legal impact of an operational weather modification program;

(6) to develop both national and international mechanisms designed to minimize conflicts which may arise with respect to the peaceful uses of weather modification; and

(7) to integrate the results of existing experience and studies in weather modification activities into model codes and agreements for regulation of domestic and international weather modification activities.

SEC. 3. DEFINITIONS.

15 USC 330 note.

As used in this Act:

- (1) The term "Secretary" means the Secretary of Commerce.

SEC. 4. STUDY.

15 USC 330 note.

The Secretary shall conduct a comprehensive investigation and study of the state of scientific knowledge concerning weather modification, the present state of development of weather modification technology, the problems impeding effective implementation of weather modification technology, and other related matters. Such study shall include—

(1) a review and analysis of the present and past research efforts to establish practical weather modification technology, particularly as it relates to reducing loss of life and crop and property destruction;

(2) a review and analysis of research needs in weather modification to establish areas in which more research could be expected to yield the greatest return in terms of practical weather modification technology;

(3) a review and analysis of existing studies to establish the probable economic importance to the United States in terms of agricultural production, energy, and related economic factors if the present weather modification technology were to be effectively implemented;

(4) an assessment of the legal, social, and ecological implications of expanded and effective research and operational weather modification projects;

(5) formulation of one or more options for a model regulatory code for domestic weather modification activities, such code to be based on a review and analysis of experience and studies in this area, and to be adaptable to State and national needs;

(6) recommendations concerning legislation desirable at all levels of government to implement a national weather modification policy and program;

(7) a review of the international importance and implications of weather modification activities by the United States;

(8) a review and analysis of present and past funding for weather modification from all sources to determine the sources and adequacy of funding in the light of the needs of the Nation;

(9) a review and analysis of the purpose, policy, methods, and funding of the Federal departments and agencies involved in weather modification and of the existing interagency coordination of weather modification research efforts;

(10) a review and analysis of the necessity and feasibility of negotiating an international agreement concerning the peaceful uses of weather modification; and

(11) formulation of one or more options for a model international agreement concerning the peaceful uses of weather modification and the regulation of national weather modification activities; and a review and analysis of the necessity and feasibility of negotiating such an agreement.

SEC. 5. REPORT.

(a) **IN GENERAL.**—The Secretary shall prepare and submit to the President and the Congress, within 1 year after the date of enactment of this Act, a final report on the findings, conclusions, and recommendations of the study conducted pursuant to section 4. Such report shall include:

(4) recommendations for levels of Federal funding sufficient to support adequately a national weather modification research and development program;

(5) recommendations for any changes in the organization and involvement of Federal departments and agencies in weather modification which may be needed to implement effectively the recommended national policy on weather modification and the recommended research and development program; and

(6) recommendations for any regulatory and other legislation which may be required to implement such policy and program or for any international agreement which may be appropriate concerning the peaceful uses of weather modification, including recommendations concerning the dissemination, refinement, and possible implementation of the model domestic code and international agreement developed under the specifications of section 4.

Joint Resolution

Oct. 14, 1976
[S.J. Res. 209]

Authorizing the President to proclaim the week of October 10 through 16, 1976, as "Native American Awareness Week".

Whereas native American people, both on and off the reservations, are receiving too little recognition for their contributions to society; Whereas to the extent there has been oppression of all Indian tribes and people, many non-Indians have lost or have never fully understood the true image of the native American; Whereas there is a strong and renewed interest in the self-preservation of all aspects of Indian culture and heritage; Whereas there is urgency to promote a unified effort of all for the common good, and to bring about a more wholesome relationship among native Americans; Whereas the native American population is working for a better future, for a revival of participation in the tribal affairs, and for a revival of moral support for the tribal councils; Whereas the opportunity exists for an improved understanding regarding how the peoples' needs and desires are reflected in the programs and policies of the tribal governments and Federal agencies; Whereas the native American communities are voicing greater self-expression and exposure of their values to surrounding communities, and are taking a more active role in the use and development of their skills and resources; Whereas the native American people made significant historical contributions to the welfare and survival of early pioneers and explorers who ultimately founded the Republic of the United States of America: Now, therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States is hereby authorized and directed to issue a proclamation designating the week of October 10 through 16, 1976, as "Native American Awareness Week", and calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

INTERSTATE COMPACT TO CONSERVE OIL AND GAS**

“WHEREAS, on the 16th day of February, 1935, in the City of Dallas, Texas, there was executed ‘An Interstate Compact to Conserve Oil and Gas’ which was thereafter formally ratified and approved by the States of Oklahoma, Texas, New Mexico, Illinois, Colorado and Kansas, the original of which is now on deposit with the Department of State of the United States;

“WHEREAS, effective as of September 1, 1971, the several compacting states deem it advisable to amend said compact so as to provide that upon the giving of Congressional consent thereto in its amended form, said Compact will remain in effect until Congress withdraws such consent;

“WHEREAS, the original of said Compact as so amended will, upon execution thereof, be deposited promptly with the Department of State of the United States, a true copy of which follows:

“AN INTERSTATE COMPACT TO CONSERVE OIL AND
GAS

“ARTICLE I

“This agreement may become effective within any compacting state at any time as prescribed by that state, and shall become effective within those states ratifying it whenever any three of the States of Texas, Oklahoma, California, Kansas and New Mexico have ratified and Congress has given its consent. Any oil-producing state may become a party hereto as hereinafter provided.

“ARTICLE II

“The purpose of this compact is to conserve oil and gas by the prevention of physical waste thereof from any cause.

“ARTICLE III

“Each state bound hereby agrees that within a reasonable time it will enact laws, or if the laws have been enacted, then it agrees to continue the same in force, to accomplish within reasonable limits the prevention of:

“(a) The operation of any oil well with an inefficient gas-oil ratio.

“(b) The drowning with water of any stratum capable of producing oil or gas, or both oil and gas, in paying quantities.

“(c) The avoidable escape into the open air or the wasteful burning of gas from a natural gas well.

“(d) The creation of unnecessary fire hazards.

“(e) The drilling, equipping, locating, spacing or operating of a well or wells so as to bring about physical waste of oil or gas or loss in the ultimate recovery thereof.

“(f) The inefficient, excessive or improper use of the reservoir energy in producing any well.

“The enumeration of the foregoing subjects shall not limit the scope of the authority of any state.

“ARTICLE IV

“Each state bound hereby agrees that it will, within a reasonable time, enact statutes, or if such statutes have been enacted then that it will continue the same in force, providing in effect that oil produced in violation of its valid oil and/or gas conservation statutes or any valid rule, order or regulation promulgated thereunder, shall be denied access to commerce; and providing for stringent penalties for the waste of either oil or gas.

“ARTICLE V

“It is not the purpose of this compact to authorize the states joining herein to limit the production of oil or gas for the purpose of stabilizing or fixing the price thereof, or create or perpetuate monopoly, or to promote regimentation, but is limited to the purpose of conserving oil and gas and preventing the avoidable waste thereof within reasonable limitations.

“ARTICLE VI

“Each state joining herein shall appoint one representative to a commission hereby constituted and designated as THE INTER-STATE OIL COMPACT COMMISSION, the duty of which said Commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances, and conditions as may be disclosed for bringing about conservation and the prevention of physical waste of oil and gas, and at such intervals as said Commission deems beneficial it shall report its findings and recommendations to the several states for adoption or rejection.

“The Commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their several jurisdictions to promote the maximum ultimate recovery from the petroleum reserves of said states, and to recommend measures for the maximum ultimate recovery of oil and gas. Said Commission shall organize and adopt suitable rules and regulations for the conduct of its business.

“No action shall be taken by the Commission except: (1) By the affirmative votes of the majority of the whole number of the compacting states represented at any meeting, and (2) by a concurring vote of a majority in interest of the compacting states at said meeting, such interest to be determined as follows: Such vote of each state shall be in the decimal proportion fixed by the ratio of its daily average production during the preceding calendar half-year to the daily average production of the compacting states during said period.

“ARTICLE VII

“No state by joining herein shall become financially obligated to any other state, nor shall the breach of the terms hereof by any state subject such state to financial responsibility to the other states joining herein.

“ARTICLE VIII

“This compact shall continue in effect until Congress withdraws its consent. But any state joining herein may, upon sixty (60) days' notice, withdraw herefrom.

“The representatives of the signatory states have signed this agreement in a single original which shall be deposited in the archives of the Department of State of the United States, and a duly certified copy shall be forwarded to the governor of each of the signatory states.

“This compact shall become effective when ratified and approved as provided in Article I. Any oil-producing state may become a party hereto by affixing its signature to a counterpart to be similarly deposited, certified, and ratified.

“Done in the City, of Dallas, Texas, this sixteenth day of February, 1935.”

“(b) The State planning agency shall—

“(2) define, develop, and correlate programs and projects for the State and the units of general local government in the State or combinations of States or units for improvement in law enforcement and criminal justice;

The members of the judicial planning committee shall be appointed by the court of last resort or a judicial agency authorized on the date of enactment of this subsection by State law to perform such function, provided it has a statutory membership of a majority of court officials (including judges, court administrators, prosecutors, and public defenders) and serve at its pleasure. In allocating funds under this subsection, the State planning agency shall assure that major cities and counties within the State receive planning funds to develop comprehensive plans and coordinate functions at the local level. Any portion of such funds made available to the judicial planning committee and such 40 per centum in any State for any fiscal year not required for the purpose set forth in this subsection shall be available for expenditure by such State agency from time to time on dates during such year as the Administration may fix, for the development by it of the State plan required under this part.

“(i) compliance has not been secured by the chief executive of that State or the chief executive of that unit of general local government; and

“(ii) an administrative law judge has not made a determination under subparagraph (F) that it is likely the State government or unit of local government will prevail on the merits; the Administration shall notify the Attorney General that compliance has not been secured and suspend further payment of any funds under this title to that program or activity. Such suspension shall be limited to the specific program or activity cited by the Administration in the notice under subparagraph (A). Such suspension shall be effective for a period of not more than one hundred and twenty days, or, if there is a hearing under subparagraph (G), not more than thirty days after the conclusion of such hearing, unless there has been an express finding by the Administration after notice and opportunity for such a hearing, that the recipient is not in compliance with subsection (c) (1).

“(D) Payment of the suspended funds shall resume only if—

“(i) such State government or unit of general local government enters into a compliance agreement approved by the Administration and the Attorney General in accordance with subparagraph (B);

“(ii) such State government or unit of general local government complies fully with the final order or judgment of a Federal or State court, or by a Federal or State administrative agency if that order or judgment covers all the matters raised by the Administration in the notice pursuant to subparagraph (A), or is found to be in compliance with subsection (c) (1) by such court; or

“(E) Whenever the Attorney General files a civil action alleging a pattern or practice of discriminatory conduct on the basis of race, color, religion, national origin, or sex in any program or activity of a State government or unit of local government which State government or unit of local government receives funds made available under this title, and the conduct allegedly violates the provisions of this section and neither party within forty-five days after such filing has been granted such preliminary relief with regard to the suspension or payment of funds as may be otherwise available by law, the Administration shall suspend further payment of any funds under this title to that specific program or activity alleged by the Attorney General to be in violation of the provisions of this subsection until such time as the court orders resumption of payment.

“(F) Prior to the suspension of funds under subparagraph (C), but within the ninety-day period after notification under subparagraph (C), the State government or unit of local government may request an expedited preliminary hearing by an administrative law judge in order to determine whether it is likely that the State government or unit of local government would, at a full hearing under subparagraph (G), prevail on the merits on the issue of the alleged noncompliance. A finding under this subparagraph by the administrative law judge in favor of the State government or unit of local government shall defer the suspension of funds under subparagraph (C) pending a finding of noncompliance at the conclusion of the hearing on the merits under subparagraph (G).

“(G) (i) At any time after notification under subparagraph (A), but before the conclusion of the one hundred and twenty day period referred to in subparagraph (C), a State government or unit of general local government may request a hearing, which the Administration shall initiate within sixty days of such request.

If the Administrator makes a finding of noncompliance, the Administration shall notify the Attorney General in order that the Attorney General may institute a civil action under subsection (c) (3), terminate the payment of funds under this title, and, if appropriate, seek repayment of such funds.

“(iii) If the Administration makes a finding of compliance, payment of the suspended funds shall resume as provided in subparagraph (D).

“(H) Any State government or unit of general local government aggrieved by a final determination of the Administration under subparagraph (G) may appeal such determination as provided in section 511 of this title.

“(3) Whenever the Attorney General has reason to believe that a State government or unit of local government has engaged or is engaging in a pattern or practice in violation of the provisions of this section, the Attorney General may bring a civil action in an appropriate United States district court. Such court may grant as relief any temporary restraining order, preliminary or permanent injunction, or other order, as necessary or appropriate to insure the full enjoyment of the rights described in this section, including the suspension, termination, or repayment of such funds made available under this title as the court may deem appropriate, or placing any further such funds in escrow pending the outcome of the litigation.

“(4) (A) Whenever a State government or unit of local government, or any officer or employee thereof acting in an official capacity, has engaged or is engaging in any act or practice prohibited by this subsection, a civil action may be instituted after exhaustion of administrative remedies by the person aggrieved in an appropriate United States district court or in a State court of general jurisdiction. Administrative remedies shall be deemed to be exhausted upon the expiration of sixty days after the date of the administrative complaint was filed with the Administration, or any other administrative enforcement agency, unless within such period there has been a determination by the Administration or the agency on the merits of the complaint, in which case such remedies shall be deemed exhausted at the time the determination becomes final.

“(B) In any civil action brought by a private person to enforce compliance with any provision of this subsection, the court may grant to a prevailing plaintiff reasonable attorney fees, unless the court determines that the lawsuit is frivolous, vexatious, brought for harassment purposes, or brought principally for the purpose of gaining attorney fees.

“(C) In any action instituted under this section to enforce compliance with section 518(c)(1), the Attorney General, or a specially designated assistant for or in the name of the United States, may intervene upon timely application if he certifies that the action is of general public importance. In such action the United States shall be entitled to the same relief as if it had instituted the action.”

SEC. 401. (a) The Congress finds:

(1) Since 1866 a colony for the care and treatment of the victims of leprosy, known as the Kalaupapa settlement, has existed on the island of Molokai in the State of Hawaii. On this site Father Joseph Damien de Veuster (1840-1889) worked for sixteen years among those victims

until at last succumbing to their disease. This inspiring work made him a figure of such national acclaim that a statue of him rests in the Nation's Capitol. This work led to proceedings for his beatification by the Catholic Church and to worldwide veneration of this devotion and mission. This respect and admiration served to focus unprecedented attention on the disease of leprosy and stimulated charity and scientific research toward its cure.

(2) The Kalaupapa settlement constitutes a unique and nationally significant cultural, historical, educational, and scenic resource.

(b) The purposes of this title are—

(1) to preserve and interpret the Kalaupapa settlement for the education and inspiration of present and future generations, and

(2) to provide that the preservation and interpretation of that settlement be managed and performed by native Hawaiians, including patients and former patients of the Kalaupapa settlement, to the extent practical, and that training opportunities be provided such persons in management and interpretation of the settlement's cultural, historical, educational, and scenic resources.

Study.

SEC. 402. (a) The Secretary of the Interior (hereinafter referred to as the "Secretary") shall study the feasibility and desirability of establishing as a part of the National Park System an area (hereinafter referred to as the "proposed park area") comprising all, or a portion of, the lands, waters, and interest in Kalawao County on the island of Molokai.

(b) As a part of such study, the Secretary shall consult with other interested Federal agencies, with other interested State and local bodies and officials, with patients and former patients presently in residence at the Kalaupapa settlement and with the Commission established by section 404, and he shall coordinate the study with other applicable planning activities.

SEC. 403. (a) The Secretary shall submit to the President and the Congress within two years after the date of the enactment of this title a report of his study. The report of the Secretary shall contain, but not be limited to, findings with respect to the historic, cultural, educational, scenic, and natural values of the resources involved and recommendations for preservation and interpretation of those resources.

Master plan.

(b) The report of the Secretary referred to in subsection (a) shall include a detailed proposed master plan for the development of the proposed park area. Such plan shall include: (1) a schedule of acquisition of the proposed park area, (2) an assessment of planned restorations of historic sites, (3) an estimate of park development and long-term operation costs, (4) a plan for the development of programs (including training programs) for native Hawaiians, including patients and former patients of the Kalaupapa settlement, to manage and perform the preservation and interpretation of the park, (5) provision for the preservation of existing, exclusive hunting and fishing (konohiki) rights of the residents of Kalawao County, and (6) provision to prevent the dislocation or displacement of any patient or former patient presently in residence at the Kalaupapa settlement and to maintain transportation and hospital facilities and other public services as may be necessary for any remaining patients or settlement staff.

Kalaupapa
National
Historical Park
Advisory
Commission.
Establishment.
Membership.

SEC. 404. (a) There is hereby established a Kalaupapa National Historical Park Advisory Commission.

(b) The Commission shall be composed of fifteen members, at least six of whom shall be native Hawaiians, appointed by the Secretary, as follows:

(1) two members, one of whom will be appointed from recommendations made by each of the United States Senators representing the State of Hawaii, respectively;

(2) two members, one of whom will be appointed from recommendations made by each of the United States Representatives for the State of Hawaii, respectively;

(4) two members to be appointed from recommendations made by local organizations representing the native Hawaiian people;

(5) at least two members representing the patient's organization; and

(6) two members to be appointed from recommendations made by the mayor of the county of Maui.

(c) The term "native Hawaiian", as used in this title means a descendant of not less than one-half part of the blood of the races inhabiting the Hawaiian Islands previous to the year 1778.

SEC. 502. The Secretary of Agriculture is authorized and directed to study the Shawnee Hills in Saline, Pope, Gallatin, and Hardin Counties, Illinois, as depicted on the map entitled, "Shawnee Hills Study Area," dated June 1976, which shall be on file and available for inspection in the Office of the Chief, Forest Service, United States Department of Agriculture. 94th Congress

An Act

To amend the Federal Property and Administrative Services Act of 1949 to permit the donation of Federal surplus personal property to the States and local organizations for public purposes, and for other purposes.

Oct. 17, 1976

[H.R. 14451]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 203 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) is amended as follows:

(1) Subsection (j) is amended to read as follows:

“(j) (1) Under such regulations as he may prescribe, the Administrator is authorized in his discretion to transfer, without cost (except for costs of care and handling), any personal property under the control of any executive agency which has been determined to be surplus property to the State agency in each State designated under State law as the agency responsible for the fair and equitable distribution, through donation, of all property transferred in accordance with the provisions of paragraphs (2) and (3) of this subsection. In determining whether the property is to be transferred for donation under this subsection, no distinction shall be made between property capitalized in a working-capital fund established under section 2208 of title 10, United States Code, or any similar fund, and any other property.

“(2) In the case of surplus personal property under the control of the Department of Defense, the Secretary of Defense shall determine whether such property is usable and necessary for educational activities which are of special interest to the armed services, such as maritime academies, or military, naval, Air Force, or Coast Guard preparatory schools. If the Secretary determines that such property is usable and necessary for said purposes, the Secretary shall allocate it for transfer by the Administrator to the appropriate State agency for distribution, through donation, to such educational activities. If the Secretary determines that such property is not usable and necessary for such purposes, it may be disposed of in accordance with paragraph (3) of this subsection.

“(3) Except for surplus personal property transferred pursuant to paragraph (2) of this subsection, the Administrator shall, pursuant to criteria which are based on need and utilization and established after such consultation with State agencies as is feasible, allocate such property among the States in a fair and equitable basis (taking into account the condition of the property as well as the original acquisition cost thereof), and transfer to the State agency property selected by it for distribution through donation within the State—

“(A) to any public agency for use in carrying out or promoting for the residents of a given political area one or more public purposes, such as conservation, economic development, education, parks and recreation, public health, and public safety; or

“(B) to nonprofit educational or public health institutions or organizations, such as medical institutions, hospitals, clinics, health centers, schools, colleges, universities, schools for the mentally retarded, schools for the physically handicapped, child

care centers, radio and television stations licensed by the Federal Communications Commission as educational radio or educational television stations, museums attended by the public, and libraries serving free all residents of a community, district, State, or region, which are exempt from taxation under section 501 of the Internal Revenue Code of 1954, for purposes of education or public health (including research for any such purpose).

The Administrator, in allocating and transferring property under this paragraph, shall give fair consideration, consistently with the established criteria, to expressions of need and interest on the part of public agencies and other eligible institutions within that State, and shall give special consideration to requests by eligible recipients, transmitted through the State agency, for specific items of property.

“(4) (A) Before property may be transferred to any State agency, such State shall develop, according to State law, a detailed plan of operation, developed in conformity with the provisions of this subsection, which shall include adequate assurance that the State agency has the necessary organizational and operational authority and capability, including staff, facilities, means and methods of financing, and procedures with respect to: accountability, internal and external audits, cooperative agreements, compliance and utilization reviews, equitable distribution and property disposal, determination of eligibility, and assistance through consultation with advisory bodies and public and private groups. The chief executive officer shall certify and submit the plan to the Administrator. In the event that a State legislature has not developed, according to State law, a State plan within two hundred and seventy calendar days after the date of enactment of this Act, the chief executive officer of the State shall approve, and submit to the Administrator, a temporary State plan. No such plan, and no major amendment thereof, shall be filed with the Administrator until sixty days after general notice of the proposed plan or amendment has been published and interested persons have been given at least thirty days during which to submit comments. In developing and implementing the State plan, the relative needs and resources of all public agencies and other eligible institutions within the State shall be taken into consideration. The Administrator may consult with interested Federal agencies for purposes of obtaining their views concerning the administration and operation of this subsection.

“(B) The State plan shall provide for the fair and equitable distribution of property within such State based on the relative needs and resources of interested public agencies and other eligible institutions within the State and their abilities to utilize the property.

“(C) (i) The State plan of operation shall require the State agency to utilize a management control system and accounting system for donable property transferred under this section of the same types as are required by State law for State-owned property, except that the State agency, with the approval of the chief executive officer of the State, may elect, in lieu of such systems, to utilize such other management control and accounting systems as are effective to govern the utilization, inventory control, accountability, and disposal of property under this subsection.

“(ii) The State plan of operation shall require the State agency to provide for the return of donable property for further distribution if such property, while still usable, has not been placed in use for the purpose for which it was donated within one year of donation or ceases to be used by the donee for such purposes within one year of being placed in use.

“(iii) The State plan shall require the State agency, insofar as practicable, to select property requested by a public agency or other eligible institution within the State and, if so requested by the recipient, to arrange shipment of that property, when acquired, directly to the recipient.

“(D) Where the State agency is authorized to assess and collect service charges from participating recipients to cover direct and reasonable indirect costs of its activities, the method of establishing such charges shall be set out in the State plan of operation. Such charges shall be fair and equitable and shall be based on services performed by the State agency, including, but not limited to, screening, packing, crating, removal, and transportation.

“(E) The State plan of operation shall provide that the State agency may impose reasonable terms, conditions, reservations, and restrictions on the use of property to be donated under paragraph (3) of this subsection and shall impose such terms, conditions, reservations, and restrictions in the case of any passenger motor vehicle and any item of other property having a unit acquisition cost of \$3,000 or more. If the Administrator finds that an item or items have characteristics that require special handling or use limitations, he may impose appropriate conditions on the donation of such property.

“(F) The State plan of operation shall provide that surplus property which the State agency determines cannot be utilized by eligible recipients shall be disposed of—

“(i) subject to the disapproval of the Administrator within thirty days after notice to him, through transfer by the State agency to another State agency or through abandonment or destruction where the property has no commercial value or the estimated cost of its continued care and handling would exceed the estimated proceeds from its sale; or

“(ii) otherwise pursuant to the provisions of this Act under such terms and conditions and in such manner as may be prescribed by the Administrator.

Notwithstanding sections 204 and 402(c) of this Act, the Administrator, from the proceeds of sale of any such property, may reimburse the State agency for such expenses relating to the care and handling of such property as he shall deem appropriate.

40 USC 485,
512.

“(5) As used in this subsection, (A) the term ‘public agency’ means any State, political subdivision thereof (including any unit of local government or economic development district), or any department, agency, instrumentality thereof (including instrumentalities created by compact or other agreement between States or political subdivisions), or any Indian tribe, band, group, pueblo, or community located on a State reservation and (B) the term ‘State’ means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Virgin Islands, Guam, and American Samoa.”

(C) in subparagraph (4) (D), immediately following the words “armed forces”, by striking out “; or” and inserting in lieu thereof a period; and

(D) by striking out subparagraph (4) (E).

(3) Subsection (n) is amended to read as follows:

“(n) For the purpose of carrying into effect the provisions of subsection (j), the Administrator or the head of any Federal agency designated by the Administrator, and, with respect to subsection (k) (1), the Secretary of Health, Education, and Welfare or the head of any Federal agency designated by the Secretary, are authorized to enter into cooperative agreements with State surplus property distribution agencies designated in conformity with subsection (j). Such cooperative agreements may provide for utilization by such Federal agency, with or without payment or reimbursement, of the property, facilities, personnel, and services of the State agency in carrying out any such program, and for making available to such State agency, with or without payment or reimbursement, property, facilities, personnel, or services of such Federal agency in connection with such utilization. Payment or reimbursement, if any, from the State agency shall be credited to the fund or appropriation against which charges would be made if no payment or reimbursement were received. In addition, under such cooperative agreements and subject to such other conditions as may be imposed by the Administrator, or with respect to subsection (k) (1) by the Secretary of Health, Education, and Welfare, any surplus property transferred to the State agency for distribution pursuant to subsection (j) (3) may be retained by the State agency for use in performing its functions. Unless otherwise directed by the Administrator, title to property so retained shall vest in the State agency.”

(4) Subsection (o) is amended to read as follows:

This section shall not be deemed to terminate any civil or criminal liability arising out of a violation of such a term, condition, reservation, or restriction which occurred prior to such effective date if a judicial proceeding to enforce such liability is pending on such effective date, or is commenced within one year after such date.

FINDINGS

SEC. 2. The Congress finds that—

(1) whales are a unique resource of great aesthetic and scientific interest to mankind and are a vital part of the marine ecosystem;

(2) whales have been overexploited by man for many years, severely reducing several species and endangering others;

(6) there is inadequate knowledge of the ecology, habitat requirements, and population levels and dynamics of all whales found in waters subject to the jurisdiction of the United States; and

(7) further study of such matters is required in order for the United States to carry out its responsibilities for the conservation and protection of marine mammals.

The Secretary of Commerce shall report on such studies, together with such recommendations as he deems appropriate, including suggested legislation, to the Congress no later than January 1, 1980.

§ 101. Definitions

17 USC 101.

As used in this title, the following terms and their variant forms mean the following:

An “anonymous work” is a work on the copies or phonorecords of which no natural person is identified as author.

“Audiovisual works” are works that consist of a series of related images which are intrinsically intended to be shown by the use of machines or devices such as projectors, viewers, or electronic equipment, together with accompanying sounds, if any, regardless

of the nature of the material objects, such as films or tapes, in which the works are embodied.

The "best edition" of a work is the edition, published in the United States at any time before the date of deposit, that the Library of Congress determines to be most suitable for its purposes.

A person's "children" are that person's immediate offspring, whether legitimate or not, and any children legally adopted by that person.

A "collective work" is a work, such as a periodical issue, anthology, or encyclopedia, in which a number of contributions, constituting separate and independent works in themselves, are assembled into a collective whole.

A "compilation" is a work formed by the collection and assembling of preexisting materials or of data that are selected, coordinated, or arranged in such a way that the resulting work as a whole constitutes an original work of authorship. The term "compilation" includes collective works.

"Copies" are material objects, other than phonorecords, in which a work is fixed by any method now known or later developed, and from which the work can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. The term "copies" includes the material object, other than a phonorecord, in which the work is first fixed.

"Copyright owner", with respect to any one of the exclusive rights comprised in a copyright, refers to the owner of that particular right.

A work is "created" when it is fixed in a copy or phonorecord for the first time; where a work is prepared over a period of time, the portion of it that has been fixed at any particular time constitutes the work as of that time, and where the work has been prepared in different versions, each version constitutes a separate work.

A "derivative work" is a work based upon one or more preexisting works, such as a translation, musical arrangement, dramatization, fictionalization, motion picture version, sound recording, art reproduction, abridgment, condensation, or any other form in which a work may be recast, transformed, or adapted. A work consisting of editorial revisions, annotations, elaborations, or other modifications which, as a whole, represent an original work of authorship, is a "derivative work".

A "device", "machine", or "process" is one now known or later developed.

To "display" a work means to show a copy of it, either directly or by means of a film, slide, television image, or any other device or process or, in the case of a motion picture or other audiovisual work, to show individual images nonsequentially.

A work is "fixed" in a tangible medium of expression when its embodiment in a copy or phonorecord, by or under the authority of the author, is sufficiently permanent or stable to permit it to be perceived, reproduced, or otherwise communicated for a period of more than transitory duration. A work consisting of sounds, images, or both, that are being transmitted, is "fixed" for purposes of this title if a fixation of the work is being made simultaneously with its transmission.

The terms "including" and "such as" are illustrative and not limitative.

A "joint work" is a work prepared by two or more authors with the intention that their contributions be merged into inseparable or interdependent parts of a unitary whole.

"Literary works" are works, other than audiovisual works, expressed in words, numbers, or other verbal or numerical symbols or indicia, regardless of the nature of the material objects, such as books, periodicals, manuscripts, phonorecords, film, tapes, disks, or cards, in which they are embodied.

"Motion pictures" are audiovisual works consisting of a series of related images which, when shown in succession, impart an impression of motion, together with accompanying sounds, if any.

To "perform" a work means to recite, render, play, dance, or act it, either directly or by means of any device or process or, in the case of a motion picture or other audiovisual work, to show its images in any sequence or to make the sounds accompanying it audible.

"Phonorecords" are material objects in which sounds, other than those accompanying a motion picture or other audiovisual work, are fixed by any method now known or later developed, and from which the sounds can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. The term "phonorecords" includes the material object in which the sounds are first fixed.

"Pictorial, graphic, and sculptural works" include two-dimensional and three-dimensional works of fine, graphic, and applied art, photographs, prints and art reproductions, maps, globes, charts, technical drawings, diagrams, and models. Such works shall include works of artistic craftsmanship insofar as their form but not their mechanical or utilitarian aspects are concerned; the design of a useful article, as defined in this section, shall be considered a pictorial, graphic, or sculptural work only if, and only to the extent that, such design incorporates pictorial, graphic, or sculptural features that can be identified separately from, and are capable of existing independently of, the utilitarian aspects of the article.

A "pseudonymous work" is a work on the copies or phonorecords of which the author is identified under a fictitious name.

"Publication" is the distribution of copies or phonorecords of a work to the public by sale or other transfer of ownership, or by rental, lease, or lending. The offering to distribute copies or phonorecords to a group of persons for purposes of further distribution, public performance, or public display, constitutes publication. A public performance or display of a work does not of itself constitute publication.

To perform or display a work "publicly" means—

(1) to perform or display it at a place open to the public or at any place where a substantial number of persons outside of a normal circle of a family and its social acquaintances is gathered; or

(2) to transmit or otherwise communicate a performance or display of the work to a place specified by clause (1) or to the public, by means of any device or process, whether the members of the public capable of receiving the performance or display receive it in the same place or in separate places and at the same time or at different times.

"Sound recordings" are works that result from the fixation of a series of musical, spoken, or other sounds, but not including the sounds accompanying a motion picture or other audiovisual work, regardless of the nature of the material objects, such as disks, tapes, or other phonorecords, in which they are embodied.

"State" includes the District of Columbia and the Commonwealth of Puerto Rico, and any territories to which this title is made applicable by an Act of Congress.

A "transfer of copyright ownership" is an assignment, mortgage, exclusive license, or any other conveyance, alienation, or hypothecation of a copyright or of any of the exclusive rights comprised in a copyright, whether or not it is limited in time or place of effect, but not including a nonexclusive license.

A "transmission program" is a body of material that, as an aggregate, has been produced for the sole purpose of transmission to the public in sequence and as a unit.

To "transmit" a performance or display is to communicate it by any device or process whereby images or sounds are received beyond the place from which they are sent.

The "United States", when used in a geographical sense, comprises the several States, the District of Columbia and the Commonwealth of Puerto Rico, and the organized territories under the jurisdiction of the United States Government.

A "useful article" is an article having an intrinsic utilitarian function that is not merely to portray the appearance of the article or to convey information. An article that is normally a part of a useful article is considered a "useful article".

The author's "widow" or "widower" is the author's surviving spouse under the law of the author's domicile at the time of his or her death, whether or not the spouse has later remarried.

A "work of the United States Government" is a work prepared by an officer or employee of the United States Government as part of that person's official duties.

A "work made for hire" is—

(1) a work prepared by an employee within the scope of his or her employment; or

(2) a work specially ordered or commissioned for use as a contribution to a collective work, as a part of a motion picture or other audiovisual work, as a translation, as a supplementary work, as a compilation, as an instructional text, as a test, as answer material for a test, or as an atlas, if the parties expressly agree in a written instrument signed by them that the work shall be considered a work made for hire. For the purpose of the foregoing sentence, a "supplementary work" is a work prepared for publication as a secondary adjunct to a work by another author for the purpose of introducing, concluding, illustrating, explaining, revising, commenting upon, or assisting in the use of the other work, such as forewords, afterwords, pictorial illustrations, maps, charts, tables, editorial notes, musical arrangements, answer material for tests, bibliographies, appendixes, and indexes, and an "instructional text" is a literary, pictorial, or graphic work prepared for publication and with the purpose of use in systematic instructional activities.

§ 102. Subject matter of copyright: In general

(a) Copyright protection subsists, in accordance with this title, in original works of authorship fixed in any tangible medium of expres-

sion, now known or later developed, from which they can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. Works of authorship include the following categories:

Works of
authorship.

- (1) literary works;
- (2) musical works, including any accompanying words;
- (3) dramatic works, including any accompanying music;
- (4) pantomimes and choreographic works;
- (5) pictorial, graphic, and sculptural works;
- (6) motion pictures and other audiovisual works; and
- (7) sound recordings.

(b) In no case does copyright protection for an original work of authorship extend to any idea, procedure, process, system, method of operation, concept, principle, or discovery, regardless of the form in which it is described, explained, illustrated, or embodied in such work.

§ 103. Subject matter of copyright: Compilations and derivative works 17 USC 103.

(a) The subject matter of copyright as specified by section 102 includes compilations and derivative works, but protection for a work employing preexisting material in which copyright subsists does not extend to any part of the work in which such material has been used unlawfully.

(b) The copyright in a compilation or derivative work extends only to the material contributed by the author of such work, as distinguished from the preexisting material employed in the work, and does not imply any exclusive right in the preexisting material. The copyright in such work is independent of, and does not affect or enlarge the scope, duration, ownership, or subsistence of, any copyright protection in the preexisting material.

§ 104. Subject matter of copyright: National origin 17 USC 104.

(a) **UNPUBLISHED WORKS.**—The works specified by sections 102 and 103, while unpublished, are subject to protection under this title without regard to the nationality or domicile of the author.

(b) **PUBLISHED WORKS.**—The works specified by sections 102 and 103, when published, are subject to protection under this title if—

(1) on the date of first publication, one or more of the authors is a national or domiciliary of the United States, or is a national, domiciliary, or sovereign authority of a foreign nation that is a party to a copyright treaty to which the United States is also a party, or is a stateless person, wherever that person may be domiciled; or

(2) the work is first published in the United States or in a foreign nation that, on the date of first publication, is a party to the Universal Copyright Convention; or

(3) the work is first published by the United Nations or any of its specialized agencies, or by the Organization of American States; or

(4) the work comes within the scope of a Presidential proclamation. Whenever the President finds that a particular foreign nation extends, to works by authors who are nationals or domiciliaries of the United States or to works that are first published in the United States, copyright protection on substantially the same basis as that on which the foreign nation extends protection to works of its own nationals and domiciliaries and works first published in that nation, the President may by proclamation extend protection under this title to works of which one or more

of the authors is, on the date of first publication, a national, domiciliary, or sovereign authority of that nation, or which was first published in that nation. The President may revise, suspend, or revoke any such proclamation or impose any conditions or limitations on protection under a proclamation.

17 USC 105. **§ 105. Subject matter of copyright: United States Government works**

Copyright protection under this title is not available for any work of the United States Government, but the United States Government is not precluded from receiving and holding copyrights transferred to it by assignment, bequest, or otherwise.

17 USC 106. **§ 106. Exclusive rights in copyrighted works**

Subject to sections 107 through 118, the owner of copyright under this title has the exclusive rights to do and to authorize any of the following:

- (1) to reproduce the copyrighted work in copies or phonorecords;
- (2) to prepare derivative works based upon the copyrighted work;
- (3) to distribute copies or phonorecords of the copyrighted work to the public by sale or other transfer of ownership, or by rental, lease, or lending;
- (4) in the case of literary, musical, dramatic, and choreographic works, pantomimes, and motion pictures and other audiovisual works, to perform the copyrighted work publicly; and
- (5) in the case of literary, musical, dramatic, and choreographic works, pantomimes, and pictorial, graphic, or sculptural works, including the individual images of a motion picture or other audiovisual work, to display the copyrighted work publicly.

17 USC 107. **§ 107. Limitations on exclusive rights: Fair use**

Notwithstanding the provisions of section 106, the fair use of a copyrighted work, including such use by reproduction in copies or phonorecords or by any other means specified by that section, for purposes such as criticism, comment, news reporting, teaching (including multiple copies for classroom use), scholarship, or research, is not an infringement of copyright. In determining whether the use made of a work in any particular case is a fair use the factors to be considered shall include—

- (1) the purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- (2) the nature of the copyrighted work;
- (3) the amount and substantiality of the portion used in relation to the copyrighted work as a whole; and
- (4) the effect of the use upon the potential market for or value of the copyrighted work.

17 USC 108. **§ 108. Limitations on exclusive rights: Reproduction by libraries and archives**

(a) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a library or archives, or any of its employees acting within the scope of their employment, to reproduce no more than one copy or phonorecord of a work, or to distribute such copy or phonorecord, under the conditions specified by this section, if—

- (1) the reproduction or distribution is made without any purpose of direct or indirect commercial advantage;

(2) the collections of the library or archives are (i) open to the public, or (ii) available not only to researchers affiliated with the library or archives or with the institution of which it is a part, but also to other persons doing research in a specialized field; and

(3) the reproduction or distribution of the work includes a notice of copyright.

(b) The rights of reproduction and distribution under this section apply to a copy or phonorecord of an unpublished work duplicated in facsimile form solely for purposes of preservation and security or for deposit for research use in another library or archives of the type described by clause (2) of subsection (a), if the copy or phonorecord reproduced is currently in the collections of the library or archives.

(c) The right of reproduction under this section applies to a copy or phonorecord of a published work duplicated in facsimile form solely for the purpose of replacement of a copy or phonorecord that is damaged, deteriorating, lost, or stolen, if the library or archives has, after a reasonable effort, determined that an unused replacement cannot be obtained at a fair price.

(d) The rights of reproduction and distribution under this section apply to a copy, made from the collection of a library or archives where the user makes his or her request or from that of another library or archives, of no more than one article or other contribution to a copyrighted collection or periodical issue, or to a copy or phonorecord of a small part of any other copyrighted work, if—

(1) the copy or phonorecord becomes the property of the user, and the library or archives has had no notice that the copy or phonorecord would be used for any purpose other than private study, scholarship, or research; and

(2) the library or archives displays prominently, at the place where orders are accepted, and includes on its order form, a warning of copyright in accordance with requirements that the Register of Copyrights shall prescribe by regulation.

(e) The rights of reproduction and distribution under this section apply to the entire work, or to a substantial part of it, made from the collection of a library or archives where the user makes his or her request or from that of another library or archives, if the library or archives has first determined, on the basis of a reasonable investigation, that a copy or phonorecord of the copyrighted work cannot be obtained at a fair price, if—

(1) the copy or phonorecord becomes the property of the user, and the library or archives has had no notice that the copy or phonorecord would be used for any purpose other than private study, scholarship, or research; and

(2) the library or archives displays prominently, at the place where orders are accepted, and includes on its order form, a warning of copyright in accordance with requirements that the Register of Copyrights shall prescribe by regulation.

(f) Nothing in this section—

(1) shall be construed to impose liability for copyright infringement upon a library or archives or its employees for the unsupervised use of reproducing equipment located on its premises: *Provided*, That such equipment displays a notice that the making of a copy may be subject to the copyright law;

(2) excuses a person who uses such reproducing equipment or who requests a copy or phonorecord under subsection (d) from liability for copyright infringement for any such act, or for any later use of such copy or phonorecord, if it exceeds fair use as provided by section 107;

(3) shall be construed to limit the reproduction and distribution by lending of a limited number of copies and excerpts by a library or archives of an audiovisual news program, subject to clauses (1), (2), and (3) of subsection (a); or

(4) in any way affects the right of fair use as provided by section 107, or any contractual obligations assumed at any time by the library or archives when it obtained a copy or phonorecord of a work in its collections.

(g) The rights of reproduction and distribution under this section extend to the isolated and unrelated reproduction or distribution of a single copy or phonorecord of the same material on separate occasions, but do not extend to cases where the library or archives, or its employee—

(1) is aware or has substantial reason to believe that it is engaging in the related or concerted reproduction or distribution of multiple copies or phonorecords of the same material, whether made on one occasion or over a period of time, and whether intended for aggregate use by one or more individuals or for separate use by the individual members of a group; or

(2) engages in the systematic reproduction or distribution of single or multiple copies or phonorecords of material described in subsection (d): *Provided*, That nothing in this clause prevents a library or archives from participating in interlibrary arrangements that do not have, as their purpose or effect, that the library or archives receiving such copies or phonorecords for distribution does so in such aggregate quantities as to substitute for a subscription to or purchase of such work.

(h) The rights of reproduction and distribution under this section do not apply to a musical work, a pictorial, graphic or sculptural work, or a motion picture or other audiovisual work other than an audiovisual work dealing with news, except that no such limitation shall apply with respect to rights granted by subsections (b) and (c), or with respect to pictorial or graphic works published as illustrations, diagrams, or similar adjuncts to works of which copies are reproduced or distributed in accordance with subsections (d) and (e).

(i) Five years from the effective date of this Act, and at five-year intervals thereafter, the Register of Copyrights, after consulting with representatives of authors, book and periodical publishers, and other owners of copyrighted materials, and with representatives of library users and librarians, shall submit to the Congress a report setting forth the extent to which this section has achieved the intended statutory balancing of the rights of creators, and the needs of users. The report should also describe any problems that may have arisen, and present legislative or other recommendations, if warranted.

§ 109. Limitations on exclusive rights: Effect of transfer of particular copy or phonorecord

Sale or disposal.

(a) Notwithstanding the provisions of section 106(3), the owner of a particular copy or phonorecord lawfully made under this title, or any person authorized by such owner, is entitled, without the authority of the copyright owner, to sell or otherwise dispose of the possession of that copy or phonorecord.

Public display.

(b) Notwithstanding the provisions of section 106(5), the owner of a particular copy lawfully made under this title, or any person authorized by such owner, is entitled, without the authority of the copyright owner, to display that copy publicly, either directly or by the projection of no more than one image at a time, to viewers present at the place where the copy is located.

(c) The privileges prescribed by subsections (a) and (b) do not, unless authorized by the copyright owner, extend to any person who has acquired possession of the copy or phonorecord from the copyright owner, by rental, lease, loan, or otherwise, without acquiring ownership of it.

§ 110. Limitations on exclusive rights: Exemption of certain performances and displays 17 USC 110.

Notwithstanding the provisions of section 106, the following are not infringements of copyright:

(1) performance or display of a work by instructors or pupils in the course of face-to-face teaching activities of a nonprofit educational institution, in a classroom or similar place devoted to instruction, unless, in the case of a motion picture or other audiovisual work, the performance, or the display of individual images, is given by means of a copy that was not lawfully made under this title, and that the person responsible for the performance knew or had reason to believe was not lawfully made;

(2) performance of a nondramatic literary or musical work or display of a work, by or in the course of a transmission, if—

(A) the performance or display is a regular part of the systematic instructional activities of a governmental body or a nonprofit educational institution; and

(B) the performance or display is directly related and of material assistance to the teaching content of the transmission; and

(C) the transmission is made primarily for—

(i) reception in classrooms or similar places normally devoted to instruction, or

(ii) reception by persons to whom the transmission is directed because their disabilities or other special circumstances prevent their attendance in classrooms or similar places normally devoted to instruction, or

(iii) reception by officers or employees of governmental bodies as a part of their official duties or employment;

(3) performance of a nondramatic literary or musical work or of a dramatic-musical work of a religious nature, or display of a work, in the course of services at a place of worship or other religious assembly;

(4) performance of a nondramatic literary or musical work otherwise than in a transmission to the public, without any purpose of direct or indirect commercial advantage and without payment of any fee or other compensation for the performance to any of its performers, promoters, or organizers, if—

(A) there is no direct or indirect admission charge; or

(B) the proceeds, after deducting the reasonable costs of producing the performance, are used exclusively for educational, religious, or charitable purposes and not for private financial gain, except where the copyright owner has served notice of objection to the performance under the following conditions;

(i) the notice shall be in writing and signed by the copyright owner or such owner's duly authorized agent; and

(ii) the notice shall be served on the person responsible for the performance at least seven days before the date of the performance, and shall state the reasons for the objection; and

Notice of
objection to
performance.

Regulation.

- (iii) the notice shall comply, in form, content, and manner of service, with requirements that the Register of Copyrights shall prescribe by regulation;
- (5) communication of a transmission embodying a performance or display of a work by the public reception of the transmission on a single receiving apparatus of a kind commonly used in private homes, unless—
 - (A) a direct charge is made to see or hear the transmission;
 - or
 - (B) the transmission thus received is further transmitted to the public;
- (6) performance of a nondramatic musical work by a governmental body or a nonprofit agricultural or horticultural organization, in the course of an annual agricultural or horticultural fair or exhibition conducted by such body or organization; the exemption provided by this clause shall extend to any liability for copyright infringement that would otherwise be imposed on such body or organization, under doctrines of vicarious liability or related infringement, for a performance by a concessionnaire, business establishment, or other person at such fair or exhibition, but shall not excuse any such person from liability for the performance;
- (7) performance of a nondramatic musical work by a vending establishment open to the public at large without any direct or indirect admission charge, where the sole purpose of the performance is to promote the retail sale of copies or phonorecords of the work, and the performance is not transmitted beyond the place where the establishment is located and is within the immediate area where the sale is occurring;
- (8) performance of a nondramatic literary work, by or in the course of a transmission specifically designed for and primarily directed to blind or other handicapped persons who are unable to read normal printed material as a result of their handicap, or deaf or other handicapped persons who are unable to hear the aural signals accompanying a transmission of visual signals, if the performance is made without any purpose of direct or indirect commercial advantage and its transmission is made through the facilities of: (i) a governmental body; or (ii) a noncommercial educational broadcast station (as defined in section 397 of title 47); or (iii) a radio subcarrier authorization (as defined in 47 CFR 73.293-73.295 and 73.593-73.595); or (iv) a cable system (as defined in section 111(f)).
- (9) performance on a single occasion of a dramatic literary work published at least ten years before the date of the performance, by or in the course of a transmission specifically designed for and primarily directed to blind or other handicapped persons who are unable to read normal printed material as a result of their handicap, if the performance is made without any purpose of direct or indirect commercial advantage and its transmission is made through the facilities of a radio subcarrier authorization referred to in clause (8)(iii), *Provided*, That the provisions of this clause shall not be applicable to more than one performance of the same work by the same performers or under the auspices of the same organization.

17 USC 111.

§ 111. Limitations on exclusive rights: Secondary transmissions

(a) **CERTAIN SECONDARY TRANSMISSIONS EXEMPTED.**—The secondary transmission of a primary transmission embodying a performance or display of a work is not an infringement of copyright if—

(1) the secondary transmission is not made by a cable system, and consists entirely of the relaying, by the management of a hotel, apartment house, or similar establishment, of signals transmitted by a broadcast station licensed by the Federal Communications Commission, within the local service area of such station, to the private lodgings of guests or residents of such establishment, and no direct charge is made to see or hear the secondary transmission; or

(2) the secondary transmission is made solely for the purpose and under the conditions specified by clause (2) of section 110; or

(3) the secondary transmission is made by any carrier who has no direct or indirect control over the content or selection of the primary transmission or over the particular recipients of the secondary transmission, and whose activities with respect to the secondary transmission consist solely of providing wires, cables, or other communications channels for the use of others: *Provided*, That the provisions of this clause extend only to the activities of said carrier with respect to secondary transmissions and do not exempt from liability the activities of others with respect to their own primary or secondary transmissions; or

(4) the secondary transmission is not made by a cable system but is made by a governmental body, or other nonprofit organization, without any purpose of direct or indirect commercial advantage, and without charge to the recipients of the secondary transmission other than assessments necessary to defray the actual and reasonable costs of maintaining and operating the secondary transmission service.

(b) **SECONDARY TRANSMISSION OF PRIMARY TRANSMISSION TO CONTROLLED GROUP.**—Notwithstanding the provisions of subsections (a) and (c), the secondary transmission to the public of a primary transmission embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, if the primary transmission is not made for reception by the public at large but is controlled and limited to reception by particular members of the public: *Provided*, however, That such secondary transmission is not actionable as an act of infringement if—

(1) the primary transmission is made by a broadcast station licensed by the Federal Communications Commission; and

(2) the carriage of the signals comprising the secondary transmission is required under the rules, regulations, or authorizations of the Federal Communications Commission; and

(3) the signal of the primary transmitter is not altered or changed in any way by the secondary transmitter.

(c) **SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.**—

(1) Subject to the provisions of clauses (2), (3), and (4) of this subsection, secondary transmissions to the public by a cable system of a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico and embodying a performance or display of a work shall be subject to compulsory licensing upon compliance with the requirements of subsection (d) where the carriage of the signals comprising the secondary transmission is permissible under the rules, regulations, or authorizations of the Federal Communications Commission.

(2) Notwithstanding the provisions of clause (1) of this subsection, the willful or repeated secondary transmission to the public by a cable system of a primary transmission made by a

broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico and embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, in the following cases:

(A) where the carriage of the signals comprising the secondary transmission is not permissible under the rules, regulations, or authorizations of the Federal Communications Commission; or

(B) where the cable system has not recorded the notice specified by subsection (d) and deposited the statement of account and royalty fee required by subsection (d).

Alteration,
deletion, or
substitution.

(3) Notwithstanding the provisions of clause (1) of this subsection and subject to the provisions of subsection (e) of this section, the secondary transmission to the public by a cable system of a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico and embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcements transmitted by the primary transmitter during, or immediately before or after, the transmission of such program, is in any way willfully altered by the cable system through changes, deletions, or additions, except for the alteration, deletion, or substitution of commercial advertisements performed by those engaged in television commercial advertising market research: *Provided*, That the research company has obtained the prior consent of the advertiser who has purchased the original commercial advertisement, the television station broadcasting that commercial advertisement, and the cable system performing the secondary transmission: *And provided further*, That such commercial alteration, deletion, or substitution is not performed for the purpose of deriving income from the sale of that commercial time.

Prior consent of
advertiser.

(4) Notwithstanding the provisions of clause (1) of this subsection, the secondary transmission to the public by a cable system of a primary transmission made by a broadcast station licensed by an appropriate governmental authority of Canada or Mexico and embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and section 509, if (A) with respect to Canadian signals, the community of the cable system is located more than 150 miles from the United States-Canadian border and is also located south of the forty-second parallel of latitude, or (B) with respect to Mexican signals, the secondary transmission is made by a cable system which received the primary transmission by means other than direct interception of a free space radio wave emitted by such broadcast television station, unless prior to April 15, 1976, such cable system was actually carrying, or was specifically authorized to carry, the signal of such foreign station on the system pursuant to the rules, regulations, or authorizations of the Federal Communications Commission.

(d) COMPULSORY LICENSE FOR SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) For any secondary transmission to be subject to compulsory licensing under subsection (c), the cable system shall, at least one month before the date of the commencement of operations of the cable system or within one hundred and eighty days after the enactment of this Act, whichever is later, and thereafter within thirty days after each occasion on which the ownership or control or the signal carriage complement of the cable system changes, record in the Copyright Office a notice including a statement of the identity and address of the person who owns or operates the secondary transmission service or has power to exercise primary control over it, together with the name and location of the primary transmitter or primary transmitters whose signals are regularly carried by the cable system, and thereafter, from time to time, such further information as the Register of Copyrights, after consultation with the Copyright Royalty Tribunal (if and when the Tribunal has been constituted), shall prescribe by regulation to carry out the purpose of this clause.

Notice.

(2) A cable system whose secondary transmissions have been subject to compulsory licensing under subsection (c) shall, on a semiannual basis, deposit with the Register of Copyrights, in accordance with requirements that the Register shall, after consultation with the Copyright Royalty Tribunal (if and when the Tribunal has been constituted), prescribe by regulation—

(A) a statement of account, covering the six months next preceding, specifying the number of channels on which the cable system made secondary transmissions to its subscribers, the names and locations of all primary transmitters whose transmissions were further transmitted by the cable system, the total number of subscribers, the gross amounts paid to the cable system for the basic service of providing secondary transmissions of primary broadcast transmitters, and such other data as the Register of Copyrights may, after consultation with the Copyright Royalty Tribunal (if and when the Tribunal has been constituted), from time to time prescribe by regulation. Such statement shall also include a special statement of account covering any nonnetwork television programming that was carried by the cable system in whole or in part beyond the local service area of the primary transmitter, under rules, regulations, or authorizations of the Federal Communications Commission permitting the substitution or addition of signals under certain circumstances, together with logs showing the times, dates, stations, and programs involved in such substituted or added carriage; and

Statement of account.

Nonnetwork television programming.

(B) except in the case of a cable system whose royalty is specified in subclause (C) or (D), a total royalty fee for the period covered by the statement, computed on the basis of specified percentages of the gross receipts from subscribers to the cable service during said period for the basic service of providing secondary transmissions of primary broadcast transmitters, as follows:

Total royalty fee.

(i) 0.675 of 1 per centum of such gross receipts for the privilege of further transmitting any nonnetwork programming of a primary transmitter in whole or in part beyond the local service area of such primary transmitter, such amount to be applied against the fee, if any, payable pursuant to paragraphs (ii) through (iv);

(ii) 0.675 of 1 per centum of such gross receipts for the first distant signal equivalent;

(iii) 0.425 of 1 per centum of such gross receipts for each of the second, third, and fourth distant signal equivalents;

(iv) 0.2 of 1 per centum of such gross receipts for the fifth distant signal equivalent and each additional distant signal equivalent thereafter; and

in computing the amounts payable under paragraph (ii) through (iv), above, any fraction of a distant signal equivalent shall be computed at its fractional value and, in the case of any cable system located partly within and partly without the local service area of a primary transmitter, gross receipts shall be limited to those gross receipts derived from subscribers located without the local service area of such primary transmitter; and

(C) if the actual gross receipts paid by subscribers to a cable system for the period covered by the statement for the basic service of providing secondary transmissions of primary broadcast transmitters total \$80,000 or less, gross receipts of the cable system for the purpose of this subclause shall be computed by subtracting from such actual gross receipts the amount by which \$80,000 exceeds such actual gross receipts, except that in no case shall a cable system's gross receipts be reduced to less than \$3,000. The royalty fee payable under this subclause shall be 0.5 of 1 per centum, regardless of the number of distant signal equivalents, if any; and

(D) if the actual gross receipts paid by subscribers to a cable system for the period covered by the statement, for the basic service of providing secondary transmissions of primary broadcast transmitters, are more than \$80,000 but less than \$160,000, the royalty fee payable under this subclause shall be (i) 0.5 of 1 per centum of any gross receipts up to \$80,000; and (ii) 1 per centum of any gross receipts in excess of \$80,000 but less than \$160,000, regardless of the number of distant signal equivalents, if any.

(3) The Register of Copyrights shall receive all fees deposited under this section and, after deducting the reasonable costs incurred by the Copyright Office under this section, shall deposit the balance in the Treasury of the United States, in such manner as the Secretary of the Treasury directs. All funds held by the Secretary of the Treasury shall be invested in interest-bearing United States securities for later distribution with interest by the Copyright Royalty Tribunal as provided by this title. The Register shall submit to the Copyright Royalty Tribunal, on a semi-annual basis, a compilation of all statements of account covering the relevant six-month period provided by clause (2) of this subsection.

(4) The royalty fees thus deposited shall, in accordance with the procedures provided by clause (5), be distributed to those among the following copyright owners who claim that their works were the subject of secondary transmissions by cable systems during the relevant semiannual period:

(A) any such owner whose work was included in a secondary transmission made by a cable system of a nonnetwork television program in whole or in part beyond the local service area of the primary transmitter; and

Royalty fees,
distribution.

(B) any such owner whose work was included in a secondary transmission identified in a special statement of account deposited under clause (2)(A); and

(C) any such owner whose work was included in nonnetwork programming consisting exclusively of aural signals carried by a cable system in whole or in part beyond the local service area of the primary transmitter of such programs.

(5) The royalty fees thus deposited shall be distributed in accordance with the following procedures:

Royalty fees,
distribution
procedures.

(A) During the month of July in each year, every person claiming to be entitled to compulsory license fees for secondary transmissions shall file a claim with the Copyright Royalty Tribunal, in accordance with requirements that the Tribunal shall prescribe by regulation. Notwithstanding any provisions of the antitrust laws, for purposes of this clause any claimants may agree among themselves as to the proportionate division of compulsory licensing fees among them, may lump their claims together and file them jointly or as a single claim, or may designate a common agent to receive payment on their behalf.

(B) After the first day of August of each year, the Copyright Royalty Tribunal shall determine whether there exists a controversy concerning the distribution of royalty fees. If the Tribunal determines that no such controversy exists, it shall, after deducting its reasonable administrative costs under this section, distribute such fees to the copyright owners entitled, or to their designated agents. If the Tribunal finds the existence of a controversy, it shall, pursuant to chapter 8 of this title, conduct a proceeding to determine the distribution of royalty fees.

Post, p. 2594.

(C) During the pendency of any proceeding under this subsection, the Copyright Royalty Tribunal shall withhold from distribution an amount sufficient to satisfy all claims with respect to which a controversy exists, but shall have discretion to proceed to distribute any amounts that are not in controversy.

(e) NONSIMULTANEOUS SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) Notwithstanding those provisions of the second paragraph of subsection (f) relating to nonsimultaneous secondary transmissions by a cable system, any such transmissions are actionable as an act of infringement under section 501, and are fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, unless—

(A) the program on the videotape is transmitted no more than one time to the cable system's subscribers; and

(B) the copyrighted program, episode, or motion picture videotape, including the commercials contained within such program, episode, or picture, is transmitted without deletion or editing; and

(C) an owner or officer of the cable system (i) prevents the duplication of the videotape while in the possession of the system, (ii) prevents unauthorized duplication while in the possession of the facility making the videotape for the system if the system owns or controls the facility, or takes reasonable precautions to prevent such duplication if it does

not own or control the facility, (iii) takes adequate precautions to prevent duplication while the tape is being transported, and (iv) subject to clause (2), erases or destroys, or causes the erasure or destruction of, the videotape; and

(D) within forty-five days after the end of each calendar quarter, an owner or officer of the cable system executes an affidavit attesting (i) to the steps and precautions taken to prevent duplication of the videotape, and (ii) subject to clause (2), to the erasure or destruction of all videotapes made or used during such quarter; and

(E) such owner or officer places or causes each such affidavit, and affidavits received pursuant to clause (2)(C), to be placed in a file, open to public inspection, at such system's main office in the community where the transmission is made or in the nearest community where such system maintains an office; and

(F) the nonsimultaneous transmission is one that the cable system would be authorized to transmit under the rules, regulations, and authorizations of the Federal Communications Commission in effect at the time of the nonsimultaneous transmission if the transmission had been made simultaneously, except that this subclause shall not apply to inadvertent or accidental transmissions.

(2) If a cable system transfers to any person a videotape of a program nonsimultaneously transmitted by it, such transfer is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, except that, pursuant to a written, nonprofit contract providing for the equitable sharing of the costs of such videotape and its transfer, a videotape nonsimultaneously transmitted by it, in accordance with clause (1), may be transferred by one cable system in Alaska to another system in Alaska, by one cable system in Hawaii permitted to make such nonsimultaneous transmissions to another such cable system in Hawaii, or by one cable system in Guam, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands, to another cable system in any of those three territories, if—

(A) each such contract is available for public inspection in the offices of the cable systems involved, and a copy of such contract is filed, within thirty days after such contract is entered into, with the Copyright Office (which Office shall make each such contract available for public inspection); and

(B) the cable system to which the videotape is transferred complies with clause (1)(A), (B), (C)(i), (iii), and (iv), and (D) through (F); and

(C) such system provides a copy of the affidavit required to be made in accordance with clause (1)(D) to each cable system making a previous nonsimultaneous transmission of the same videotape.

(3) This subsection shall not be construed to supersede the exclusivity protection provisions of any existing agreement, or any such agreement hereafter entered into, between a cable system and a television broadcast station in the area in which the cable system is located, or a network with which such station is affiliated.

(4) As used in this subsection, the term "videotape", and each of its variant forms, means the reproduction of the images and

"Videotape."

sounds of a program or programs broadcast by a television broadcast station licensed by the Federal Communications Commission, regardless of the nature of the material objects, such as tapes or films, in which the reproduction is embodied.

(f) DEFINITIONS.—As used in this section, the following terms and their variant forms mean the following:

A “primary transmission” is a transmission made to the public by the transmitting facility whose signals are being received and further transmitted by the secondary transmission service, regardless of where or when the performance or display was first transmitted.

A “secondary transmission” is the further transmitting of a primary transmission simultaneously with the primary transmission, or nonsimultaneously with the primary transmission if by a “cable system” not located in whole or in part within the boundary of the forty-eight contiguous States, Hawaii, or Puerto Rico: *Provided, however*, That a nonsimultaneous further transmission by a cable system located in Hawaii of a primary transmission shall be deemed to be a secondary transmission if the carriage of the television broadcast signal comprising such further transmission is permissible under the rules, regulations, or authorizations of the Federal Communications Commission.

A “cable system” is a facility, located in any State, Territory, Trust Territory, or Possession, that in whole or in part receives signals transmitted or programs broadcast by one or more television broadcast stations licensed by the Federal Communications Commission, and makes secondary transmissions of such signals or programs by wires, cables, or other communications channels to subscribing members of the public who pay for such service. For purposes of determining the royalty fee under subsection (d) (2), two or more cable systems in contiguous communities under common ownership or control or operating from one head-end shall be considered as one system.

The “local service area of a primary transmitter”, in the case of a television broadcast station, comprises the area in which such station is entitled to insist upon its signal being retransmitted by a cable system pursuant to the rules, regulations, and authorizations of the Federal Communications Commission in effect on April 15, 1976, or in the case of a television broadcast station licensed by an appropriate governmental authority of Canada or Mexico, the area in which it would be entitled to insist upon its signal being retransmitted if it were a television broadcast station subject to such rules, regulations, and authorizations. The “local service area of a primary transmitter”, in the case of a radio broadcast station, comprises the primary service area of such station, pursuant to the rules and regulations of the Federal Communications Commission.

A “distant signal equivalent” is the value assigned to the secondary transmission of any nonnetwork television programming carried by a cable system in whole or in part beyond the local service area of the primary transmitter of such programming. It is computed by assigning a value of one to each independent station and a value of one-quarter to each network station and noncommercial educational station for the nonnetwork programming so carried pursuant to the rules, regulations, and authorizations of the Federal Communications Commission. The foregoing values for independent, network, and noncommercial

educational stations are subject, however, to the following exceptions and limitations. Where the rules and regulations of the Federal Communications Commission require a cable system to omit the further transmission of a particular program and such rules and regulations also permit the substitution of another program embodying a performance or display of a work in place of the omitted transmission, or where such rules and regulations in effect on the date of enactment of this Act permit a cable system, at its election, to effect such deletion and substitution of a nonlive program or to carry additional programs not transmitted by primary transmitters within whose local service area the cable system is located, no value shall be assigned for the substituted or additional program; where the rules, regulations, or authorizations of the Federal Communications Commission in effect on the date of enactment of this Act permit a cable system, at its election, to omit the further transmission of a particular program and such rules, regulations, or authorizations also permit the substitution of another program embodying a performance or display of a work in place of the omitted transmission, the value assigned for the substituted or additional program shall be, in the case of a live program, the value of one full distant signal equivalent multiplied by a fraction that has as its numerator the number of days in the year in which such substitution occurs and as its denominator the number of days in the year. In the case of a station carried pursuant to the late-night or specialty programming rules of the Federal Communications Commission, or a station carried on a part-time basis where full-time carriage is not possible because the cable system lacks the activated channel capacity to retransmit on a full-time basis all signals which it is authorized to carry, the values for independent, network, and noncommercial educational stations set forth above, as the case may be, shall be multiplied by a fraction which is equal to the ratio of the broadcast hours of such station carried by the cable system to the total broadcast hours of the station.

A "network station" is a television broadcast station that is owned or operated by, or affiliated with, one or more of the television networks in the United States providing nationwide transmissions, and that transmits a substantial part of the programming supplied by such networks for a substantial part of that station's typical broadcast day.

An "independent station" is a commercial television broadcast station other than a network station.

A "noncommercial educational station" is a television station that is a noncommercial educational broadcast station as defined in section 397 of title 47.

47 USC 397.

17 USC 112.

§ 112. Limitations on exclusive rights: Ephemeral recordings

(a) Notwithstanding the provisions of section 106, and except in the case of a motion picture or other audiovisual work, it is not an infringement of copyright for a transmitting organization entitled to transmit to the public a performance or display of a work, under a license or transfer of the copyright or under the limitations on exclusive rights in sound recordings specified by section 114(a), to make no more than one copy or phonorecord of a particular transmission program embodying the performance or display, if—

(1) the copy or phonorecord is retained and used solely by the transmitting organization that made it, and no further copies or phonorecords are reproduced from it; and

(2) the copy or phonorecord is used solely for the transmitting organization's own transmissions within its local service area, or for purposes of archival preservation or security; and

(3) unless preserved exclusively for archival purposes, the copy or phonorecord is destroyed within six months from the date the transmission program was first transmitted to the public.

(b) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other nonprofit organization entitled to transmit a performance or display of a work, under section 110(2) or under the limitations on exclusive rights in sound recordings specified by section 114(a), to make no more than thirty copies or phonorecords of a particular transmission program embodying the performance or display, if—

(1) no further copies or phonorecords are reproduced from the copies or phonorecords made under this clause; and

(2) except for one copy or phonorecord that may be preserved exclusively for archival purposes, the copies or phonorecords are destroyed within seven years from the date the transmission program was first transmitted to the public.

(c) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other nonprofit organization to make for distribution no more than one copy or phonorecord, for each transmitting organization specified in clause (2) of this subsection, of a particular transmission program embodying a performance of a nondramatic musical work of a religious nature, or of a sound recording of such a musical work, if—

(1) there is no direct or indirect charge for making or distributing any such copies or phonorecords; and

(2) none of such copies or phonorecords is used for any performance other than a single transmission to the public by a transmitting organization entitled to transmit to the public a performance of the work under a license or transfer of the copyright; and

(3) except for one copy or phonorecord that may be preserved exclusively for archival purposes, the copies or phonorecords are all destroyed within one year from the date the transmission program was first transmitted to the public.

(d) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other nonprofit organization entitled to transmit a performance of a work under section 110(8) to make no more than ten copies or phonorecords embodying the performance, or to permit the use of any such copy or phonorecord by any governmental body or nonprofit organization entitled to transmit a performance of a work under section 110(8), if—

(1) any such copy or phonorecord is retained and used solely by the organization that made it, or by a governmental body or nonprofit organization entitled to transmit a performance of a work under section 110(8), and no further copies or phonorecords are reproduced from it; and

(2) any such copy or phonorecord is used solely for transmissions authorized under section 110(8), or for purposes of archival preservation or security; and

(3) the governmental body or nonprofit organization permitting any use of any such copy or phonorecord by any governmental body or nonprofit organization under this subsection does not make any charge for such use.

(e) The transmission program embodied in a copy or phonorecord made under this section is not subject to protection as a derivative

work under this title except with the express consent of the owners of copyright in the preexisting works employed in the program.

17 USC 113.

§ 113. Scope of exclusive rights in pictorial, graphic, and sculptural works

(a) Subject to the provisions of subsections (b) and (c) of this section, the exclusive right to reproduce a copyrighted pictorial, graphic, or sculptural work in copies under section 106 includes the right to reproduce the work in or on any kind of article, whether useful or otherwise.

17 USC 1 *et seq.*

(b) This title does not afford, to the owner of copyright in a work that portrays a useful article as such, any greater or lesser rights with respect to the making, distribution, or display of the useful article so portrayed than those afforded to such works under the law, whether title 17 or the common law or statutes of a State, in effect on December 31, 1977, as held applicable and construed by a court in an action brought under this title.

(c) In the case of a work lawfully reproduced in useful articles that have been offered for sale or other distribution to the public, copyright does not include any right to prevent the making, distribution, or display of pictures or photographs of such articles in connection with advertisements or commentaries related to the distribution or display of such articles, or in connection with news reports.

17 USC 114.

§ 114. Scope of exclusive rights in sound recordings

(a) The exclusive rights of the owner of copyright in a sound recording are limited to the rights specified by clauses (1), (2), and (3) of section 106, and do not include any right of performance under section 106(4).

(b) The exclusive right of the owner of copyright in a sound recording under clause (1) of section 106 is limited to the right to duplicate the sound recording in the form of phonorecords, or of copies of motion pictures and other audiovisual works, that directly or indirectly recapture the actual sounds fixed in the recording. The exclusive right of the owner of copyright in a sound recording under clause (2) of section 106 is limited to the right to prepare a derivative work in which the actual sounds fixed in the sound recording are rearranged, remixed, or otherwise altered in sequence or quality. The exclusive rights of the owner of copyright in a sound recording under clauses (1) and (2) of section 106 do not extend to the making or duplication of another sound recording that consists entirely of an independent fixation of other sounds, even though such sounds imitate or simulate those in the copyrighted sound recording. The exclusive rights of the owner of copyright in a sound recording under clauses (1), (2), and (3) of section 106 do not apply to sound recordings included in educational television and radio programs (as defined in section 397 of title 47) distributed or transmitted by or through public broadcasting entities (as defined by section 118(g)): *Provided*, That copies or phonorecords of said programs are not commercially distributed by or through public broadcasting entities to the general public.

47 USC 397.

(c) This section does not limit or impair the exclusive right to perform publicly, by means of a phonorecord, any of the works specified by section 106(4).

Report to Congress.

(d) On January 3, 1978, the Register of Copyrights, after consulting with representatives of owners of copyrighted materials, representatives of the broadcasting, recording, motion picture, entertainment industries, and arts organizations, representatives of organized labor and performers of copyrighted materials, shall submit to the Congress a report setting forth recommendations as to whether this section should be amended to provide for performers and copyright owners of

copyrighted material any performance rights in such material. The report should describe the status of such rights in foreign countries, the views of major interested parties, and specific legislative or other recommendations, if any.

§ 115. Scope of exclusive rights in nondramatic musical works: Compulsory license for making and distributing phonorecords 17 USC 115.

In the case of nondramatic musical works, the exclusive rights provided by clauses (1) and (3) of section 106, to make and to distribute phonorecords of such works, are subject to compulsory licensing under the conditions specified by this section.

(a) AVAILABILITY AND SCOPE OF COMPULSORY LICENSE.—

(1) When phonorecords of a nondramatic musical work have been distributed to the public in the United States under the authority of the copyright owner, any other person may, by complying with the provisions of this section, obtain a compulsory license to make and distribute phonorecords of the work. A person may obtain a compulsory license only if his or her primary purpose in making phonorecords is to distribute them to the public for private use. A person may not obtain a compulsory license for use of the work in the making of phonorecords duplicating a sound recording fixed by another, unless: (i) such sound recording was fixed lawfully; and (ii) the making of the phonorecords was authorized by the owner of copyright in the sound recording or, if the sound recording was fixed before February 15, 1972, by any person who fixed the sound recording pursuant to an express license from the owner of the copyright in the musical work or pursuant to a valid compulsory license for use of such work in a sound recording.

(2) A compulsory license includes the privilege of making a musical arrangement of the work to the extent necessary to conform it to the style or manner of interpretation of the performance involved, but the arrangement shall not change the basic melody or fundamental character of the work, and shall not be subject to protection as a derivative work under this title, except with the express consent of the copyright owner.

(b) NOTICE OF INTENTION TO OBTAIN COMPULSORY LICENSE.—

(1) Any person who wishes to obtain a compulsory license under this section shall, before or within thirty days after making, and before distributing any phonorecords of the work, serve notice of intention to do so on the copyright owner. If the registration or other public records of the Copyright Office do not identify the copyright owner and include an address at which notice can be served, it shall be sufficient to file the notice of intention in the Copyright Office. The notice shall comply, in form, content, and manner of service, with requirements that the Register of Copyrights shall prescribe by regulation.

(2) Failure to serve or file the notice required by clause (1) forecloses the possibility of a compulsory license and, in the absence of a negotiated license, renders the making and distribution of phonorecords actionable as acts of infringement under section 501 and fully subject to the remedies provided by sections 502 through 506 and 509.

Failure to serve
or file notice,

(c) ROYALTY PAYABLE UNDER COMPULSORY LICENSE.—

(1) To be entitled to receive royalties under a compulsory license, the copyright owner must be identified in the registration or other public records of the Copyright Office. The owner is entitled to royalties for phonorecords made and distributed after

being so identified, but is not entitled to recover for any phonorecords previously made and distributed.

(2) Except as provided by clause (1), the royalty under a compulsory license shall be payable for every phonorecord made and distributed in accordance with the license. For this purpose, a phonorecord is considered "distributed" if the person exercising the compulsory license has voluntarily and permanently parted with its possession. With respect to each work embodied in the phonorecord, the royalty shall be either two and three-fourths cents, or one-half of one cent per minute of playing time or fraction thereof, whichever amount is larger.

(3) Royalty payments shall be made on or before the twentieth day of each month and shall include all royalties for the month next preceding. Each monthly payment shall be made under oath and shall comply with requirements that the Register of Copyrights shall prescribe by regulation. The Register shall also prescribe regulations under which detailed cumulative annual statements of account, certified by a certified public accountant, shall be filed for every compulsory license under this section. The regulations covering both the monthly and the annual statements of account shall prescribe the form, content, and manner of certification with respect to the number of records made and the number of records distributed.

(4) If the copyright owner does not receive the monthly payment and the monthly and annual statements of account when due, the owner may give written notice to the licensee that, unless the default is remedied within thirty days from the date of the notice, the compulsory license will be automatically terminated. Such termination renders either the making or the distribution, or both, of all phonorecords for which the royalty has not been paid, actionable as acts of infringement under section 501 and fully subject to the remedies provided by sections 502 through 506 and 509.

§ 116. Scope of exclusive rights in nondramatic musical works: Public performances by means of coin-operated phonorecord players

(a) **LIMITATION ON EXCLUSIVE RIGHT.**—In the case of a nondramatic musical work embodied in a phonorecord, the exclusive right under clause (4) of section 106 to perform the work publicly by means of a coin-operated phonorecord player is limited as follows:

(1) The proprietor of the establishment in which the public performance takes place is not liable for infringement with respect to such public performance unless—

(A) such proprietor is the operator of the phonorecord player; or

(B) such proprietor refuses or fails, within one month after receipt by registered or certified mail of a request, at a time during which the certificate required by clause (1)(C) of subsection (b) is not affixed to the phonorecord player, by the copyright owner, to make full disclosure, by registered or certified mail, of the identity of the operator of the phonorecord player.

(2) The operator of the coin-operated phonorecord player may obtain a compulsory license to perform the work publicly on that phonorecord player by filing the application, affixing the certificate, and paying the royalties provided by subsection (b).

(b) **RECORDATION OF COIN-OPERATED PHONORECORD PLAYER, AFFIXATION OF CERTIFICATE, AND ROYALTY PAYABLE UNDER COMPULSORY LICENSE.**—

(1) Any operator who wishes to obtain a compulsory license for the public performance of works on a coin-operated phonorecord player shall fulfill the following requirements:

(A) Before or within one month after such performances are made available on a particular phonorecord player, and during the month of January in each succeeding year that such performances are made available on that particular phonorecord player, the operator shall file in the Copyright Office, in accordance with requirements that the Register of Copyrights, after consultation with the Copyright Royalty Tribunal (if and when the Tribunal has been constituted), shall prescribe by regulation, an application containing the name and address of the operator of the phonorecord player and the manufacturer and serial number or other explicit identification of the phonorecord player, and deposit with the Register of Copyrights a royalty fee for the current calendar year of \$8 for that particular phonorecord player. If such performances are made available on a particular phonorecord player for the first time after July 1 of any year, the royalty fee to be deposited for the remainder of that year shall be \$4.

(B) Within twenty days of receipt of an application and a royalty fee pursuant to subclause (A), the Register of Copyrights shall issue to the applicant a certificate for the phonorecord player.

(C) On or before March 1 of the year in which the certificate prescribed by subclause (B) of this clause is issued, or within ten days after the date of issue of the certificate, the operator shall affix to the particular phonorecord player, in a position where it can be readily examined by the public, the certificate, issued by the Register of Copyrights under subclause (B), of the latest application made by such operator under subclause (A) of this clause with respect to that phonorecord player.

(2) Failure to file the application, to affix the certificate, or to pay the royalty required by clause (1) of this subsection renders the public performance actionable as an act of infringement under section 501 and fully subject to the remedies provided by sections 502 through 506 and 509.

(c) DISTRIBUTION OF ROYALTIES.—

(1) The Register of Copyrights shall receive all fees deposited under this section and, after deducting the reasonable costs incurred by the Copyright Office under this section, shall deposit the balance in the Treasury of the United States, in such manner as the Secretary of the Treasury directs. All funds held by the Secretary of the Treasury shall be invested in interest-bearing United States securities for later distribution with interest by the Copyright Royalty Tribunal as provided by this title. The Register shall submit to the Copyright Royalty Tribunal, on an annual basis, a detailed statement of account covering all fees received for the relevant period provided by subsection (b).

(2) During the month of January in each year, every person claiming to be entitled to compulsory license fees under this section for performances during the preceding twelve-month period shall file a claim with the Copyright Royalty Tribunal, in accordance with requirements that the Tribunal shall prescribe by regulation. Such claim shall include an agreement to accept as final,

except as provided in section 810 of this title, the determination of the Copyright Royalty Tribunal in any controversy concerning the distribution of royalty fees deposited under subclause (A) of subsection (b) (1) of this section to which the claimant is a party. Notwithstanding any provisions of the antitrust laws, for purposes of this subsection any claimants may agree among themselves as to the proportionate division of compulsory licensing fees among them, may lump their claims together and file them jointly or as a single claim, or may designate a common agent to receive payment on their behalf.

(3) After the first day of October of each year, the Copyright Royalty Tribunal shall determine whether there exists a controversy concerning the distribution of royalty fees deposited under subclause (A) of subsection (b) (1). If the Tribunal determines that no such controversy exists, it shall, after deducting its reasonable administrative costs under this section, distribute such fees to the copyright owners entitled, or to their designated agents. If it finds that such a controversy exists, it shall, pursuant to chapter 8 of this title, conduct a proceeding to determine the distribution of royalty fees.

Distribution
procedures.

(4) The fees to be distributed shall be divided as follows:

(A) to every copyright owner not affiliated with a performing rights society, the pro rata share of the fees to be distributed to which such copyright owner proves entitlement.

(B) to the performing rights societies, the remainder of the fees to be distributed in such pro rata shares as they shall by agreement stipulate among themselves, or, if they fail to agree, the pro rata share to which such performing rights societies prove entitlement.

(C) during the pendency of any proceeding under this section, the Copyright Royalty Tribunal shall withhold from distribution an amount sufficient to satisfy all claims with respect to which a controversy exists, but shall have discretion to proceed to distribute any amounts that are not in controversy.

Regulations.

(5) The Copyright Royalty Tribunal shall promulgate regulations under which persons who can reasonably be expected to have claims may, during the year in which performances take place, without expense to or harassment of operators or proprietors of establishments in which phonorecord players are located, have such access to such establishments and to the phonorecord players located therein and such opportunity to obtain information with respect thereto as may be reasonably necessary to determine, by sampling procedures or otherwise, the proportion of contribution of the musical works of each such person to the earnings of the phonorecord players for which fees shall have been deposited. Any person who alleges that he or she has been denied the access permitted under the regulations prescribed by the Copyright Royalty Tribunal may bring an action in the United States District Court for the District of Columbia for the cancellation of the compulsory license of the phonorecord player to which such access has been denied, and the court shall have the power to declare the compulsory license thereof invalid from the date of issue thereof.

Civil action.

(d) CRIMINAL PENALTIES.—Any person who knowingly makes a false representation of a material fact in an application filed under clause (1) (A) of subsection (b), or who knowingly alters a certificate issued under clause (1) (B) of subsection (b) or knowingly affixes

such a certificate to a phonorecord player other than the one it covers, shall be fined not more than \$2,500.

(e) DEFINITIONS.—As used in this section, the following terms and their variant forms mean the following:

(1) A “coin-operated phonorecord player” is a machine or device that—

(A) is employed solely for the performance of non-dramatic musical works by means of phonorecords upon being activated by insertion of coins, currency, tokens, or other monetary units or their equivalent;

(B) is located in an establishment making no direct or indirect charge for admission;

(C) is accompanied by a list of the titles of all the musical works available for performance on it, which list is affixed to the phonorecord player or posted in the establishment in a prominent position where it can be readily examined by the public; and

(D) affords a choice of works available for performance and permits the choice to be made by the patrons of the establishment in which it is located.

(2) An “operator” is any person who, alone or jointly with others:

(A) owns a coin-operated phonorecord player; or

(B) has the power to make a coin-operated phonorecord player available for placement in an establishment for purposes of public performance; or

(C) has the power to exercise primary control over the selection of the musical works made available for public performance on a coin-operated phonorecord player.

(3) A “performing rights society” is an association or corporation that licenses the public performance of nondramatic musical works on behalf of the copyright owners, such as the American Society of Composers, Authors and Publishers, Broadcast Music, Inc., and SESAC, Inc.

§ 117. Scope of exclusive rights: Use in conjunction with computers and similar information systems 17 USC 117.

Notwithstanding the provisions of sections 106 through 116 and 118, this title does not afford to the owner of copyright in a work any greater or lesser rights with respect to the use of the work in conjunction with automatic systems capable of storing, processing, retrieving, or transferring information, or in conjunction with any similar device, machine, or process, than those afforded to works under the law, whether title 17 or the common law or statutes of a State, in effect on December 31, 1977, as held applicable and construed by a court in an action brought under this title.

§ 118. Scope of exclusive rights: Use of certain works in connection with noncommercial broadcasting 17 USC 118.

(a) The exclusive rights provided by section 106 shall, with respect to the works specified by subsection (b) and the activities specified by subsection (d), be subject to the conditions and limitations prescribed by this section.

(b) Not later than thirty days after the Copyright Royalty Tribunal has been constituted in accordance with section 802, the Chairman of the Tribunal shall cause notice to be published in the Federal Register of the initiation of proceedings for the purpose of determining reasonable terms and rates of royalty payments for the activities specified by subsection (d) with respect to published nondramatic

musical works and published pictorial, graphic, and sculptural works during a period beginning as provided in clause (3) of this subsection and ending on December 31, 1982. Copyright owners and public broadcasting entities shall negotiate in good faith and cooperate fully with the Tribunal in an effort to reach reasonable and expeditious results. Notwithstanding any provision of the antitrust laws, any owners of copyright in works specified by this subsection and any public broadcasting entities, respectively, may negotiate and agree upon the terms and rates of royalty payments and the proportionate division of fees paid among various copyright owners, and may designate common agents to negotiate, agree to, pay, or receive payments.

(1) Any owner of copyright in a work specified in this subsection or any public broadcasting entity may, within one hundred and twenty days after publication of the notice specified in this subsection, submit to the Copyright Royalty Tribunal proposed licenses covering such activities with respect to such works. The Copyright Royalty Tribunal shall proceed on the basis of the proposals submitted to it as well as any other relevant information. The Copyright Royalty Tribunal shall permit any interested party to submit information relevant to such proceedings.

(2) License agreements voluntarily negotiated at any time between one or more copyright owners and one or more public broadcasting entities shall be given effect in lieu of any determination by the Tribunal: *Provided*, That copies of such agreements are filed in the Copyright Office within thirty days of execution in accordance with regulations that the Register of Copyrights shall prescribe.

(3) Within six months, but not earlier than one hundred and twenty days, from the date of publication of the notice specified in this subsection the Copyright Royalty Tribunal shall make a determination and publish in the Federal Register a schedule of rates and terms which, subject to clause (2) of this subsection, shall be binding on all owners of copyright in works specified by this subsection and public broadcasting entities, regardless of whether or not such copyright owners and public broadcasting entities have submitted proposals to the Tribunal. In establishing such rates and terms the Copyright Royalty Tribunal may consider the rates for comparable circumstances under voluntary license agreements negotiated as provided in clause (2) of this subsection. The Copyright Royalty Tribunal shall also establish requirements by which copyright owners may receive reasonable notice of the use of their works under this section, and under which records of such use shall be kept by public broadcasting entities.

(4) With respect to the period beginning on the effective date of this title and ending on the date of publication of such rates and terms, this title shall not afford to owners of copyright or public broadcasting entities any greater or lesser rights with respect to the activities specified in subsection (d) as applied to works specified in this subsection than those afforded under the law in effect on December 31, 1977, as held applicable and construed by a court in an action brought under this title.

(c) The initial procedure specified in subsection (b) shall be repeated and concluded between June 30 and December 31, 1982, and at five-year intervals thereafter, in accordance with regulations that the Copyright Royalty Tribunal shall prescribe.

(d) Subject to the transitional provisions of subsection (b) (4), and to the terms of any voluntary license agreements that have been negotiated as provided by subsection (b) (2), a public broadcasting entity may, upon compliance with the provisions of this section, including the rates and terms established by the Copyright Royalty Tribunal under subsection (b) (3), engage in the following activities with respect to published nondramatic musical works and published pictorial, graphic, and sculptural works:

(1) performance or display of a work by or in the course of a transmission made by a noncommercial educational broadcast station referred to in subsection (g); and

(2) production of a transmission program, reproduction of copies or phonorecords of such a transmission program, and distribution of such copies or phonorecords, where such production, reproduction, or distribution is made by a nonprofit institution or organization solely for the purpose of transmissions specified in clause (1); and

(3) the making of reproductions by a governmental body or a nonprofit institution of a transmission program simultaneously with its transmission as specified in clause (1), and the performance or display of the contents of such program under the conditions specified by clause (1) of section 110, but only if the reproductions are used for performances or displays for a period of no more than seven days from the date of the transmission specified in clause (1), and are destroyed before or at the end of such period. No person supplying, in accordance with clause (2), a reproduction of a transmission program to governmental bodies or nonprofit institutions under this clause shall have any liability as a result of failure of such body or institution to destroy such reproduction: *Provided*, That it shall have notified such body or institution of the requirement for such destruction pursuant to this clause: *And provided further*, That if such body or institution itself fails to destroy such reproduction it shall be deemed to have infringed.

(e) Except as expressly provided in this subsection, this section shall have no applicability to works other than those specified in subsection (b).

(1) Owners of copyright in nondramatic literary works and public broadcasting entities may, during the course of voluntary negotiations, agree among themselves, respectively, as to the terms and rates of royalty payments without liability under the anti-trust laws. Any such terms and rates of royalty payments shall be effective upon filing in the Copyright Office, in accordance with regulations that the Register of Copyrights shall prescribe.

(2) On January 3, 1980, the Register of Copyrights, after consulting with authors and other owners of copyright in nondramatic literary works and their representatives, and with public broadcasting entities and their representatives, shall submit to the Congress a report setting forth the extent to which voluntary licensing arrangements have been reached with respect to the use of nondramatic literary works by such broadcast stations. The report should also describe any problems that may have arisen, and present legislative or other recommendations, if warranted.

(f) Nothing in this section shall be construed to permit, beyond the limits of fair use as provided by section 107, the unauthorized dramatization of a nondramatic musical work, the production of a transmission program drawn to any substantial extent from a published

compilation of pictorial, graphic, or sculptural works, or the unauthorized use of any portion of an audiovisual work.

(g) As used in this section, the term “public broadcasting entity” means a noncommercial educational broadcast station as defined in section 397 of title 47 and any nonprofit institution or organization engaged in the activities described in clause (2) of subsection (d).

Chapter 2.—COPYRIGHT OWNERSHIP AND TRANSFER

Sec.

201. Ownership of copyright.

202. Ownership of copyright as distinct from ownership of material object.

203. Termination of transfers and licenses granted by the author.

204. Execution of transfers of copyright ownership.

205. Recordation of transfers and other documents.

17 USC 201.

§ 201. Ownership of copyright

(a) **INITIAL OWNERSHIP.**—Copyright in a work protected under this title vests initially in the author or authors of the work. The authors of a joint work are coowners of copyright in the work.

(b) **WORKS MADE FOR HIRE.**—In the case of a work made for hire, the employer or other person for whom the work was prepared is considered the author for purposes of this title, and, unless the parties have expressly agreed otherwise in a written instrument signed by them, owns all of the rights comprised in the copyright.

(c) **CONTRIBUTIONS TO COLLECTIVE WORKS.**—Copyright in each separate contribution to a collective work is distinct from copyright in the collective work as a whole, and vests initially in the author of the contribution. In the absence of an express transfer of the copyright or of any rights under it, the owner of copyright in the collective work is presumed to have acquired only the privilege of reproducing and distributing the contribution as part of that particular collective work, any revision of that collective work, and any later collective work in the same series.

(d) **TRANSFER OF OWNERSHIP.**—

(1) The ownership of a copyright may be transferred in whole or in part by any means of conveyance or by operation of law, and may be bequeathed by will or pass as personal property by the applicable laws of intestate succession.

(2) Any of the exclusive rights comprised in a copyright, including any subdivision of any of the rights specified by section 106, may be transferred as provided by clause (1) and owned separately. The owner of any particular exclusive right is entitled, to the extent of that right, to all of the protection and remedies accorded to the copyright owner by this title.

(e) **INVOLUNTARY TRANSFER.**—When an individual author's ownership of a copyright, or of any of the exclusive rights under a copyright, has not previously been transferred voluntarily by that individual author, no action by any governmental body or other official or organization purporting to seize, expropriate, transfer, or exercise rights of ownership with respect to the copyright, or any of the exclusive rights under a copyright, shall be given effect under this title.

17 USC 202.

§ 202. Ownership of copyright as distinct from ownership of material object

Ownership of a copyright, or of any of the exclusive rights under a copyright, is distinct from ownership of any material object in which the work is embodied. Transfer of ownership of any material object, including the copy or phonorecord in which the work is first fixed, does not of itself convey any rights in the copyrighted work embodied in the object; nor, in the absence of an agreement, does transfer of

ownership of a copyright or of any exclusive rights under a copyright convey property rights in any material object.

§ 203. Termination of transfers and licenses granted by the author 17 USC 203.

(a) **CONDITIONS FOR TERMINATION.**—In the case of any work other than a work made for hire, the exclusive or nonexclusive grant of a transfer or license of copyright or of any right under a copyright, executed by the author on or after January 1, 1978, otherwise than by will, is subject to termination under the following conditions:

(1) In the case of a grant executed by one author, termination of the grant may be effected by that author or, if the author is dead, by the person or persons who, under clause (2) of this subsection, own and are entitled to exercise a total of more than one-half of that author's termination interest. In the case of a grant executed by two or more authors of a joint work, termination of the grant may be effected by a majority of the authors who executed it; if any of such authors is dead, the termination interest of any such author may be exercised as a unit by the person or persons who, under clause (2) of this subsection, own and are entitled to exercise a total of more than one-half of that author's interest.

(2) Where an author is dead, his or her termination interest is owned, and may be exercised, by his widow or her widower and his or her children or grandchildren as follows:

(A) the widow or widower owns the author's entire termination interest unless there are any surviving children or grandchildren of the author, in which case the widow or widower owns one-half of the author's interest;

(B) the author's surviving children, and the surviving children of any dead child of the author, own the author's entire termination interest unless there is a widow or widower, in which case the ownership of one-half of the author's interest is divided among them;

(C) the rights of the author's children and grandchildren are in all cases divided among them and exercised on a per stirpes basis according to the number of such author's children represented; the share of the children of a dead child in a termination interest can be exercised only by the action of a majority of them.

(3) Termination of the grant may be effected at any time during a period of five years beginning at the end of thirty-five years from the date of execution of the grant; or, if the grant covers the right of publication of the work, the period begins at the end of thirty-five years from the date of publication of the work under the grant or at the end of forty years from the date of execution of the grant, whichever term ends earlier.

(4) The termination shall be effected by serving an advance notice in writing, signed by the number and proportion of owners of termination interests required under clauses (1) and (2) of this subsection, or by their duly authorized agents, upon the grantee or the grantee's successor in title. Notice.

(A) The notice shall state the effective date of the termination, which shall fall within the five-year period specified by clause (3) of this subsection, and the notice shall be served not less than two or more than ten years before that date. A copy of the notice shall be recorded in the Copyright Office before the effective date of termination, as a condition to its taking effect.

(B) The notice shall comply, in form, content, and manner of service, with requirements that the Register of Copyrights shall prescribe by regulation.

(5) Termination of the grant may be effected notwithstanding any agreement to the contrary, including an agreement to make a will or to make any future grant.

(b) **EFFECT OF TERMINATION.**—Upon the effective date of termination, all rights under this title that were covered by the terminated grants revert to the author, authors, and other persons owning termination interests under clauses (1) and (2) of subsection (a), including those owners who did not join in signing the notice of termination under clause (4) of subsection (a), but with the following limitations:

Limitations.

(1) A derivative work prepared under authority of the grant before its termination may continue to be utilized under the terms of the grant after its termination, but this privilege does not extend to the preparation after the termination of other derivative works based upon the copyrighted work covered by the terminated grant.

(2) The future rights that will revert upon termination of the grant become vested on the date the notice of termination has been served as provided by clause (4) of subsection (a). The rights vest in the author, authors, and other persons named in, and in the proportionate shares provided by, clauses (1) and (2) of subsection (a).

(3) Subject to the provisions of clause (4) of this subsection, a further grant, or agreement to make a further grant, of any right covered by a terminated grant is valid only if it is signed by the same number and proportion of the owners, in whom the right has vested under clause (2) of this subsection, as are required to terminate the grant under clauses (1) and (2) of subsection (a). Such further grant or agreement is effective with respect to all of the persons in whom the right it covers has vested under clause (2) of this subsection, including those who did not join in signing it. If any person dies after rights under a terminated grant have vested in him or her, that person's legal representatives, legatees, or heirs at law represent him or her for purposes of this clause.

(4) A further grant, or agreement to make a further grant, of any right covered by a terminated grant is valid only if it is made after the effective date of the termination. As an exception, however, an agreement for such a further grant may be made between the persons provided by clause (3) of this subsection and the original grantee or such grantee's successor in title, after the notice of termination has been served as provided by clause (4) of subsection (a).

(5) Termination of a grant under this section affects only those rights covered by the grants that arise under this title, and in no way affects rights arising under any other Federal, State, or foreign laws.

(6) Unless and until termination is effected under this section, the grant, if it does not provide otherwise, continues in effect for the term of copyright provided by this title.

17 USC 204.

§ 204. Execution of transfers of copyright ownership

(a) A transfer of copyright ownership, other than by operation of law, is not valid unless an instrument of conveyance, or a note or memorandum of the transfer, is in writing and signed by the owner of the rights conveyed or such owner's duly authorized agent.

(b) A certificate of acknowledgement is not required for the validity of a transfer, but is prima facie evidence of the execution of the transfer if—

(1) in the case of a transfer executed in the United States, the certificate is issued by a person authorized to administer oaths within the United States; or

(2) in the case of a transfer executed in a foreign country, the certificate is issued by a diplomatic or consular officer of the United States, or by a person authorized to administer oaths whose authority is proved by a certificate of such an officer.

§ 205. Recordation of transfers and other documents

17 USC 205.

(a) **CONDITIONS FOR RECORDATION.**—Any transfer of copyright ownership or other document pertaining to a copyright may be recorded in the Copyright Office if the document filed for recordation bears the actual signature of the person who executed it, or if it is accompanied by a sworn or official certification that it is a true copy of the original, signed document.

(b) **CERTIFICATE OF RECORDATION.**—The Register of Copyrights shall, upon receipt of a document as provided by subsection (a) and of the fee provided by section 708, record the document and return it with a certificate of recordation.

(c) **RECORDATION AS CONSTRUCTIVE NOTICE.**—Recordation of a document in the Copyright Office gives all persons constructive notice of the facts stated in the recorded document, but only if—

(1) the document, or material attached to it, specifically identifies the work to which it pertains so that, after the document is indexed by the Register of Copyrights, it would be revealed by a reasonable search under the title or registration number of the work; and

(2) registration has been made for the work.

(d) **RECORDATION AS PREREQUISITE TO INFRINGEMENT SUIT.**—No person claiming by virtue of a transfer to be the owner of copyright or of any exclusive right under a copyright is entitled to institute an infringement action under this title until the instrument of transfer under which such person claims has been recorded in the Copyright Office, but suit may be instituted after such recordation on a cause of action that arose before recordation.

(e) **PRIORITY BETWEEN CONFLICTING TRANSFERS.**—As between two conflicting transfers, the one executed first prevails if it is recorded, in the manner required to give constructive notice under subsection (c), within one month after its execution in the United States or within two months after its execution outside the United States, or at any time before recordation in such manner of the later transfer. Otherwise the later transfer prevails if recorded first in such manner, and if taken in good faith, for valuable consideration or on the basis of a binding promise to pay royalties, and without notice of the earlier transfer.

(f) **PRIORITY BETWEEN CONFLICTING TRANSFER OF OWNERSHIP AND NONEXCLUSIVE LICENSE.**—A nonexclusive license, whether recorded or not, prevails over a conflicting transfer of copyright ownership if the license is evidenced by a written instrument signed by the owner of the rights licensed or such owner's duly authorized agent, and if—

(1) the license was taken before execution of the transfer; or

(2) the license was taken in good faith before recordation of the transfer and without notice of it.

Chapter 3.—DURATION OF COPYRIGHT

- Sec.
 301. Preemption with respect to other laws.
 302. Duration of copyright: Works created on or after January 1, 1978.
 303. Duration of copyright: Works created but not published or copyrighted before January 1, 1978.
 304. Duration of copyright: Subsisting copyrights.
 305. Duration of copyright: Terminal date.

17 USC 301.

§ 301. Preemption with respect to other laws

(a) On and after January 1, 1978, all legal or equitable rights that are equivalent to any of the exclusive rights within the general scope of copyright as specified by section 106 in works of authorship that are fixed in a tangible medium of expression and come within the subject matter of copyright as specified by sections 102 and 103, whether created before or after that date and whether published or unpublished, are governed exclusively by this title. Thereafter, no person is entitled to any such right or equivalent right in any such work under the common law or statutes of any State.

(b) Nothing in this title annuls or limits any rights or remedies under the common law or statutes of any State with respect to—

(1) subject matter that does not come within the subject matter of copyright as specified by sections 102 and 103, including works of authorship not fixed in any tangible medium of expression; or

(2) any cause of action arising from undertakings commenced before January 1, 1978; or

(3) activities violating legal or equitable rights that are not equivalent to any of the exclusive rights within the general scope of copyright as specified by section 106.

(c) With respect to sound recordings fixed before February 15, 1972, any rights or remedies under the common law or statutes of any State shall not be annulled or limited by this title until February 15, 2047. The preemptive provisions of subsection (a) shall apply to any such rights and remedies pertaining to any cause of action arising from undertakings commenced on and after February 15, 2047. Notwithstanding the provisions of section 303, no sound recording fixed before February 15, 1972, shall be subject to copyright under this title before, on, or after February 15, 2047.

(d) Nothing in this title annuls or limits any rights or remedies under any other Federal statute.

17 USC 302.

§ 302. Duration of copyright: Works created on or after January 1, 1978

(a) **IN GENERAL.**—Copyright in a work created on or after January 1, 1978, subsists from its creation and, except as provided by the following subsections, endures for a term consisting of the life of the author and fifty years after the author's death.

(b) **JOINT WORKS.**—In the case of a joint work prepared by two or more authors who did not work for hire, the copyright endures for a term consisting of the life of the last surviving author and fifty years after such last surviving author's death.

(c) **ANONYMOUS WORKS, PSEUDONYMOUS WORKS, AND WORKS MADE FOR HIRE.**—In the case of an anonymous work, a pseudonymous work, or a work made for hire, the copyright endures for a term of seventy-five years from the year of its first publication, or a term of one hundred years from the year of its creation, whichever expires first. If, before the end of such term, the identity of one or more of the authors of an anonymous or pseudonymous work is revealed in the records of a registration made for that work under subsections (a) or (d) of section 408, or in the records provided by this subsection,

the copyright in the work endures for the term specified by subsection (a) or (b), based on the life of the author or authors whose identity has been revealed. Any person having an interest in the copyright in an anonymous or pseudonymous work may at any time record, in records to be maintained by the Copyright Office for that purpose, a statement identifying one or more authors of the work; the statement shall also identify the person filing it, the nature of that person's interest, the source of the information recorded, and the particular work affected, and shall comply in form and content with requirements that the Register of Copyrights shall prescribe by regulation.

(d) **RECORDS RELATING TO DEATH OF AUTHORS.**—Any person having an interest in a copyright may at any time record in the Copyright Office a statement of the date of death of the author of the copyrighted work, or a statement that the author is still living on a particular date. The statement shall identify the person filing it, the nature of that person's interest, and the source of the information recorded, and shall comply in form and content with requirements that the Register of Copyrights shall prescribe by regulation. The Register shall maintain current records of information relating to the death of authors of copyrighted works, based on such recorded statements and, to the extent the Register considers practicable, on data contained in any of the records of the Copyright Office or in other reference sources.

Recordkeeping.

(e) **PRESUMPTION AS TO AUTHOR'S DEATH.**—After a period of seventy-five years from the year of first publication of a work, or a period of one hundred years from the year of its creation, whichever expires first, any person who obtains from the Copyright Office a certified report that the records provided by subsection (d) disclose nothing to indicate that the author of the work is living, or died less than fifty years before, is entitled to the benefit of a presumption that the author has been dead for at least fifty years. Reliance in good faith upon this presumption shall be a complete defense to any action for infringement under this title.

§ 303. Duration of copyright: Works created but not published or copyrighted before January 1, 1978 17 USC 303.

Copyright in a work created before January 1, 1978, but not theretofore in the public domain or copyrighted, subsists from January 1, 1978, and endures for the term provided by section 302. In no case, however, shall the term of copyright in such a work expire before December 31, 2002; and, if the work is published on or before December 31, 2002, the term of copyright shall not expire before December 31, 2027.

§ 304. Duration of copyright: Subsisting copyrights 17 USC 304.

(a) **COPYRIGHTS IN THEIR FIRST TERM ON JANUARY 1, 1978.**—Any copyright, the first term of which is subsisting on January 1, 1978, shall endure for twenty-eight years from the date it was originally secured: *Provided*, That in the case of any posthumous work or of any periodical, cyclopedic, or other composite work upon which the copyright was originally secured by the proprietor thereof, or of any work copyrighted by a corporate body (otherwise than as assignee or licensee of the individual author) or by an employer for whom such work is made for hire, the proprietor of such copyright shall be entitled to a renewal and extension of the copyright in such work for the further term of forty-seven years when application for such renewal and extension shall have been made to the Copyright Office and duly registered therein within one year prior to the expiration of the original term of copyright: *And provided further*, That in the case of any other

copyrighted work, including a contribution by an individual author to a periodical or to a cyclopedic or other composite work, the author of such work, if still living, or the widow, widower, or children of the author, if the author be not living, or if such author, widow, widower, or children be not living, then the author's executors, or in the absence of a will, his or her next of kin shall be entitled to a renewal and extension of the copyright in such work for a further term of forty-seven years when application for such renewal and extension shall have been made to the Copyright Office and duly registered therein within one year prior to the expiration of the original term of copyright: *And provided further*, That in default of the registration of such application for renewal and extension, the copyright in any work shall terminate at the expiration of twenty-eight years from the date copyright was originally secured.

(b) **COPYRIGHTS IN THEIR RENEWAL TERM OR REGISTERED FOR RENEWAL BEFORE JANUARY 1, 1978.**—The duration of any copyright, the renewal term of which is subsisting at any time between December 31, 1976, and December 31, 1977, inclusive, or for which renewal registration is made between December 31, 1976, and December 31, 1977, inclusive, is extended to endure for a term of seventy-five years from the date copyright was originally secured.

(c) **TERMINATION OF TRANSFERS AND LICENSES COVERING EXTENDED RENEWAL TERM.**—In the case of any copyright subsisting in either its first or renewal term on January 1, 1978, other than a copyright in a work made for hire, the exclusive or nonexclusive grant of a transfer or license of the renewal copyright or any right under it, executed before January 1, 1978, by any of the persons designated by the second proviso of subsection (a) of this section, otherwise than by will, is subject to termination under the following conditions:

(1) In the case of a grant executed by a person or persons other than the author, termination of the grant may be effected by the surviving person or persons who executed it. In the case of a grant executed by one or more of the authors of the work, termination of the grant may be effected, to the extent of a particular author's share in the ownership of the renewal copyright, by the author who executed it or, if such author is dead, by the person or persons who, under clause (2) of this subsection, own and are entitled to exercise a total of more than one-half of that author's termination interest.

(2) Where an author is dead, his or her termination interest is owned, and may be exercised, by his widow or her widower and his or her children or grandchildren as follows:

(A) the widow or widower owns the author's entire termination interest unless there are any surviving children or grandchildren of the author, in which case the widow or widower owns one-half of the author's interest;

(B) the author's surviving children, and the surviving children of any dead child of the author, own the author's entire termination interest unless there is a widow or widower, in which case the ownership of one-half of the author's interest is divided among them;

(C) the rights of the author's children and grandchildren are in all cases divided among them and exercised on a per stirpes basis according to the number of such author's children represented; the share of the children of a dead child in a termination interest can be exercised only by the action of a majority of them.

(3) Termination of the grant may be effected at any time during a period of five years beginning at the end of fifty-six years from the date copyright was originally secured, or beginning on January 1, 1978, whichever is later.

(4) The termination shall be effected by serving an advance notice in writing upon the grantee or the grantee's successor in title. In the case of a grant executed by a person or persons other than the author, the notice shall be signed by all of those entitled to terminate the grant under clause (1) of this subsection, or by their duly authorized agents. In the case of a grant executed by one or more of the authors of the work, the notice as to any one author's share shall be signed by that author or his or her duly authorized agent or, if that author is dead, by the number and proportion of the owners of his or her termination interest required under clauses (1) and (2) of this subsection, or by their duly authorized agents.

Advance notice.

(A) The notice shall state the effective date of the termination, which shall fall within the five-year period specified by clause (3) of this subsection, and the notice shall be served not less than two or more than ten years before that date. A copy of the notice shall be recorded in the Copyright Office before the effective date of termination, as a condition to its taking effect.

(B) The notice shall comply, in form, content, and manner of service, with requirements that the Register of Copyrights shall prescribe by regulation.

(5) Termination of the grant may be effected notwithstanding any agreement to the contrary, including an agreement to make a will or to make any future grant.

(6) In the case of a grant executed by a person or persons other than the author, all rights under this title that were covered by the terminated grant revert, upon the effective date of termination, to all of those entitled to terminate the grant under clause (1) of this subsection. In the case of a grant executed by one or more of the authors of the work, all of a particular author's rights under this title that were covered by the terminated grant revert, upon the effective date of termination, to that author or, if that author is dead, to the persons owning his or her termination interest under clause (2) of this subsection, including those owners who did not join in signing the notice of termination under clause (4) of this subsection. In all cases the reversion of rights is subject to the following limitations:

Reversion.

Limitations.

(A) A derivative work prepared under authority of the grant before its termination may continue to be utilized under the terms of the grant after its termination, but this privilege does not extend to the preparation after the termination of other derivative works based upon the copyrighted work covered by the terminated grant.

(B) The future rights that will revert upon termination of the grant become vested on the date the notice of termination has been served as provided by clause (4) of this subsection.

(C) Where the author's rights revert to two or more persons under clause (2) of this subsection, they shall vest in those persons in the proportionate shares provided by that clause. In such a case, and subject to the provisions of subclause (D) of this clause, a further grant, or agreement to make a further grant, of a particular author's share with

respect to any right covered by a terminated grant is valid only if it is signed by the same number and proportion of the owners, in whom the right has vested under this clause, as are required to terminate the grant under clause (2) of this subsection. Such further grant or agreement is effective with respect to all of the persons in whom the right it covers has vested under this subclause, including those who did not join in signing it. If any person dies after rights under a terminated grant have vested in him or her, that person's legal representatives, legatees, or heirs at law represent him or her for purposes of this subclause.

(D) A further grant, or agreement to make a further grant, of any right covered by a terminated grant is valid only if it is made after the effective date of the termination. As an exception, however, an agreement for such a further grant may be made between the author or any of the persons provided by the first sentence of clause (6) of this subsection, or between the persons provided by subclause (C) of this clause, and the original grantee or such grantee's successor in title, after the notice of termination has been served as provided by clause (4) of this subsection.

(E) Termination of a grant under this subsection affects only those rights covered by the grant that arise under this title, and in no way affects rights arising under any other Federal, State, or foreign laws.

(F) Unless and until termination is effected under this subsection, the grant, if it does not provide otherwise, continues in effect for the remainder of the extended renewal term.

17 USC 305.

§ 305. Duration of copyright: Terminal date

All terms of copyright provided by sections 302 through 304 run to the end of the calendar year in which they would otherwise expire.

17 USC 401.

§ 401. Notice of copyright: Visually perceptible copies

(a) **GENERAL REQUIREMENT.**—Whenever a work protected under this title is published in the United States or elsewhere by authority of the copyright owner, a notice of copyright as provided by this section shall be placed on all publicly distributed copies from which the work can be visually perceived, either directly or with the aid of a machine or device.

(b) **FORM OF NOTICE.**—The notice appearing on the copies shall consist of the following three elements:

- (1) the symbol © (the letter C in a circle), or the word "Copyright", or the abbreviation "Copr."; and

(2) the year of first publication of the work; in the case of compilations or derivative works incorporating previously published material, the year date of first publication of the compilation or derivative work is sufficient. The year date may be omitted where a pictorial, graphic, or sculptural work, with accompanying text matter, if any, is reproduced in or on greeting cards, postcards, stationery, jewelry, dolls, toys, or any useful articles; and

(3) the name of the owner of copyright in the work, or an abbreviation by which the name can be recognized, or a generally known alternative designation of the owner.

(c) **POSITION OF NOTICE.**—The notice shall be affixed to the copies in such manner and location as to give reasonable notice of the claim of copyright. The Register of Copyrights shall prescribe by regulation, as examples, specific methods of affixation and positions of the notice on various types of works that will satisfy this requirement, but these specifications shall not be considered exhaustive.

§ 402. Notice of copyright: Phonorecords of sound recordings 17 USC 402.

(a) **GENERAL REQUIREMENT.**—Whenever a sound recording protected under this title is published in the United States or elsewhere by authority of the copyright owner, a notice of copyright as provided by this section shall be placed on all publicly distributed phonorecords of the sound recording.

(b) **FORM OF NOTICE.**—The notice appearing on the phonorecords shall consist of the following three elements:

- (1) the symbol © (the letter P in a circle) ; and
- (2) the year of first publication of the sound recording; and
- (3) the name of the owner of copyright in the sound recording, or an abbreviation by which the name can be recognized, or a generally known alternative designation of the owner; if the producer of the sound recording is named on the phonorecord labels or containers, and if no other name appears in conjunction with the notice, the producer's name shall be considered a part of the notice.

(c) **POSITION OF NOTICE.**—The notice shall be placed on the surface of the phonorecord, or on the phonorecord label or container, in such manner and location as to give reasonable notice of the claim of copyright.

§ 403. Notice of copyright: Publications incorporating United States Government works 17 USC 403.

Whenever a work is published in copies or phonorecords consisting preponderantly of one or more works of the United States Government, the notice of copyright provided by sections 401 or 402 shall also include a statement identifying, either affirmatively or negatively, those portions of the copies or phonorecords embodying any work or works protected under this title.

§ 404. Notice of copyright: Contributions to collective works 17 USC 404.

(a) A separate contribution to a collective work may bear its own notice of copyright, as provided by sections 401 through 403. However, a single notice applicable to the collective work as a whole is sufficient to satisfy the requirements of sections 401 through 403 with respect to the separate contributions it contains (not including advertisements inserted on behalf of persons other than the owner of copyright in the collective work), regardless of the ownership of copyright in the contributions and whether or not they have been previously published.

(b) Where the person named in a single notice applicable to a collective work as a whole is not the owner of copyright in a separate

contribution that does not bear its own notice, the case is governed by the provisions of section 406(a).

17 USC 405.

§ 405. Notice of copyright: Omission of notice

(a) **EFFECT OF OMISSION ON COPYRIGHT.**—The omission of the copyright notice prescribed by sections 401 through 403 from copies or phonorecords publicly distributed by authority of the copyright owner does not invalidate the copyright in a work if—

(1) the notice has been omitted from no more than a relatively small number of copies or phonorecords distributed to the public; or

(2) registration for the work has been made before or is made within five years after the publication without notice, and a reasonable effort is made to add notice to all copies or phonorecords that are distributed to the public in the United States after the omission has been discovered; or

(3) the notice has been omitted in violation of an express requirement in writing that, as a condition of the copyright owner's authorization of the public distribution of copies or phonorecords, they bear the prescribed notice.

(b) **EFFECT OF OMISSION ON INNOCENT INFRINGERS.**—Any person who innocently infringes a copyright, in reliance upon an authorized copy or phonorecord from which the copyright notice has been omitted, incurs no liability for actual or statutory damages under section 504 for any infringing acts committed before receiving actual notice that registration for the work has been made under section 408, if such person proves that he or she was misled by the omission of notice. In a suit for infringement in such a case the court may allow or disallow recovery of any of the infringer's profits attributable to the infringement, and may enjoin the continuation of the infringing undertaking or may require, as a condition or permitting the continuation of the infringing undertaking, that the infringer pay the copyright owner a reasonable license fee in an amount and on terms fixed by the court.

(c) **REMOVAL OF NOTICE.**—Protection under this title is not affected by the removal, destruction, or obliteration of the notice, without the authorization of the copyright owner, from any publicly distributed copies or phonorecords.

17 USC 406.

§ 406. Notice of copyright: Error in name or date

(a) **ERROR IN NAME.**—Where the person named in the copyright notice on copies or phonorecords publicly distributed by authority of the copyright owner is not the owner of copyright, the validity and ownership of the copyright are not affected. In such a case, however, any person who innocently begins an undertaking that infringes the copyright has a complete defense to any action for such infringement if such person proves that he or she was misled by the notice and began the undertaking in good faith under a purported transfer or license from the person named therein, unless before the undertaking was begun—

(1) registration for the work had been made in the name of the owner of copyright; or

(2) a document executed by the person named in the notice and showing the ownership of the copyright had been recorded. The person named in the notice is liable to account to the copyright owner for all receipts from transfers or licenses purportedly made under the copyright by the person named in the notice.

(b) **ERROR IN DATE.**—When the year date in the notice on copies or phonorecords distributed by authority of the copyright owner is earlier than the year in which publication first occurred, any period

computed from the year of first publication under section 302 is to be computed from the year in the notice. Where the year date is more than one year later than the year in which publication first occurred, the work is considered to have been published without any notice and is governed by the provisions of section 405.

(c) **OMISSION OF NAME OR DATE.**—Where copies or phonorecords publicly distributed by authority of the copyright owner contain no name or no date that could reasonably be considered a part of the notice, the work is considered to have been published without any notice and is governed by the provisions of section 405.

§ 407. Deposit of copies or phonorecords for Library of Congress 17 USC 407.

(a) Except as provided by subsection (c), and subject to the provisions of subsection (e), the owner of copyright or of the exclusive right of publication in a work published with notice of copyright in the United States shall deposit, within three months after the date of such publication—

(1) two complete copies of the best edition; or

(2) if the work is a sound recording, two complete phonorecords of the best edition, together with any printed or other visually perceptible material published with such phonorecords. Neither the deposit requirements of this subsection nor the acquisition provisions of subsection (e) are conditions of copyright protection.

(b) The required copies or phonorecords shall be deposited in the Copyright Office for the use or disposition of the Library of Congress. The Register of Copyrights shall, when requested by the depositor and upon payment of the fee prescribed by section 708, issue a receipt for the deposit.

(c) The Register of Copyrights may by regulation exempt any categories of material from the deposit requirements of this section, or require deposit of only one copy or phonorecord with respect to any categories. Such regulations shall provide either for complete exemption from the deposit requirements of this section, or for alternative forms of deposit aimed at providing a satisfactory archival record of a work without imposing practical or financial hardships on the depositor, where the individual author is the owner of copyright in a pictorial, graphic, or sculptural work and (i) less than five copies of the work have been published, or (ii) the work has been published in a limited edition consisting of numbered copies, the monetary value of which would make the mandatory deposit of two copies of the best edition of the work burdensome, unfair, or unreasonable. Exemption.

(d) At any time after publication of a work as provided by subsection (a), the Register of Copyrights may make written demand for the required deposit on any of the persons obligated to make the deposit under subsection (a). Unless deposit is made within three months after the demand is received, the person or persons on whom the demand was made are liable— Penalties.

(1) to a fine of not more than \$250 for each work; and

(2) to pay into a specially designated fund in the Library of Congress the total retail price of the copies or phonorecords demanded, or, if no retail price has been fixed, the reasonable cost of the Library of Congress of acquiring them; and

(3) to pay a fine of \$2,500, in addition to any fine or liability imposed under clauses (1) and (2), if such person willfully or repeatedly fails or refuses to comply with such a demand.

(e) With respect to transmission programs that have been fixed and transmitted to the public in the United States but have not been published, the Register of Copyrights shall, after consulting with the Librarian of Congress and other interested organizations and officials, Regulations.

establish regulations governing the acquisition, through deposit or otherwise, of copies or phonorecords of such programs for the collections of the Library of Congress.

(1) The Librarian of Congress shall be permitted, under the standards and conditions set forth in such regulations, to make a fixation of a transmission program directly from a transmission to the public, and to reproduce one copy or phonorecord from such fixation for archival purposes.

(2) Such regulations shall also provide standards and procedures by which the Register of Copyrights may make written demand, upon the owner of the right of transmission in the United States, for the deposit of a copy or phonorecord of a specific transmission program. Such deposit may, at the option of the owner of the right of transmission in the United States, be accomplished by gift, by loan for purposes of reproduction, or by sale at a price not to exceed the cost of reproducing and supplying the copy or phonorecord. The regulations established under this clause shall provide reasonable periods of not less than three months for compliance with a demand, and shall allow for extensions of such periods and adjustments in the scope of the demand or the methods for fulfilling it, as reasonably warranted by the circumstances. Willful failure or refusal to comply with the conditions prescribed by such regulations shall subject the owner of the right of transmission in the United States to liability for an amount, not to exceed the cost of reproducing and supplying the copy or phonorecord in question, to be paid into a specially designated fund in the Library of Congress.

(3) Nothing in this subsection shall be construed to require the making or retention, for purposes of deposit, of any copy or phonorecord of an unpublished transmission program, the transmission of which occurs before the receipt of a specific written demand as provided by clause (2).

(4) No activity undertaken in compliance with regulations prescribed under clauses (1) or (2) of this subsection shall result in liability if intended solely to assist in the acquisition of copies or phonorecords under this subsection.

17 USC 408.

§ 408. Copyright registration in general

(a) **REGISTRATION PERMISSIVE.**—At any time during the subsistence of copyright in any published or unpublished work, the owner of copyright or of any exclusive right in the work may obtain registration of the copyright claim by delivering to the Copyright Office the deposit specified by this section, together with the application and fee specified by sections 409 and 708. Subject to the provisions of section 405(a), such registration is not a condition of copyright protection.

(b) **DEPOSIT FOR COPYRIGHT REGISTRATION.**—Except as provided by subsection (c), the material deposited for registration shall include—

(1) in the case of an unpublished work, one complete copy or phonorecord;

(2) in the case of a published work, two complete copies or phonorecords of the best edition;

(3) in the case of a work first published outside the United States, one complete copy or phonorecord as so published;

(4) in the case of a contribution to a collective work, one complete copy or phonorecord of the best edition of the collective work.

Copies or phonorecords deposited for the Library of Congress under section 407 may be used to satisfy the deposit provisions of this section,

if they are accompanied by the prescribed application and fee, and by any additional identifying material that the Register may, by regulation, require. The Register shall also prescribe regulations establishing requirements under which copies or phonorecords acquired for the Library of Congress under subsection (e) of section 407, otherwise than by deposit, may be used to satisfy the deposit provisions of this section.

Regulations.

(c) ADMINISTRATIVE CLASSIFICATION AND OPTIONAL DEPOSIT.—

(1) The Register of Copyrights is authorized to specify by regulation the administrative classes into which works are to be placed for purposes of deposit and registration, and the nature of the copies or phonorecords to be deposited in the various classes specified. The regulations may require or permit, for particular classes, the deposit of identifying material instead of copies or phonorecords, the deposit of only one copy or phonorecord where two would normally be required, or a single registration for a group of related works. This administrative classification of works has no significance with respect to the subject matter of copyright or the exclusive rights provided by this title.

Regulations.

(2) Without prejudice to the general authority provided under clause (1), the Register of Copyrights shall establish regulations specifically permitting a single registration for a group of works by the same individual author, all first published as contributions to periodicals, including newspapers, within a twelve-month period, on the basis of a single deposit, application, and registration fee, under all of the following conditions—

(A) if each of the works as first published bore a separate copyright notice, and the name of the owner of copyright in the work, or an abbreviation by which the name can be recognized, or a generally known alternative designation of the owner was the same in each notice; and

(B) if the deposit consists of one copy of the entire issue of the periodical, or of the entire section in the case of a newspaper, in which each contribution was first published; and

(C) if the application identifies each work separately, including the periodical containing it and its date of first publication.

(3) As an alternative to separate renewal registrations under subsection (a) of section 304, a single renewal registration may be made for a group of works by the same individual author, all first published as contributions to periodicals, including newspapers, upon the filing of a single application and fee, under all of the following conditions:

(A) the renewal claimant or claimants, and the basis of claim or claims under section 304(a), is the same for each of the works; and

(B) the works were all copyrighted upon their first publication, either through separate copyright notice and registration or by virtue of a general copyright notice in the periodical issue as a whole; and

(C) the renewal application and fee are received not more than twenty-eight or less than twenty-seven years after the thirty-first day of December of the calendar year in which all of the works were first published; and

(D) the renewal application identifies each work separately, including the periodical containing it and its date of first publication.

(d) **CORRECTIONS AND AMPLIFICATIONS.**—The Register may also establish, by regulation, formal procedures for the filing of an application for supplementary registration, to correct an error in a copyright registration or to amplify the information given in a registration. Such application shall be accompanied by the fee provided by section 708, and shall clearly identify the registration to be corrected or amplified. The information contained in a supplementary registration augments but does not supersede that contained in the earlier registration.

(e) **PUBLISHED EDITION OF PREVIOUSLY REGISTERED WORK.**—Registration for the first published edition of a work previously registered in unpublished form may be made even though the work as published is substantially the same as the unpublished version.

17 USC 409.

§ 409. Application for copyright registration

The application for copyright registration shall be made on a form prescribed by the Register of Copyrights and shall include—

- (1) the name and address of the copyright claimant;
- (2) in the case of a work other than an anonymous or pseudonymous work, the name and nationality or domicile of the author or authors, and, if one or more of the authors is dead, the dates of their deaths;
- (3) if the work is anonymous or pseudonymous, the nationality or domicile of the author or authors;
- (4) in the case of a work made for hire, a statement to this effect;
- (5) if the copyright claimant is not the author, a brief statement of how the claimant obtained ownership of the copyright;
- (6) the title of the work, together with any previous or alternative titles under which the work can be identified;
- (7) the year in which creation of the work was completed;
- (8) if the work has been published, the date and nation of its first publication;
- (9) in the case of a compilation or derivative work, an identification of any preexisting work or works that it is based on or incorporates, and a brief, general statement of the additional material covered by the copyright claim being registered;
- (10) in the case of a published work containing material of which copies are required by section 601 to be manufactured in the United States, the names of the persons or organizations who performed the processes specified by subsection (c) of section 601 with respect to that material, and the places where those processes were performed; and
- (11) any other information regarded by the Register of Copyrights as bearing upon the preparation or identification of the work or the existence, ownership, or duration of the copyright.

17 USC 410.

§ 410. Registration of claim and issuance of certificate

(a) When, after examination, the Register of Copyrights determines that, in accordance with the provisions of this title, the material deposited constitutes copyrightable subject matter and that the other legal and formal requirements of this title have been met, the Register shall register the claim and issue to the applicant a certificate of registration under the seal of the Copyright Office. The certificate shall contain the information given in the application, together with the number and effective date of the registration.

(b) In any case in which the Register of Copyrights determines that, in accordance with the provisions of this title, the material deposited does not constitute copyrightable subject matter or that

the claim is invalid for any other reason, the Register shall refuse registration and shall notify the applicant in writing of the reasons for such refusal.

(c) In any judicial proceedings the certificate of a registration made before or within five years after first publication of the work shall constitute prima facie evidence of the validity of the copyright and of the facts stated in the certificate. The evidentiary weight to be accorded the certificate of a registration made thereafter shall be within the discretion of the court. Prima facie evidence.

(d) The effective date of a copyright registration is the day on which an application, deposit, and fee, which are later determined by the Register of Copyrights or by a court of competent jurisdiction to be acceptable for registration, have all been received in the Copyright Office. Effective date.

§ 411. Registration as prerequisite to infringement suit

17 USC 411.

(a) Subject to the provisions of subsection (b), no action for infringement of the copyright in any work shall be instituted until registration of the copyright claim has been made in accordance with this title. In any case, however, where the deposit, application, and fee required for registration have been delivered to the Copyright Office in proper form and registration has been refused, the applicant is entitled to institute an action for infringement if notice thereof, with a copy of the complaint, is served on the Register of Copyrights. The Register may, at his or her option, become a party to the action with respect to the issue of registrability of the copyright claim by entering an appearance within sixty days after such service, but the Register's failure to become a party shall not deprive the court of jurisdiction to determine that issue.

(b) In the case of a work consisting of sounds, images, or both, the first fixation of which is made simultaneously with its transmission, the copyright owner may, either before or after such fixation takes place, institute an action for infringement under section 501, fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, if, in accordance with requirements that the Register of Copyrights shall prescribe by regulation, the copyright owner—

(1) serves notice upon the infringer, not less than ten or more than thirty days before such fixation, identifying the work and the specific time and source of its first transmission, and declaring an intention to secure copyright in the work; and

(2) makes registration for the work within three months after its first transmission.

§ 412. Registration as prerequisite to certain remedies for infringement

17 USC 412.

In any action under this title, other than an action instituted under section 411(b), no award of statutory damages or of attorney's fees, as provided by sections 504 and 505, shall be made for—

(1) any infringement of copyright in an unpublished work commenced before the effective date of its registration; or

(2) any infringement of copyright commenced after first publication of the work and before the effective date of its registration, unless such registration is made within three months after the first publication of the work.

§ 501. Infringement of copyright

(a) Anyone who violates any of the exclusive rights of the copyright owner as provided by sections 106 through 118, or who imports copies or phonorecords into the United States in violation of section 602, is an infringer of the copyright.

(b) The legal or beneficial owner of an exclusive right under a copyright is entitled, subject to the requirements of sections 205(d) and 411, to institute an action for any infringement of that particular right committed while he or she is the owner of it. The court may require such owner to serve written notice of the action with a copy of the complaint upon any person shown, by the records of the Copyright Office or otherwise, to have or claim an interest in the copyright, and shall require that such notice be served upon any person whose interest is likely to be affected by a decision in the case. The court may require the joinder, and shall permit the intervention, of any person having or claiming an interest in the copyright.

(c) For any secondary transmission by a cable system that embodies a performance or a display of a work which is actionable as an act of infringement under subsection (c) of section 111, a television broadcast station holding a copyright or other license to transmit or perform the same version of that work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local service area of that television station.

(d) For any secondary transmission by a cable system that is actionable as an act of infringement pursuant to section 111(c)(3), the following shall also have standing to sue: (i) the primary transmitter whose transmission has been altered by the cable system; and (ii) any broadcast station within whose local service area the secondary transmission occurs.

17 USC 502.

§ 502. Remedies for infringement: Injunctions

(a) Any court having jurisdiction of a civil action arising under this title may, subject to the provisions of section 1498 of title 28, grant temporary and final injunctions on such terms as it may deem reasonable to prevent or restrain infringement of a copyright.

(b) Any such injunction may be served anywhere in the United States on the person enjoined; it shall be operative throughout the United States and shall be enforceable, by proceedings in contempt or otherwise, by any United States court having jurisdiction of that person. The clerk of the court granting the injunction shall, when requested by any other court in which enforcement of the injunction is sought, transmit promptly to the other court a certified copy of all the papers in the case on file in such clerk's office.

§ 503. Remedies for infringement: Impounding and disposition of infringing articles 17 USC 503.

(a) At any time while an action under this title is pending, the court may order the impounding, on such terms as it may deem reasonable, of all copies or phonorecords claimed to have been made or used in violation of the copyright owner's exclusive rights, and of all plates, molds, matrices, masters, tapes, film negatives, or other articles by means of which such copies or phonorecords may be reproduced.

(b) As part of a final judgment or decree, the court may order the destruction or other reasonable disposition of all copies or phonorecords found to have been made or used in violation of the copyright owner's exclusive rights, and of all plates, molds, matrices, masters, tapes, film negatives, or other articles by means of which such copies or phonorecords may be reproduced.

§ 504. Remedies for infringement: Damages and profits 17 USC 504.

(a) IN GENERAL.—Except as otherwise provided by this title, an infringer of copyright is liable for either—

(1) the copyright owner's actual damages and any additional profits of the infringer, as provided by subsection (b); or

(2) statutory damages, as provided by subsection (c).

(b) ACTUAL DAMAGES AND PROFITS.—The copyright owner is entitled to recover the actual damages suffered by him or her as a result of the infringement, and any profits of the infringer that are attributable to the infringement and are not taken into account in computing the actual damages. In establishing the infringer's profits, the copyright owner is required to present proof only of the infringer's gross revenue, and the infringer is required to prove his or her deductible expenses and the elements of profit attributable to factors other than the copyrighted work.

(c) STATUTORY DAMAGES.—

(1) Except as provided by clause (2) of this subsection, the copyright owner may elect, at any time before final judgment is rendered, to recover, instead of actual damages and profits, an award of statutory damages for all infringements involved in the action, with respect to any one work, for which any one infringer is liable individually, or for which any two or more infringers are liable jointly and severally, in a sum of not less than \$250 or more than \$10,000 as the court considers just. For the purposes of this subsection, all the parts of a compilation or derivative work constitute one work.

(2) In a case where the copyright owner sustains the burden of proving, and the court finds, that infringement was committed willfully, the court in its discretion may increase the award of statutory damages to a sum of not more than \$50,000. In a case where the infringer sustains the burden of proving, and the court finds, that such infringer was not aware and had no reason to believe that his or her acts constituted an infringement of copyright, the court in its discretion may reduce the award of statutory damages to a sum of not less than \$100. The court shall remit statutory damages in any case where an infringer believed and had reasonable grounds for believing that his or her use of the copyrighted work was a fair use under section 107, if the infringer was: (i) an employee or agent of a nonprofit educational institution, library, or archives acting within the scope of his or her employment who, or such institution, library, or archives itself, which infringed by reproducing the work in copies or phonorecords; or (ii) a public broadcasting entity which or a person who, as a regular part of the nonprofit activities of a public

broadcasting entity (as defined in subsection (g) of section 118) infringed by performing a published nondramatic literary work or by reproducing a transmission program embodying a performance of such a work.

17 USC 505.

§ 505. Remedies for infringement: Costs and attorney's fees

In any civil action under this title, the court in its discretion may allow the recovery of full costs by or against any party other than the United States or an officer thereof. Except as otherwise provided by this title, the court may also award a reasonable attorney's fee to the prevailing party as part of the costs.

Chapter 6.—MANUFACTURING REQUIREMENTS AND IMPORTATION

Sec.

601. Manufacture, importation, and public distribution of certain copies.

602. Infringing importation of copies or phonorecords.

603. Importation prohibitions: Enforcement and disposition of excluded articles.

17 USC 601.

§ 601. Manufacture, importation, and public distribution of certain copies

(a) Prior to July 1, 1982, and except as provided by subsection (b), the importation into or public distribution in the United States of copies of a work consisting preponderantly of nondramatic literary material that is in the English language and is protected under this title is prohibited unless the portions consisting of such material have been manufactured in the United States or Canada.

(b) The provisions of subsection (a) do not apply—

(1) where, on the date when importation is sought or public distribution in the United States is made, the author of any substantial part of such material is neither a national nor a domiciliary of the United States or, if such author is a national of the United States, he or she has been domiciled outside the United States for a continuous period of at least one year immediately preceding that date; in the case of a work made for hire, the exemption provided by this clause does not apply unless a substantial part of the work was prepared for an employer or other person who is not a national or domiciliary of the United States or a domestic corporation or enterprise;

(2) where the United States Customs Service is presented with an import statement issued under the seal of the Copyright Office, in which case a total of no more than two thousand copies of any one such work shall be allowed entry; the import statement shall be issued upon request to the copyright owner or to a person designated by such owner at the time of registration for the work under section 408 or at any time thereafter;

(3) where importation is sought under the authority or for the use, other than in schools, of the Government of the United States or of any State or political subdivision of a State;

(4) where importation, for use and not for sale, is sought—

(A) by any person with respect to no more than one copy of any work at any one time;

(B) by any person arriving from outside the United States, with respect to copies forming part of such person's personal baggage; or

(C) by an organization operated for scholarly, educational, or religious purposes and not for private gain, with respect to copies intended to form a part of its library;

(5) where the copies are reproduced in raised characters for the use of the blind; or

(6) where, in addition to copies imported under clauses (3) and (4) of this subsection, no more than two thousand copies of any one such work, which have not been manufactured in the United States or Canada, are publicly distributed in the United States; or

(7) where, on the date when importation is sought or public distribution in the United States is made—

(A) the author of any substantial part of such material is an individual and receives compensation for the transfer or license of the right to distribute the work in the United States; and

(B) the first publication of the work has previously taken place outside the United States under a transfer or license granted by such author to a transferee or licensee who was not a national or domiciliary of the United States or a domestic corporation or enterprise; and

(C) there has been no publication of an authorized edition of the work of which the copies were manufactured in the United States; and

(D) the copies were reproduced under a transfer or license granted by such author or by the transferee or licensee of the right of first publication as mentioned in subclause (B), and the transferee or the licensee of the right of reproduction was not a national or domiciliary of the United States or a domestic corporation or enterprise.

(c) The requirement of this section that copies be manufactured in the United States or Canada is satisfied if—

(1) in the case where the copies are printed directly from type that has been set, or directly from plates made from such type, the setting of the type and the making of the plates have been performed in the United States or Canada; or

(2) in the case where the making of plates by a lithographic or photoengraving process is a final or intermediate step preceding the printing of the copies, the making of the plates has been performed in the United States or Canada; and

(3) in any case, the printing or other final process of producing multiple copies and any binding of the copies have been performed in the United States or Canada.

(d) Importation or public distribution of copies in violation of this section does not invalidate protection for a work under this title. However, in any civil action or criminal proceeding for infringement of the exclusive rights to reproduce and distribute copies of the work, the infringer has a complete defense with respect to all of the non-dramatic literary material comprised in the work and any other parts of the work in which the exclusive rights to reproduce and distribute copies are owned by the same person who owns such exclusive rights in the nondramatic literary material, if the infringer proves—

(1) that copies of the work have been imported into or publicly distributed in the United States in violation of this section by or with the authority of the owner of such exclusive rights; and

(2) that the infringing copies were manufactured in the United States or Canada in accordance with the provisions of subsection (c); and

(3) that the infringement was commenced before the effective date of registration for an authorized edition of the work, the copies of which have been manufactured in the United States or Canada in accordance with the provisions of subsection (c).

(e) In any action for infringement of the exclusive rights to reproduce and distribute copies of a work containing material required by this section to be manufactured in the United States or Canada, the copyright owner shall set forth in the complaint the names of the persons or organizations who performed the processes specified by subsection (c) with respect to that material, and the places where those processes were performed.

§ 602. Infringing importation of copies or phonorecords

17 USC 602.

(a) Importation into the United States, without the authority of the owner of copyright under this title, of copies or phonorecords of a work that have been acquired outside the United States is an infringement of the exclusive right to distribute copies or phonorecords under

section 106, actionable under section 501. This subsection does not apply to—

(1) importation of copies or phonorecords under the authority or for the use of the Government of the United States or of any State or political subdivision of a State, but not including copies or phonorecords for use in schools, or copies of any audiovisual work imported for purposes other than archival use;

(2) importation, for the private use of the importer and not for distribution, by any person with respect to no more than one copy or phonorecord of any one work at any one time, or by any person arriving from outside the United States with respect to copies or phonorecords forming part of such person's personal baggage; or

(3) importation by or for an organization operated for scholarly, educational, or religious purposes and not for private gain, with respect to no more than one copy of an audiovisual work solely for its archival purposes, and no more than five copies or phonorecords of any other work for its library lending or archival purposes, unless the importation of such copies or phonorecords is part of an activity consisting of systematic reproduction or distribution, engaged in by such organization in violation of the provisions of section 108(g)(2).

(b) In a case where the making of the copies or phonorecords would have constituted an infringement of copyright if this title had been applicable, their importation is prohibited. In a case where the copies or phonorecords were lawfully made, the United States Customs Service has no authority to prevent their importation unless the provisions of section 601 are applicable. In either case, the Secretary of the Treasury is authorized to prescribe, by regulation, a procedure under which any person claiming an interest in the copyright in a particular work may, upon payment of a specified fee, be entitled to notification by the Customs Service of the importation of articles that appear to be copies or phonorecords of the work.

Regulations.

17 USC 603.

§ 603. Importation prohibitions: Enforcement and disposition of excluded articles

Regulations.

(a) The Secretary of the Treasury and the United States Postal Service shall separately or jointly make regulations for the enforcement of the provisions of this title prohibiting importation.

(b) These regulations may require, as a condition for the exclusion of articles under section 602—

(1) that the person seeking exclusion obtain a court order enjoining importation of the articles; or

Surety bond.

(2) that the person seeking exclusion furnish proof, of a specified nature and in accordance with prescribed procedures, that the copyright in which such person claims an interest is valid and that the importation would violate the prohibition in section 602; the person seeking exclusion may also be required to post a surety bond for any injury that may result if the detention or exclusion of the articles proves to be unjustified.

(c) Articles imported in violation of the importation prohibitions of this title are subject to seizure and forfeiture in the same manner as property imported in violation of the customs revenue laws. Forfeited articles shall be destroyed as directed by the Secretary of the Treasury or the court, as the case may be; however, the articles may be returned to the country of export whenever it is shown to the satisfaction of the Secretary of the Treasury that the importer had no reasonable grounds for believing that his or her acts constituted a violation of law.

17 USC 801.

§ 801. Copyright Royalty Tribunal: Establishment and purpose

(a) There is hereby created an independent Copyright Royalty Tribunal in the legislative branch.

(b) Subject to the provisions of this chapter, the purposes of the Tribunal shall be—

(1) to make determinations concerning the adjustment of reasonable copyright royalty rates as provided in sections 115 and 116, and to make determinations as to reasonable terms and rates of royalty payments as provided in section 118. The rates applicable under sections 115 and 116 shall be calculated to achieve the following objectives:

(A) To maximize the availability of creative works to the public;

(B) To afford the copyright owner a fair return for his creative work and the copyright user a fair income under existing economic conditions;

(C) To reflect the relative roles of the copyright owner and the copyright user in the product made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, risk, and contribution to the opening of new markets for creative expression and media for their communication;

(D) To minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.

(2) to make determinations concerning the adjustment of the copyright royalty rates in section 111 solely in accordance with the following provisions:

(A) The rates established by section 111(d)(2)(B) may be adjusted to reflect (i) national monetary inflation or deflation or (ii) changes in the average rates charged cable subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar level of the royalty fee per subscriber which existed as of the date of enactment of this Act: *Provided*, That if the average rates charged cable system subscribers for the basic service of providing secondary transmissions are changed so that the average rates exceed national monetary inflation, no change in the rates established by section 111(d)(2)(B) shall be permitted: *And provided further*, That no increase in the royalty fee shall be permitted based on any reduction in the average number of distant signal equivalents per subscriber. The Commission may consider all factors relating to the maintenance of such level of payments including, as an extenuating factor, whether the cable industry has been restrained by subscriber rate regulating authorities from increasing the rates for the basic service of providing secondary transmissions.

(B) In the event that the rules and regulations of the Federal Communications Commission are amended at any time after April 15, 1976, to permit the carriage by cable systems of additional television broadcast signals beyond the local service area of the primary transmitters of such signals, the royalty rates established by section 111(d)(2)(B) may be adjusted to insure that the rates for the additional distant signal equivalents resulting from such carriage are reasonable in the light of the changes effected by the amendment to such rules and regulations. In determining the reasonableness of rates proposed following an amendment of Federal Communications Commission rules and regulations, the Copyright Royalty Tribunal shall consider, among other factors, the economic impact on copyright owners and users: *Provided*, That no adjustment in royalty rates shall be made under this subclause with respect to any distant signal equivalent or fraction thereof represented by (i) carriage of any signal permitted under the rules and regulations of the Federal Communications Commission in effect on April 15, 1976, or the carriage of a signal of the same type (that is, independent, network, or noncommercial educational) substituted for such permitted signal, or (ii) a television broadcast signal first carried after April 15, 1976, pursuant to an

individual waiver of the rules and regulations of the Federal Communications Commission, as such rules and regulations were in effect on April 15, 1976.

(C) In the event of any change in the rules and regulations of the Federal Communications Commission with respect to syndicated and sports program exclusivity after April 15, 1976, the rates established by section 111(d)(2)(B) may be adjusted to assure that such rates are reasonable in light of the changes to such rules and regulations, but any such adjustment shall apply only to the affected television broadcast signals carried on those systems affected by the change.

(D) The gross receipts limitations established by section 111(d)(2)(C) and (D) shall be adjusted to reflect national monetary inflation or deflation or changes in the average rates charged cable system subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar value of the exemption provided by such section; and the royalty rate specified therein shall not be subject to adjustment; and

(3) to distribute royalty fees deposited with the Register of Copyrights under sections 111 and 116, and to determine, in cases where controversy exists, the distribution of such fees.

Notice.

(c) As soon as possible after the date of enactment of this Act, and no later than six months following such date, the President shall publish a notice announcing the initial appointments provided in section 802, and shall designate an order of seniority among the initially-appointed commissioners for purposes of section 802(b).

17 USC 802.

§ 802. Membership of the Tribunal

(a) The Tribunal shall be composed of five commissioners appointed by the President with the advice and consent of the Senate for a term of seven years each; of the first five members appointed, three shall be designated to serve for seven years from the date of the notice specified in section 801(c), and two shall be designated to serve for five years from such date, respectively. Commissioners shall be compensated at the highest rate now or hereafter prescribe for grade 18 of the General Schedule pay rates (5 U.S.C. 5332).

(b) Upon convening the commissioners shall elect a chairman from among the commissioners appointed for a full seven-year term. Such chairman shall serve for a term of one year. Thereafter, the most senior commissioner who has not previously served as chairman shall serve as chairman for a period of one year, except that, if all commissioners have served a full term as chairman, the most senior commissioner who has served the least number of terms as chairman shall be designated as chairman.

(c) Any vacancy in the Tribunal shall not affect its powers and shall be filled, for the unexpired term of the appointment, in the same manner as the original appointment was made.

17 USC 803.

§ 803. Procedures of the Tribunal

(a) The Tribunal shall adopt regulations, not inconsistent with law, governing its procedure and methods of operation. Except as otherwise provided in this chapter, the Tribunal shall be subject to the provisions of the Administrative Procedure Act of June 11, 1946, as amended (c. 324, 60 Stat. 237, title 5, United States Code, chapter 5, subchapter II and chapter 7).

The amounts so deducted and withheld from the salary of each such judicial official shall, in accordance with such procedures as may be prescribed by the Comptroller General of the United States, be covered into the Treasury of the United States and credited to the ‘Judicial Survivors’ Annuities Fund’ established by

section 3 of the Judicial Survivors' Annuities Reform Act. Such fund shall be used for the payment of annuities, refunds, and allowances as provided by this section. Payment of such salary less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for all services rendered by such judicial official during the period covered by such payment, except the rights to those benefits to which such judicial official, or his or her survivors, shall be entitled under the provisions of this section. *Post*, p. 2611.

“(c) There shall also be deposited to the credit of the ‘Judicial Survivors’ Annuities Fund’, in accordance with such procedures as may be prescribed by the Comptroller General of the United States, amounts matching those deducted and withheld in accordance with subsection (b) of this section. Such deposits shall be taken from the fund used to pay the compensation of the judicial official, and shall immediately become an integrated part of the ‘Judicial Survivors’ Annuities Fund’ for any use required under this section.

“(d) Each judicial official shall deposit, with interest at 4 percent per annum to December 31, 1947, and at 3 percent per annum thereafter, compounded on December 31 of each year, to the credit of the ‘Judicial Survivors’ Annuities Fund’:

“(1) a sum equal to 4.5 percent of that salary, including ‘retirement salary’, which he or she has received for serving in any of the offices designated in paragraph (1) of subsection (a) of this section prior to the date upon which he or she filed notice of an intention to come within the purview of this section with the Director of the Administrative Office of the United States Courts; and

“(2) a sum equal to 4.5 percent of the basic salary, pay, or compensation which he or she has received for serving as a Senator, Representative, Delegate, or Resident Commissioner in Congress, or for serving as an ‘employee’, as that term is defined in subsection (1) of section 8331 of title 5, prior to assuming the responsibilities of any of the offices designated in paragraph (1) of subsection (a) of this section.

The interest otherwise required by this subsection shall not be required for any period during which a judicial official was separated from all such service and was not receiving any retirement salary.

“Each such judicial official may elect to make such deposits in installments, during the continuance of his or her service in those offices designated in paragraph (1) of subsection (a) of this section, in such amounts and under such conditions as may be determined in each instance by the Director of the Administrative Office of the United States Courts: *Provided*, That, in each instance in which a judicial official does elect to make such deposits in installments, the Director shall require (i) that the first installment payment made shall be in an amount no smaller than that amount necessary to cover at least the last eighteen months of prior creditable civilian service, and (ii) that at least one additional installment payment shall be made every eighteen months thereafter until the total of all such deposits have been made.

“Notwithstanding the failure of any such judicial official to make all such deposits or installment payments, credit shall be allowed for the service rendered, but the annuity of that judicial official’s widow or widower shall be reduced by an amount equal to 10 percent of the amount of such deposits, computed as of the date of the death of such judicial official, unless such widow or widower shall elect to eliminate such service entirely from credit under subsection (k) of this section:

Provided, That no deposit shall be required from any such judicial official for any honorable active duty service in the Army, Navy, Air Force, Marine Corps, or Coast Guard of the United States, or for any other creditable service rendered prior to August 1, 1920.

“(e) The amounts deducted and withheld in accordance with subsection (b) of this section, and the amounts deposited in accordance with subsection (d) of this section, shall be credited to individual accounts in the name of each judicial official from whom such amounts are received, for credit to the ‘Judicial Survivors’ Annuities Fund’.

“(f) The Secretary of the Treasury shall invest, from time to time, in interest bearing securities of the United States or Federal farm loan bonds, those portions of the ‘Judicial Survivors’ Annuities Fund’ which in his judgment may not be immediately required for the payment of annuities, refunds, and allowances as provided in this section. The income derived from such investments shall constitute a part of such fund for the purposes of paying annuities and carrying out the provisions of subsections (g), (h), (m), (o), (p), and (q) of this section.

“(g) If any judicial official resigns from office without receiving any ‘retirement salary,’ all amounts credited to his or her individual account, together with interest at 4 percent per annum to December 31, 1947; and at 3 percent annum thereafter, compounded on December 31 of each year, to the date of his or her relinquishment of office, shall be returned to that judicial official in a lump-sum payment within a reasonable period of time following the date of his or her relinquishment of office. For the purposes of this subsection a ‘reasonable period of time’ shall be presumed to be no longer than one year following the date upon which such judicial official relinquished his or her office.

“(h) Annuities payable under this section shall be paid only in accordance with the following provisions:

“(1) In any case in which a judicial official dies while in office, or while receiving ‘retirement salary,’ after having completed at least eighteen months of creditable civilian service, as computed in accordance with subsection (k) of this section, for the last eighteen months of which the salary deductions provided by subsection (b) of this section or, in lieu thereof, the deposits required by subsection (d) of this section have actually been made—

“(A) if such judicial official is survived by a widow or widower, but not by a child, there shall be paid to such widow or widower an annuity, beginning on the day on which such judicial official died, in an amount computed as provided in subsection (l) of this section; or

“(B) if such judicial official is survived by a widow or widower and a child or children, there shall be paid to such widow or widower an annuity, beginning on the day on which such judicial official died, in an amount computed as provided in subsection (l) of this section, and there shall also be paid to or on behalf of each such child an immediate annuity equal to:

“(i) \$1,548; or

“(ii) \$4,644, divided by the number of children; whichever is smallest; or

“(C) if such judicial official leaves no surviving widow or widower, but does leave a surviving child or children, there shall be paid to or on behalf of each such child an immediate annuity equal to:

“Reasonable
period of time.”

“(i) the amount of the annuity to which the judicial official's widow or widower would have been entitled under subparagraph (1)(A) of this subsection, had such widow or widower survived the judicial official, divided by the number of children; or

“(ii) \$1,860; or

“(iii) \$5,580, divided by the number of children;

whichever is smallest.

“(2) An annuity payable to a widow or widower under subparagraphs (1)(A) or (1)(B) of this subsection shall be terminated upon his or her death or remarriage.

“(3) An annuity payable to a child under this subsection shall terminate:

“(A) if such child is receiving an annuity based upon his or her status under subparagraph (5)(A) of subsection (a) of this section, on the last day of the month during which he or she becomes eighteen years of age;

“(B) if such child is receiving an annuity based upon his or her status under subparagraph (5)(B) of subsection (a) of this section, either (i) on the first day of July immediately following his or her twenty-second birthday or (ii) on the last day of the month during which he or she ceases to be a full-time student in accordance with subparagraph (5)(B) of subsection (a) of this section, whichever occurs first: *Provided*, That if such child is rendered incapable of self-support because of a mental or physical disability incurred while receiving that annuity, that annuity shall not terminate, but shall continue without interruption and shall be deemed to have become, as of the date of disability, an annuity based upon his or her status under clause (ii) of subparagraph (5)(C) of subsection (a) of this section;

“(C) if such child is receiving an annuity based upon his or her status under subparagraph (5)(C) of subsection (a) of this section, on the last day of the month during which he or she ceases to be incapable of self-support because of mental or physical disability; or

“(D) on the last day of the month during which such child dies or marries.

“(4) An annuity payable to a child or children under subparagraph (1)(B) of this subsection shall be recomputed and paid as provided in subparagraph (1)(C) of this subsection upon the death, but not upon the remarriage, of the widow or widower who is receiving an annuity under subparagraph (1)(B) of this subsection.

“(5) In any case in which the annuity of a child is terminated, the annuity of each remaining child which is based upon the service of the same judicial official shall be recomputed and paid as though the child whose annuity has been terminated had not survived that judicial official.

“(i) All questions of dependency and disability arising under this section shall be determined by the Director of the Administrative Office of the United States Courts, subject to review only by the Judicial Conference of the United States, and the decision of the Judicial Conference of the United States shall be final and conclusive. The Director may order or direct at any time such medical or other examinations as he deems necessary to determine the facts relative to the nature and degree of disability of any child who is an annuitant, or an applicant for an annuity, under this section, and may suspend or

deny any such annuity for failure to submit to any such examination.

“(j) In any case in which a payment under this section is to be made to a minor, or to a person mentally incompetent or under other legal disability, as determined by a court of competent jurisdiction, such payment may be made to the person who is constituted guardian or other fiduciary of such claimant by the laws of the State of residence of such claimant, or to any other person who is otherwise legally vested with the care of the claimant or of the claimant’s estate, and need not be made directly to such claimant. The Director of the Administrative Office of the United States Courts may, at his or her discretion, determine whether such payment is made directly to such claimant or to such guardian, fiduciary, or other person legally vested with the care of such claimant or the claimant’s estate. Where no guardian or other fiduciary of such minor or such person under legal disability has been appointed under the laws of the State of residence of such claimant, the Director of the Administrative Office of the United States Courts shall determine the person who is otherwise legally vested with the care of the claimant or of the claimant’s estate.

“(k) The years of service rendered by a judicial official which may be creditable in calculating the amount of an annuity for such judicial official’s widow or widower under subsection (l) of this section shall include—

“(1) those years during which such judicial official served in any of the offices designated in paragraph (1) of subsection (a) of this section, including in the case of a Justice or judge of the United States those years during which he or she continued to hold office following retirement from regular active service under subsection (b) of section 371 or subsection (a) of section 372 of this title;

“(2) those years during which such judicial official served as a Senator, Representative, Delegate, or Resident Commissioner in Congress, prior to assuming the responsibilities of any of the offices designated in paragraph (1) of subsection (a) of this section;

“(3) those years during which such judicial official honorably served on active duty in the Army, Navy, Air Force, Marine Corps, or Coast Guard of the United States, prior to assuming the responsibilities of any of the offices designated in paragraph (1) of subsection (a) of this section: *Provided*, That those years of such military service for which credit has been allowed for the purposes of retirement or retired pay under any other provision of law shall not be included as allowable years of such service under this section; and

“(4) those years during which such judicial official served as an ‘employee’, as that term is defined in subsection (1) of section 8331 of title 5, prior to assuming the responsibilities of any of the offices designated in paragraph (1) of subsection (a) of this section.

28 USC 371,
372.

“Years.”

For the purposes of this subsection the term ‘years’ shall mean full years and twelfth parts thereof, excluding from the aggregate any fractional part of a month which numbers less than fifteen full days and including, as one full month, any fractional part of a month which numbers fifteen full days or more. Nothing in this subsection shall be interpreted as waiving or canceling that reduction in the annuity of a widow or widower which is required by subsection (d) of this section due to the failure of a judicial official to make those deposits required by subsection (d) of this section.

“(l) The annuity of a widow or widower of a judicial official shall be an amount equal to the sum of—

“(1) $11\frac{1}{4}$ percent of the average annual salary, including retirement salary, which such judicial official received for serving in any of the offices designated in paragraph (1) of subsection (a) of this section (i) during those three years of such service in which his or her annual salary was greatest, or (ii) if such judicial official has so served less than three years, but more than eighteen months, then during the total period of such service prior to his or her death, multiplied by the total of:

“(A) the number of years of creditable service tabulated in accordance with paragraph (1) of subsection (k) of this section; plus

“(B) the number of years of creditable service tabulated in accordance with paragraph (2) of subsection (k) of this section; plus

“(C) the number of years of creditable service tabulated in accordance with paragraph (3) of subsection (k) of this section; plus

“(D) the number of years up to, but not exceeding, fifteen of creditable service tabulated in accordance with paragraph (4) of subsection (k) of this section,

plus:

“(2) three-fourths of 1 percent of such average annual salary, multiplied by the number of years of any prior creditable service, as tabulated in accordance with subsection (k) of this section, not applied under paragraph (1) of this subsection:

Provided, That such annuity shall not exceed 40 percent of such average annual salary and shall be further reduced in accordance with subsection (d) of this section, if applicable.

“(m) Whenever the salary paid for service in one of the offices designated in paragraph (1) of subsection (a) of this section is increased, each annuity payable from the ‘Judicial Survivors’ Annuities Fund’, which is based, in whole or in part, upon a deceased judicial official having rendered some portion of his or her final eighteen months of service in that same office, shall also be increased. The actual amount of the increase in such an annuity shall be determined by multiplying the amount of the annuity, on the date on which the increase in salary becomes effective, by 3 percent for each 5 percent by which such salary has been increased. In the event that such salary is increased by less than 5 percent, there shall be no increase in such annuity.

“(n) Each annuity authorized under this section shall accrue monthly and shall be due and payable in monthly installments on the first business day of the month following the month or other period for which the annuity shall have accrued. No annuity authorized under this section shall be assignable, either in law or in equity, or subject to execution, levy, attachment, garnishment, or other legal process.

“(o) In any case in which a judicial official dies while in office, or while receiving ‘retirement salary’, and;

“(1) before having completed eighteen months of civilian service, computed in accordance with subsection (k) of this section, during which the salary deductions provided by subsection (h) of this section or the deposit required by subsection (d) of this section have actually been made; or

“(2) after having completed eighteen months of civilian service, computed in accordance with subsection (k) of this section, during which all such deductions or deposits have been made, but without a survivor or survivors who are entitled to receive the annuity benefits provided by subsection (h) of this section; or

“(3) the rights of all persons entitled to receive the annuity benefits provided by subsection (h) of this section terminate before a valid claim therefor has been established; the total amount credited to the individual account of that judicial official, established under subsection (e) of this section, with interest at 4 percent per annum to December 31, 1947, and at 3 percent per annum thereafter, compounded on December 31, of each year, to the date of that judicial official's death, shall be paid, upon the establishment of a valid claim therefor, to the person or persons surviving at the date title to the payment arises, in the following order of precedence:

“First, to the beneficiary or beneficiaries whom that judicial official may have designated in a writing received by the Administrative Office of the United States Courts prior to his or her death;

“Second, if there be no such beneficiary, to the widow or widower of such judicial official;

“Third, if none of the above, to the child or children of such judicial official and the descendants of any deceased children by representation;

“Fourth, if none of the above, to the parents of such judicial official or the survivor of them;

“Fifth, if none of the above, to the duly appointed executor, executrix, administrator, or administratrix of the estate of such judicial official;

“Sixth, if none of the above, to such other next of kin of such judicial official, as may be determined by the Director of the Administrative Office of the United States Courts to be entitled to such payment, under the laws of the domicile of such judicial official, at the time of his or her death.

Such payment shall be a bar to recovery by any other person. For the purposes of this subsection only, a determination that an individual is a widow, widower, or child of a judicial official may be made by the Director of the Administrative Office of the United States Courts without regard to the definitions of those terms contained in paragraphs (3), (4), and (5) of subsection (a) of this section.

“(p) In any case in which all the annuities which are authorized by this section and based upon the service of a given official terminate before the aggregate amount of annuity payments received by the annuitant or annuitants equals the total amount credited to the individual account of such judicial official, established under subsection (e) of this section with interest at 4 percent per annum to December 31, 1947, and at 3 percent per annum thereafter, compounded on December 31, of each year, to the date of that judicial official's death, the difference between such total amount, with such interest, and such aggregate amount shall be paid, upon establishment of a valid claim therefor, in the order of precedence prescribed in subsection (o) of this section.

“(q) Any accrued annuity benefits remaining unpaid upon the termination of an annuity, other than by the death of an annuitant, shall be paid to that annuitant. Any accrued annuity benefits remaining unpaid upon the death of an annuitant shall be paid, upon the establishment of a valid claim therefor, in the following order of precedence:

“First, to the duly appointed executor, executrix, administrator, or administratrix of the estate of such annuitant;

"Second, if there is no such executor, executrix, administrator, or administratrix, payments shall be made, after the expiration of sixty days from the date of death of such annuitant, to such individual or individuals as may appear, in the judgment of the Director of the Administrative Office of the United States Courts, to be legally entitled thereto, and such payment shall be a bar to recovery by any other individual.

"(r) Nothing contained in this section shall be interpreted to prevent a widow or widower eligible for an annuity under this section from simultaneously receiving such an annuity while also receiving any other annuity to which such widow or widower may also be entitled under any other law without regard to this section: *Provided*, That service used in the computation of the annuity conferred by this section shall not also be credited in computing any such other annuity."

SEC. 3. That on the date upon which this Act becomes effective there shall be established on the books of the Treasury a fund which shall be known as "The Judicial Survivors' Annuities Fund", and all money credited to the judicial survivors annuity fund established by section 2 of the Act of August 3, 1956 (70 Stat. 1021), as amended, shall be transferred to the credit of the Judicial Survivors' Annuities Fund established by this section.

(3) any portion of such service (with respect to which taxes were paid and refunded or credited as described in paragraph (2)) would constitute employment (as so defined) if the organization had actually filed under section 3121(k)(1) of such Code a valid waiver certificate effective as provided in section 3121(k)(5)(B) thereof (with such individual's signature appearing on the accompanying list), 26 USC 3121.

applicable to such park. The Secretary is authorized and directed to exclude from the boundaries of the park such private lands and publicly owned and maintained roads within Grays Harbor County which are near and adjacent to Lake Quinault, and which do not exceed two thousand, one hundred and sixty-eight acres in total. Prior to excluding such lands from the park, the Secretary shall study and investigate current and prospective uses of the private lands, as well as the implications of their exclusion both for the lands involved and for Olympic National Park. The results of such study shall be transmitted to the President and to the Congress within two years of the enactment of this Act, and shall take effect unless disapproved by simple majority vote of the House of Representatives or the Senate of the United States of America within ninety legislative days of their submission to the Congress. Property excluded from the boundaries of the park by this Act may be exchanged for non-Federal property within the boundaries; or it may be transferred to the jurisdiction of any Federal agency or to the State of Washington or a political subdivision thereof, without monetary consideration, as the Secretary may deem appropriate. Any such Federal property transferred to the jurisdiction of the Secretary of Agriculture for national forest purposes shall upon such transfer become part of the national forest and subject to the laws and regulations pertaining thereto. Any property excluded from the park by this Act which is within the boundaries of an Indian reservation may be transferred in trust to such Indian tribe, subject, however, to the express condition that any concessioner providing public services shall be permitted to continue to provide such services in such manner and for such period as set forth in his concession contract, that the Secretary of the Interior is authorized to pay all franchise fees collected from the concessioner under the contract to said Indian Tribe, and that in the event his contract is terminated, the United States shall purchase his possessory interest in accordance with the Act of October 9, 1965 (79 Stat. 969). The acquisition of lands by the United States in trust for an Indian tribe pursuant to this title shall not confer any hunting or fishing rights upon such tribe which were not vested in such tribe prior to the acquisition of such lands.

"Improved
property."

(e)(1) Any owner or owners of improved property within the boundaries of the park, as revised by and pursuant to this Act may, on the date of its acquisition, retain for themselves and their successors or assigns a right of use and occupancy of the property for such non-commercial residential purposes as existed on or before January 1, 1976, for twenty-five years, or, in lieu thereof, for a term ending at the death of the owner or his spouse, whichever is later. The Secretary shall pay to the owner the fair market value of the property on the date of such acquisition, less the fair market value on such date of the right retained by the owner.

(2) As used in this title, the term "improved property" shall mean any single-family dwelling on which construction was begun before January 1, 1976, together with so much of the land on which the dwelling is situated (such land being in the same ownership as the dwelling) as shall be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, as the Secretary shall designate. The amount of the land so designated shall in every case be not more than three acres in area: *Provided*, That the Secretary may exclude from the land so designated any beach or water, together with so much of the land adjoining any such beach or water, as he may deem necessary for public access thereto.

(f) The Secretary is directed to acquire in fee all other privately owned lands added to the park by and pursuant to this Act, and to acquire within three years of adoption of this Act so much of such lands as can be acquired by donation, exchange, or purchase, to the extent of available funds, and to report to Congress on the third anniversary of adoption of this Act the estimated amount of appropriations which would be necessary to acquire the remainder, if any, of such lands by condemnation. The compensation for such lands shall be their fair market value on the date of their acquisition, taking into account applicable land use regulations in effect on January 1, 1976.

16 USC 251i.

(g) Notwithstanding the provisions of the preceding subsection, any noncorporate owner or owners, as of January 1, 1976, of property adjacent to Lake Ozette may retain title to such property: *Provided*, That such owner or owners consent to acquisition by the Secretary or scenic easements or other interests that allow only those improvements that the Secretary finds to be reasonably necessary for continued use and occupancy. Any such owner or owners who elects to improve his property or a portion thereof shall submit to the Secretary a plan which shall set forth the manner in which the property is to be improved and the use to which it is proposed to be put. If, upon review of such plan, the Secretary determines that it is compatible with the limitations of this subsection, he in his discretion may issue a permit to such owner and a certificate to that effect. Upon issuance of any such certificate and so long as such property is maintained and used in conformity therewith, the authority of the Secretary to acquire such property or interest therein without the consent of the owner shall be suspended.

Property retained.
16 USC 251j.

(h) In order to minimize economic dislocation in acquiring property within the park, the Secretary may acquire with the consent of the owner, lands and interests in lands outside the boundaries of the park, but within the State of Washington, and with the concurrence of the Secretary of Agriculture, he may utilize lands and interests therein within a national forest in the State of Washington hereby authorized to be transferred to the Secretary, for the purpose of exchanging lands and interests so acquired or transferred for property within the park.

Land acquisition.
16 USC 251k.

(i) Effective upon acceptance thereof by the State of Washington (1) the jurisdiction which the United States acquired over those lands excluded from the boundaries of Olympic National Park by subsection 1(a) of this Act is hereby retroceded to the State: *Provided*, That the lands restored to the Quileute Indian Reservation shall be subject to the same State and Tribal jurisdiction as all other trust lands within said Reservation; and (2) there is hereby retroceded to such State concurrent legislative jurisdiction, as the Governor of the State of Washington and the Secretary shall determine, over and within all territory within the boundaries of the park as revised by this Act.

16 USC 251l.

(j) There is hereby authorized to be appropriated not to exceed \$13,000,000 for the acquisition of lands, privately owned aquatic lands, or interests therein in accordance with the provisions of this title. No funds authorized to be appropriated pursuant to this title shall be available prior to October 1, 1977.

TITLE I—SHORT TITLE, DECLARATION OF POLICY, AND DEFINITIONS

SHORT TITLE

43 USC 1701
 note.

SEC. 101. This Act may be cited as the “Federal Land Policy and Management Act of 1976”.

DECLARATION OF POLICY

43 USC 1701.

SEC. 102. (a) The Congress declares that it is the policy of the United States that—

(1) the public lands be retained in Federal ownership, unless as a result of the land use planning procedure provided for in this Act, it is determined that disposal of a particular parcel will serve the national interest;

(2) the national interest will be best realized if the public lands and their resources are periodically and systematically inventoried and their present and future use is projected through a land use planning process coordinated with other Federal and State planning efforts;

(3) public lands not previously designated for any specific use and all existing classifications of public lands that were effected by executive action or statute before the date of enactment of this Act be reviewed in accordance with the provisions of this Act;

(4) the Congress exercise its constitutional authority to withdraw or otherwise designate or dedicate Federal lands for specified purposes and that Congress delineate the extent to which the Executive may withdraw lands without legislative action;

(5) in administering public land statutes and exercising discretionary authority granted by them, the Secretary be required to establish comprehensive rules and regulations after considering the views of the general public; and to structure adjudication procedures to assure adequate third party participation, objective administrative review of initial decisions, and expeditious decisionmaking;

(6) judicial review of public land adjudication decisions be provided by law;

(7) goals and objectives be established by law as guidelines for public land use planning, and that management be on the basis

of multiple use and sustained yield unless otherwise specified by law;

(8) the public lands be managed in a manner that will protect the quality of scientific, scenic, historical, ecological, environmental, air and atmospheric, water resource, and archeological values; that, where appropriate, will preserve and protect certain public lands in their natural condition; that will provide food and habitat for fish and wildlife and domestic animals; and that will provide for outdoor recreation and human occupancy and use;

(9) the United States receive fair market value of the use of the public lands and their resources unless otherwise provided for by statute;

(10) uniform procedures for any disposal of public land, acquisition of non-Federal land for public purposes, and the exchange of such lands be established by statute, requiring each disposal, acquisition, and exchange to be consistent with the prescribed mission of the department or agency involved, and reserving to the Congress review of disposals in excess of a specified acreage;

(11) regulations and plans for the protection of public land areas of critical environmental concern be promptly developed;

(12) the public lands be managed in a manner which recognizes the Nation's need for domestic sources of minerals, food, timber, and fiber from the public lands including implementation of the Mining and Minerals Policy Act of 1970 (84 Stat. 1876, 30 U.S.C. 21a) as it pertains to the public lands; and

(13) the Federal Government should, on a basis equitable to both the Federal and local taxpayer, provide for payments to compensate States and local governments for burdens created as a result of the immunity of Federal lands from State and local taxation.

(b) The policies of this Act shall become effective only as specific statutory authority for their implementation is enacted by this Act or by subsequent legislation and shall then be construed as supplemental to and not in derogation of the purposes for which public lands are administered under other provisions of law.

DEFINITIONS

SEC. 103. Without altering in any way the meaning of the following terms as used in any other statute, whether or not such statute is referred to in, or amended by, this Act, as used in this Act—

43 USC 1702.

(a) The term "areas of critical environmental concern" means areas within the public lands where special management attention is required (when such areas are developed or used or where no development is required) to protect and prevent irreparable damage to important historic, cultural, or scenic values, fish and wildlife resources or other natural systems or processes, or to protect life and safety from natural hazards.

(b) The term "holder" means any State or local governmental entity, individual, partnership, corporation, association, or other business entity receiving or using a right-of-way under title V of this Act.

(c) The term "multiple use" means the management of the public lands and their various resource values so that they are utilized in the combination that will best meet the present and future needs of the American people; making the most judicious use of the land for some or all of these resources or related services over areas large enough to

provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; the use of some land for less than all of the resources; a combination of balanced and diverse resource uses that takes into account the long-term needs of future generations for renewable and nonrenewable resources, including, but not limited to, recreation, range, timber, minerals, watershed, wildlife and fish, and natural scenic, scientific and historical values; and harmonious and coordinated management of the various resources without permanent impairment of the productivity of the land and the quality of the environment with consideration being given to the relative values of the resources and not necessarily to the combination of uses that will give the greatest economic return or the greatest unit output.

(d) The term "public involvement" means the opportunity for participation by affected citizens in rulemaking, decisionmaking, and planning with respect to the public lands, including public meetings or hearings held at locations near the affected lands, or advisory mechanisms, or such other procedures as may be necessary to provide public comment in a particular instance.

(e) The term "public lands" means any land and interest in land owned by the United States within the several States and administered by the Secretary of the Interior through the Bureau of Land Management, without regard to how the United States acquired ownership, except—

(1) lands located on the Outer Continental Shelf; and

(2) lands held for the benefit of Indians, Aleuts, and Eskimos.

Post, p. 2776.

(f) The term "right-of-way" includes an easement, lease, permit, or license to occupy, use, or traverse public lands granted for the purpose listed in title V of this Act.

(g) The term "Secretary", unless specifically designated otherwise, means the Secretary of the Interior.

(h) The term "sustained yield" means the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the public lands consistent with multiple use.

Post, p. 2785.

(i) The term "wilderness" as used in section 603 shall have the same meaning as it does in section 2(c) of the Wilderness Act (78 Stat. 890; 16 U.S.C. 1131-1136).

(j) The term "withdrawal" means withholding an area of Federal land from settlement, sale, location, or entry, under some or all of the general land laws, for the purpose of limiting activities under those laws in order to maintain other public values in the area or reserving the area for a particular public purpose or program; or transferring jurisdiction over an area of Federal land, other than "property" governed by the Federal Property and Administrative Services Act, as amended (40 U.S.C. 472) from one department, bureau or agency to another department, bureau or agency.

(k) An "allotment management plan" means a document prepared in consultation with the lessees or permittees involved, which applies to livestock operations on the public lands or on lands within National Forests in the eleven contiguous Western States and which:

(1) prescribes the manner in, and extent to, which livestock operations will be conducted in order to meet the multiple-use, sustained-yield, economic and other needs and objectives as determined for the lands by the Secretary concerned; and

(2) describes the type, location, ownership, and general specifications for the range improvements to be installed and maintained on the lands to meet the livestock grazing and other objectives of land management; and

(3) contains such other provisions relating to livestock grazing and other objectives found by the Secretary concerned to be consistent with the provisions of this Act and other applicable law.

(l) The term "principal or major uses" includes, and is limited to, domestic livestock grazing, fish and wildlife development and utilization, mineral exploration and production, rights-of-way, outdoor recreation, and timber production.

(m) The term "department" means a unit of the executive branch of the Federal Government which is headed by a member of the President's Cabinet and the term "agency" means a unit of the executive branch of the Federal Government which is not under the jurisdiction of a head of a department.

(n) The term "Bureau" means the Bureau of Land Management.

TITLE II—LAND USE PLANNING; LAND ACQUISITION AND DISPOSITION

INVENTORY AND IDENTIFICATION

SEC. 201. (a) The Secretary shall prepare and maintain on a continuing basis an inventory of all public lands and their resource and other values (including, but not limited to, outdoor recreation and scenic values), giving priority to areas of critical environmental concern. This inventory shall be kept current so as to reflect changes in conditions and to identify new and emerging resource and other values. The preparation and maintenance of such inventory or the identification of such areas shall not, of itself, change or prevent change of the management or use of public lands. 43 USC 1711.

(b) As funds and manpower are made available, the Secretary shall ascertain the boundaries of the public lands; provide means of public identification thereof including, where appropriate, signs and maps; and provide State and local governments with data from the inventory for the purpose of planning and regulating the uses of non-Federal lands in proximity of such public lands.

LAND USE PLANNING

SEC. 202. (a) The Secretary shall, with public involvement and consistent with the terms and conditions of this Act, develop, maintain, and, when appropriate, revise land use plans which provide by tracts or areas for the use of the public lands. Land use plans shall be developed for the public lands regardless of whether such lands previously have been classified, withdrawn, set aside, or otherwise designated for one or more uses. 43 USC 1712.

(b) In the development and revision of land use plans, the Secretary of Agriculture shall coordinate land use plans for lands in the National Forest System with the land use planning and management programs of and for Indian tribes by, among other things, considering the policies of approved tribal land resource management programs.

(c) In the development and revision of land use plans, the Secretary shall—

(1) use and observe the principles of multiple use and sustained yield set forth in this and other applicable law;

(2) use a systematic interdisciplinary approach to achieve integrated consideration of physical, biological, economic, and other sciences;

(3) give priority to the designation and protection of areas of critical environmental concern;

(4) rely, to the extent it is available, on the inventory of the public lands, their resources, and other values;

(5) consider present and potential uses of the public lands;

(6) consider the relative scarcity of the values involved and the availability of alternative means (including recycling) and sites for realization of those values;

(7) weigh long-term benefits to the public against short-term benefits;

(8) provide for compliance with applicable pollution control laws, including State and Federal air, water, noise, or other pollution standards or implementation plans; and

(9) to the extent consistent with the laws governing the administration of the public lands, coordinate the land use inventory, planning, and management activities of or for such lands with the land use planning and management programs of other Federal departments and agencies and of the States and local governments within which the lands are located, including, but not limited to, the statewide outdoor recreation plans developed under the Act of September 3, 1964 (78 Stat. 897), as amended, and of or for Indian tribes by, among other things, considering the policies of approved State and tribal land resource management programs. In implementing this directive, the Secretary shall, to the extent he finds practical, keep apprised of State, local, and tribal land use plans; assure that consideration is given to those State, local, and tribal plans that are germane in the development of land use plans for public lands; assist in resolving, to the extent practical, inconsistencies between Federal and non-Federal Government plans, and shall provide for meaningful public involvement of State and local government officials, both elected and appointed, in the development of land use programs, land use regulations, and land use decisions for public lands, including early public notice of proposed decisions which may have a significant impact on non-Federal lands. Such officials in each State are authorized to furnish advice to the Secretary with respect to the development and revision of land use plans, land use guidelines, land use rules, and land use regulations for the public lands within such State and with respect to such other land use matters as may be referred to them by him. Land use plans of the Secretary under this section shall be consistent with State and local plans to the maximum extent he finds consistent with Federal law and the purposes of this Act.

(d) Any classification of public lands or any land use plan in effect on the date of enactment of this Act is subject to review in the land use planning process conducted under this section, and all public lands, regardless of classification, are subject to inclusion in any land use plan developed pursuant to this section. The Secretary may modify or terminate any such classification consistent with such land use plans.

(e) The Secretary may issue management decisions to implement

16 USC 460l-4
note.

land use plans developed or revised under this section in accordance with the following:

(1) Such decisions, including but not limited to exclusions (that is, total elimination) of one or more of the principal or major uses made by a management decision shall remain subject to reconsideration, modification, and termination through revision by the Secretary or his delegate, under the provisions of this section, of the land use plan involved.

(2) Any management decision or action pursuant to a management decision that excludes (that is, totally eliminates) one or more of the principal or major uses for two or more years with respect to a tract of land of one hundred thousand acres or more shall be reported by the Secretary to the House of Representatives and the Senate. If within ninety days from the giving of such notice (exclusive of days on which either House has adjourned for more than three consecutive days), the Congress adopts a concurrent resolution of nonapproval of the management decision or action, then the management decision or action shall be promptly terminated by the Secretary. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the management decision or action. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same management decision or action. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(3) Withdrawals made pursuant to section 204 of this Act may be used in carrying out management decisions, but public lands shall be removed from or restored to the operation of the Mining Law of 1872, as amended (R.S. 2318-2352; 30 U.S.C. 21 et seq.) or transferred to another department, bureau, or agency only by withdrawal action pursuant to section 204 or other action pursuant to applicable law: *Provided*, That nothing in this section shall prevent a wholly owned Government corporation from acquiring and holding rights as a citizen under the Mining Law of 1872.

(f) The Secretary shall allow an opportunity for public involvement and by regulation shall establish procedures, including public hearings where appropriate, to give Federal, State, and local governments and the public, adequate notice and opportunity to comment

upon and participate in the formulation of plans and programs relating to the management of the public lands.

SALES

43 USC 1713.

SEC. 203. (a) A tract of the public lands (except land in units of the National Wilderness Preservation System, National Wild and Scenic Rivers Systems, and National System of Trails) may be sold under this Act where, as a result of land use planning required under section 202 of this Act, the Secretary determines that the sale of such tract meets the following disposal criteria :

(1) such tract because of its location or other characteristics is difficult and uneconomic to manage as part of the public lands, and is not suitable for management by another Federal department or agency ; or

(2) such tract was acquired for a specific purpose and the tract is no longer required for that or any other Federal purpose ; or

(3) disposal of such tract will serve important public objectives, including but not limited to, expansion of communities and economic development, which cannot be achieved prudently or feasibly on land other than public land and which outweigh other public objectives and values, including, but not limited to, recreation and scenic values, which would be served by maintaining such tract in Federal ownership.

(b) Where the Secretary determines that land to be conveyed under clause (3) of subsection (a) of this section is of agricultural value and is desert in character, such land shall be conveyed either under the sale authority of this section or in accordance with other existing law.

Notice.

(c) Where a tract of the public lands in excess of two thousand five hundred acres has been designated for sale, such sale may be made only after the end of the ninety days (not counting days on which the House of Representatives or the Senate has adjourned for more than three consecutive days) beginning on the day the Secretary has submitted notice of such designation to the Senate and the House of Representatives, and then only if the Congress has not adopted a concurrent resolution stating that such House does not approve of such designation. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the designation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same designation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the

consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(d) Sales of public lands shall be made at a price not less than their fair market value as determined by the Secretary.

(e) The Secretary shall determine and establish the size of tracts of public lands to be sold on the basis of the land use capabilities and development requirements of the lands; and, where any such tract which is judged by the Secretary to be chiefly valuable for agriculture is sold, its size shall be no larger than necessary to support a family-sized farm.

(f) Sales of public lands under this section shall be conducted under competitive bidding procedures to be established by the Secretary. However, where the Secretary determines it necessary and proper in order (1) to assure equitable distribution among purchasers of lands, or (2) to recognize equitable considerations or public policies, including but not limited to, a preference to users, he may sell those lands with modified competitive bidding or without competitive bidding. In recognizing public policies, the Secretary shall give consideration to the following potential purchasers:

- (1) the State in which the land is located;
- (2) the local government entities in such State which are in the vicinity of the land;
- (3) adjoining landowners;
- (4) individuals; and
- (5) any other person.

(g) The Secretary shall accept or reject, in writing, any offer to purchase made through competitive bidding at his invitation no later than thirty days after the receipt of such offer or, in the case of a tract in excess of two thousand five hundred acres, at the end of thirty days after the end of the ninety-day period provided in subsection (c) of this section, whichever is later, unless the offeror waives his right to a decision within such thirty-day period. Prior to the expiration of such periods the Secretary may refuse to accept any offer or may withdraw any land or interest in land from sale under this section when he determines that consummation of the sale would not be consistent with this Act or other applicable law.

WITHDRAWALS

SEC. 204. (a) On and after the effective date of this Act the Secretary is authorized to make, modify, extend, or revoke withdrawals but only in accordance with the provisions and limitations of this section. The Secretary may delegate this withdrawal authority only to individuals in the Office of the Secretary who have been appointed by the President, by and with the advice and consent of the Senate.

43 USC 1714.

(b) (1) Within thirty days of receipt of an application for withdrawal, and whenever he proposes a withdrawal on his own motion, the Secretary shall publish a notice in the Federal Register stating that the application has been submitted for filing or the proposal has been made and the extent to which the land is to be segregated while the application is being considered by the Secretary. Upon publication of such notice the land shall be segregated from the operation of the public land laws to the extent specified in the notice. The segregative effect of the application shall terminate upon (a) rejection of the application by the Secretary, (b) withdrawal of lands by the Secre-

Application.

tary, or (c) the expiration of two years from the date of the notice.

(2) The publication provisions of this subsection are not applicable to withdrawals under subsection (e) hereof.

Notification
to Congress.

(c) (1) On and after the dates of approval of this Act a withdrawal aggregating five thousand acres or more may be made (or such a withdrawal or any other withdrawal involving in the aggregate five thousand acres or more which terminates after such date of approval may be extended) only for a period of not more than twenty years by the Secretary on his own motion or upon request by a department or agency head. The Secretary shall notify both Houses of Congress of such a withdrawal no later than its effective date and the withdrawal shall terminate and become ineffective at the end of ninety days (not counting days on which the Senate or the House of Representatives has adjourned for more than three consecutive days) beginning on the day notice of such withdrawal has been submitted to the Senate and the House of Representatives, if the Congress has adopted a concurrent resolution stating that such House does not approve the withdrawal. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the Presidential recommendation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same Presidential recommendation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(2) With the notices required by subsection (c) (1) of this section and within three months after filing the notice under subsection (e) of this section, the Secretary shall furnish to the committees—

(1) a clear explanation of the proposed use of the land involved which led to the withdrawal;

(2) an inventory and evaluation of the current natural resource uses and values of the site and adjacent public and nonpublic land and how it appears they will be affected by the proposed use, including particularly aspects of use that might cause degradation of the environment, and also the economic impact of the change in use on individuals, local communities, and the Nation;

(3) an identification of present users of the land involved, and how they will be affected by the proposed use;

(4) an analysis of the manner in which existing and potential resource uses are incompatible with or in conflict with the proposed use, together with a statement of the provisions to be made for continuation or termination of existing uses, including an economic analysis of such continuation or termination;

(5) an analysis of the manner in which such lands will be used in relation to the specific requirements for the proposed use;

(6) a statement as to whether any suitable alternative sites are available (including cost estimates) for the proposed use or for uses such a withdrawal would displace;

(7) a statement of the consultation which has been or will be had with other Federal departments and agencies, with regional, State, and local government bodies, and with other appropriate individuals and groups;

(8) a statement indicating the effect of the proposed uses, if any, on State and local government interests and the regional economy;

(9) a statement of the expected length of time needed for the withdrawal;

(10) the time and place of hearings and of other public involvement concerning such withdrawal;

(11) the place where the records on the withdrawal can be examined by interested parties; and

(12) a report prepared by a qualified mining engineer, engineering geologist, or geologist which shall include but not be limited to information on: general geology, known mineral deposits, past and present mineral production, mining claims, mineral leases, evaluation of future mineral potential, present and potential market demands.

(d) A withdrawal aggregating less than five thousand acres may be made under this subsection by the Secretary on his own motion or upon request by a department or an agency head—

(1) for such period of time as he deems desirable for a resource use; or

(2) for a period of not more than twenty years for any other use, including but not limited to use for administrative sites, location of facilities, and other proprietary purposes; or

(3) for a period of not more than five years to preserve such tract for a specific use then under consideration by the Congress.

(e) When the Secretary determines, or when the Committee on Interior and Insular Affairs of either the House of Representatives or the Senate notifies the Secretary, that an emergency situation exists and that extraordinary measures must be taken to preserve values that would otherwise be lost, the Secretary notwithstanding the provisions of subsections (c) (1) and (d) of this section, shall immediately make a withdrawal and file notice of such emergency withdrawal with the Committees on Interior and Insular Affairs of the Senate and the House of Representatives. Such emergency withdrawal shall be effective when made but shall last only for a period not to exceed three years and may not be extended except under the provisions of subsection (c) (1) or (d), whichever is applicable, and (b) (1) of this section. The information required in subsection (c) (2) of this subsection shall be furnished the committees within three months after filing such notice.

(f) All withdrawals and extensions thereof, whether made prior to or after approval of this Act, having a specific period shall be reviewed by the Secretary toward the end of the withdrawal period and may be extended or further extended only upon compliance with the provisions of subsection (c) (1) or (d), whichever is applicable, and only if the Secretary determines that the purpose for which the withdrawal was first made requires the extension, and then only for a period no longer than the length of the original withdrawal period. The Secretary shall report on such review and extensions to the Committees on Interior and Insular Affairs of the House of Representatives and the Senate.

Report to
congressional
committees.

(g) All applications for withdrawal pending on the date of approval of this Act shall be processed and adjudicated to conclusion within fifteen years of the date of approval of this Act, in accordance with the provisions of this section. The segregative effect of any application not so processed shall terminate on that date.

Hearing.

(h) All new withdrawals made by the Secretary under this section (except an emergency withdrawal made under subsection (e) of this section) shall be promulgated after an opportunity for a public hearing.

(i) In the case of lands under the administration of any department or agency other than the Department of the Interior, the Secretary shall make, modify, and revoke withdrawals only with the consent of the head of the department or agency concerned, except when the provisions of subsection (e) of this section apply.

(j) The Secretary shall not make, modify, or revoke any withdrawal created by Act of Congress; make a withdrawal which can be made only by Act of Congress; modify or revoke any withdrawal creating national monuments under the Act of June 8, 1906 (34 Stat. 225; 16 U.S.C. 431-433); or modify, or revoke any withdrawal which added lands to the National Wildlife Refuge System prior to the date of approval of this Act or which thereafter adds lands to that System under the terms of this Act. Nothing in this Act is intended to modify or change any provision of the Act of February 27, 1976 (90 Stat. 199; 16 U.S.C. 668dd(a)).

Appropriation
authorization.

(k) There is hereby authorized to be appropriated the sum of \$10,000,000 for the purpose of processing withdrawal applications pending on the effective date of this Act, to be available until expended.

(l) (1) The Secretary shall, within fifteen years of the date of enactment of this Act, review withdrawals existing on the date of approval of this Act, in the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming of (1) all Federal lands other than withdrawals of the public lands administered by the Bureau of Land Management and of lands which, on the date of approval of this Act, were part of Indian reservations and other Indian holdings, the National Forest System, the National Park System, the National Wildlife Refuge System, other lands administered by the Fish and Wildlife Service or the Secretary through the Fish and Wildlife Service, the National Wild and Scenic Rivers System, and the National System of Trails; and (2) all public lands administered by the Bureau of Land Management and of lands in the National Forest System (except those in wilderness areas, and those areas formally identified as primitive or natural areas or designated as national recreation areas) which closed the lands to appropriation under the Mining Law of 1872 (17 Stat. 91, as amended; 30 U.S.C. 22 et seq.) or to leasing under the Mineral Leasing Act of 1920 (41 Stat. 437, as amended; 30 U.S.C. 181 et seq.).

(2) In the review required by paragraph (1) of this subsection, the Secretary shall determine whether, and for how long, the continuation of the existing withdrawal of the lands would be, in his judgment, consistent with the statutory objectives of the programs for which the lands were dedicated and of the other relevant programs. The Secretary shall report his recommendations to the President, together with statements of concurrence or nonconcurrence submitted by the heads of the departments or agencies which administer the lands. The President shall transmit this report to the President of the Senate and the Speaker of the House of Representatives, together with his recommendations for action by the Secretary, or for legislation. to Congress.

Secretary may act to terminate withdrawals other than those made by Act of the Congress in accordance with the recommendations of the President unless before the end of ninety days (not counting days on which the Senate and the House of Representatives has adjourned for more than three consecutive days) beginning on the day the report of the President has been submitted to the Senate and the House of Representatives the Congress has adopted a concurrent resolution indicating otherwise. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the Presidential recommendation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same Presidential recommendation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(3) There are hereby authorized to be appropriated not more than \$10,000,000 for the purpose of paragraph (1) of this subsection to be available until expended to the Secretary and to the heads of other departments and agencies which will be involved.

ACQUISITIONS

SEC. 205. (a) Notwithstanding any other provisions of law, the Secretary, with respect to the public lands and the Secretary of Agriculture, with respect to the acquisition of access over non-Federal lands to units of the National Forest System, are authorized to acquire pursuant to this Act by purchase, exchange, donation, or eminent domain, lands or interests therein: *Provided*, That with respect to the public lands, the Secretary may exercise the power of eminent domain only if necessary to secure access to public lands, and then only if the lands so acquired are confined to as narrow a corridor as is necessary to serve such purpose. Nothing in this subsection shall be construed as expanding or limiting the authority of the Secretary of Agriculture to acquire land by eminent domain within the boundaries of units of the National Forest System.

43 USC 1715.

(b) Acquisitions pursuant to this section shall be consistent with the mission of the department involved and with applicable departmental land-use plans.

(c) Lands and interests in lands acquired by the Secretary pursuant to this section or section 206 shall, upon acceptance of title, become public lands, and, for the administration of public land laws not repealed by this Act, shall remain public lands. If such acquired lands

or interests in lands are located within the exterior boundaries of a grazing district established pursuant to the first section of the Act of June 28, 1934 (48 Stat. 1269, as amended; 43 U.S.C. 315) (commonly known as the "Taylor Grazing Act"), they shall become a part of that district. Lands and interests in lands acquired pursuant to this section which are within boundaries of the National Forest System may be transferred to the Secretary of Agriculture and shall then become National Forest System lands and subject to all the laws, rules, and regulations applicable thereto.

(d) Lands and interests in lands acquired by the Secretary of Agriculture pursuant to this section shall, upon acceptance of title, become National Forest System lands subject to all the laws, rules, and regulations applicable thereto.

EXCHANGES

43 USC 1716.

SEC. 206. (a) A tract of public land or interests therein may be disposed of by exchange by the Secretary under this Act and a tract of land or interests therein within the National Forest System may be disposed of by exchange by the Secretary of Agriculture under applicable law where the Secretary concerned determines that the public interest will be well served by making that exchange: *Provided*, That when considering public interest the Secretary concerned shall give full consideration to better Federal land management and the needs of State and local people, including needs for lands for the economy, community expansion, recreation areas, food, fiber, minerals, and fish and wildlife and the Secretary concerned finds that the values and the objectives which Federal lands or interests to be conveyed may serve if retained in Federal ownership are not more than the values of the non-Federal lands or interests and the public objectives they could serve if acquired.

Non-Federal
lands.

(b) In exercising the exchange authority granted by subsection (a) or by section 205(a) of this Act, the Secretary may accept title to any non-Federal land or interests therein in exchange for such land, or interests therein which he finds proper for transfer out of Federal ownership and which are located in the same State as the non-Federal land or interest to be acquired. For the purposes of this subsection, unsurveyed school sections which, upon survey by the Secretary, would become State lands, shall be considered as "non-Federal lands". The values of the lands exchanged by the Secretary under this Act and by the Secretary of Agriculture under applicable law relating to lands within the National Forest System either shall be equal, or if they are not equal, the values shall be equalized by the payment of money to the grantor or to the Secretary concerned as the circumstances require so long as payment does not exceed 25 per centum of the total value of the lands or interests transferred out of Federal ownership. The Secretary concerned shall try to reduce the amount of the payment of money to as small an amount as possible.

(c) Lands acquired by exchange under this section by the Secretary which are within the boundaries of the National Forest System may be transferred to the Secretary of Agriculture and shall then become National Forest System lands and subject to all the laws, rules, and regulations applicable to the National Forest System. Lands acquired by exchange by the Secretary under this section which are within the boundaries of National Park, Wildlife Refuge, Wild and Scenic Rivers, Trails, or any other System established by Act of Congress may be transferred to the appropriate agency head for administration as part of such System and in accordance with the laws, rules, and regulations applicable to such System.

QUALIFIED CONVEYEEES

SEC. 207. No tract of land may be disposed of under this Act, whether by sale, exchange, or donation, to any person who is not a citizen of the United States, or in the case of a corporation, is not subject to the laws of any State or of the United States. 43 USC 1717.

CONVEYANCES

SEC. 208. The Secretary shall issue all patents or other documents of conveyance after any disposal authorized by this Act. The Secretary shall insert in any such patent or other document of conveyance he issues, except in the case of land exchanges, for which the provisions of subsection 206(b) of this Act shall apply, such terms, covenants, conditions, and reservations as he deems necessary to insure proper land use and protection of the public interest: *Provided*, That a conveyance of lands by the Secretary, subject to such terms, covenants, conditions, and reservations, shall not exempt the grantee from compliance with applicable Federal or State law or State land use plans: *Provided further*, That the Secretary shall not make conveyances of public lands containing terms and conditions which would, at the time of the conveyance, constitute a violation of any law or regulation pursuant to State and local land use plans, or programs. 43 USC 1718.

RESERVATION AND CONVEYANCE OF MINERALS

SEC. 209. (a) All conveyances of title issued by the Secretary, except those involving land exchanges provided for in section 206, shall reserve to the United States all minerals in the lands, together with the right to prospect for, mine, and remove the minerals under applicable law and such regulations as the Secretary may prescribe, except that if the Secretary makes the findings specified in subsection (b) of this section, the minerals may then be conveyed together with the surface to the prospective surface owner as provided in subsection (b). 43 USC 1719.

(b)(1) The Secretary, after consultation with the appropriate department or agency head, may convey mineral interests owned by the United States where the surface is or will be in non-Federal ownership, regardless of which Federal entity may have administered the surface, if he finds (1) that there are no known mineral values in the land, or (2) that the reservation of the mineral rights in the United States is interfering with or precluding appropriate non-mineral development of the land and that such development is a more beneficial use of the land than mineral development.

(2) Conveyance of mineral interests pursuant to this section shall be made only to the existing or proposed record owner of the surface, upon payment of administrative costs and the fair market value of the interests being conveyed.

(3) Before considering an application for conveyance of mineral interests pursuant to this section—

(i) the Secretary shall require the deposit by the applicant of a sum of money which he deems sufficient to cover administrative costs including, but not limited to, costs of conducting an exploratory program to determine the character of the mineral deposits in the land, evaluating the data obtained under the exploratory program to determine the fair market value of the mineral interests to be conveyed, and preparing and issuing the documents of conveyance: *Provided*, That, if the administrative

Administrative costs.

costs exceed the deposit, the applicant shall pay the outstanding amount; and, if the deposit exceeds the administrative costs, the applicant shall be given a credit for or refund of the excess; or

(ii) the applicant, with the consent of the Secretary, shall have conducted, and submitted to the Secretary the results of, such an exploratory program, in accordance with standards promulgated by the Secretary.

(4) Moneys paid to the Secretary for administrative costs pursuant to this subsection shall be paid to the agency which rendered the service and deposited to the appropriation then current.

COORDINATION WITH STATE AND LOCAL GOVERNMENTS

Notification.
43 USC 1720.

SEC. 210. At least sixty days prior to offering for sale or otherwise conveying public lands under this Act, the Secretary shall notify the Governor of the State within which such lands are located and the head of the governing body of any political subdivision of the State having zoning or other land use regulatory jurisdiction in the geographical area within which such lands are located, in order to afford the appropriate body the opportunity to zone or otherwise regulate, or change or amend existing zoning or other regulations concerning the use of such lands prior to such conveyance. Any such island so surveyed shall not be conveyed without approval of such survey by the Secretary prior to the conveyance.

Any such conveyance shall not be made without a survey: *Provided,* That the prospective recipient may donate money or services to the Secretary for the surveying necessary prior to conveyance if the Secretary accepts such money or services, such services are conducted pursuant to criteria established by the Director of the Bureau of Land Management, and such survey is approved by the Secretary prior to the conveyance.

(2) The Secretary is authorized to convey to the occupant of any omitted lands which, after survey, are found to have been occupied and developed for a five-year period prior to January 1, 1975, if the

Secretary determines that such conveyance is in the public interest and will serve objectives which outweigh all public objectives and values which would be served by retaining such lands in Federal ownership. Conveyance under this subparagraph shall be made at not less than the fair market value of the land, as determined by the Secretary, and upon payment in addition of administrative costs, including the cost of making the survey, the cost of appraisal, and the cost of making the conveyance.

(c) (1) No conveyance shall be made pursuant to this section until the relevant State government, local government, and areawide planning agency designated pursuant to section 204 of the Demonstration Cities and Metropolitan Development Act of 1966 (80 Stat. 1255, 1262) and/or title IV of the Intergovernmental Cooperation Act of 1968 (82 Stat. 1098, 1103-4) have notified the Secretary as to the consistency of such conveyance with applicable State and local government land use plans and programs.

(f) The provisions of this section shall not apply to any lands within the National Forest System, defined in the Act of August 17, 1974 (88 Stat. 476; 16 U.S.C. 1601), the National Park System, the National Wildlife Refuge System, and the National Wild and Scenic Rivers System.

(g) Nothing in this section shall supersede the provisions of the Act of December 22, 1928 (45 Stat. 1069; 43 U.S.C. 1068), as amended, and the Act of May 31, 1962 (76 Stat. 89), or any other Act authorizing the sale of specific omitted lands.

(a) The second sentence of subsection (a) of the first section of that Act (43 U.S.C. 869(a)) is amended to read as follows: "Before the land may be disposed of under this Act it must be shown to the satisfaction of the Secretary that the land is to be used for an established or definitely proposed project, that the land involved is not of national significance nor more than is reasonably necessary for the proposed use, and that for proposals of over 640 acres comprehensive land use plans and zoning regulations applicable to the area in which the public lands to be disposed of are located have been adopted by the appropriate State or local authority. The Secretary shall provide an opportunity for participation by affected citizens in disposals under this Act, including public hearings or meetings where he deems it appropriate to provide public comments, and shall hold at least one public meeting on any proposed disposal of more than six hundred forty acres under this Act."

“(B) To any nonprofit corporation or nonprofit association, six hundred and forty acres.

“(C) No more than twenty-five thousand six hundred acres may be conveyed for recreational purposes under this Act in any one State per calendar year. Should any State or political subdivision, however, fail to secure, in any one year, six thousand four hundred acres, not counting lands for small roadside parks and rest sites, conveyances may be made thereafter if pursuant to an application on file with the Secretary of the Interior on or before the last day of said year and to the extent that the conveyance would not have exceeded the limitations of said year.”.

After public notice, and satisfactory showing of need therefor by any county, city, or other local governmental subdivision, the Secretary may offer such area for sale to a governmental subdivision at a price not less than the fair market value thereof: *Provided, however,* That the Secretary may condition conveyances of townsites upon the enactment, maintenance, and enforcement of a valid ordinance which assures any land so conveyed will be controlled by the governmental subdivision so that use of the area will not interfere with the protection, management, and development of adjacent or contiguous National Forest System lands.”

UNINTENTIONAL TRESPASS ACT

43 USC 1722.

SEC. 214. (a) Notwithstanding the provisions of the Act of September 26, 1968 (82 Stat. 870; 43 U.S.C. 1431-1435), hereinafter called

the "1968 Act", with respect to applications under the 1968 Act which were pending before the Secretary as of the effective date of this subsection and which he approves for sale under the criteria prescribed by the 1968 Act, he shall give the right of first refusal to those having a preference right under section 2 of the 1968 Act. The Secretary shall offer such lands to such preference right holders at their fair market value (exclusive of any values added to the land by such holders and their predecessors in interest) as determined by the Secretary as of September 26, 1973.

(b) Within three years after the date of approval of this Act, the Secretary shall notify the filers of applications subject to paragraph (a) of this section whether he will offer them the lands applied for and at what price; that is, their fair market value as of September 26, 1973, excluding any value added to the lands by the applicants or their predecessors in interest. With respect to such lands which the Secretary determined not to sell, he shall take no other action to convey those lands or interests in them before the end of ninety days (not counting days on which the House of Representatives or the Senate has adjourned for more than three consecutive days) beginning on the date the Secretary has submitted such notice to the Senate and House of Representatives. If, during that ninety-day period, the Congress adopts a concurrent resolution stating the length of time such suspension of action should continue, he shall continue such suspension for the specified time period. If the committee to which a resolution has been referred during the said ninety-day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the suspension of action. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same suspension of action. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

The owner of an unpatented lode or placer mining claim located after the date of this Act shall, prior to December 31 of each year following the calendar year in which the said claim was located, file the instruments required by paragraphs (1) and (2) of this subsection:

43 USC 1744.

(1) File for record in the office where the location notice or certificate is recorded either a notice of intention to hold the mining claim (including but not limited to such notices as are provided by law to be filed when there has been a suspension or deferment of annual assessment work), an affidavit of assessment work performed thereon, on a detailed report provided by the Act of September 2, 1958 (72 Stat. 1701; 30 U.S.C. 28-1), relating thereto.

(2) File in the office of the Bureau designated by the Secretary a copy of the official record of the instrument filed or recorded pursuant to paragraph (1) of this subsection, including a description of the location of the mining claim sufficient to locate the claimed lands on the ground.

(b) The owner of an unpatented lode or placer mining claim or mill or tunnel site located prior to the date of approval of this Act shall, within the three-year period following the date of approval of this Act, file in the office of the Bureau designated by the Secretary a copy of the official record of the notice of location or certificate of location, including a description of the location of the mining claim or mill or tunnel site sufficient to locate the claimed lands on the ground. The owner of an unpatented lode or placer mining claim or mill or tunnel site located after the date of approval of this Act shall, within ninety days after the date of location of such claim, file in the office of the Bureau designated by the Secretary a copy of the official record of the notice of location or certificate of location, including a description of the location of the mining claim or mill or tunnel site sufficient to locate the claimed lands on the ground.

(c) The failure to file such instruments as required by subsections (a) and (b) shall be deemed conclusively to constitute an abandonment of the mining claim or mill or tunnel site by the owner; but it shall not be considered a failure to file if the instrument is defective or not timely filed for record under other Federal laws permitting filing or recording thereof, or if the instrument is filed for record by or on behalf of some but not all of the owners of the mining claim or mill or tunnel site.

(d) Such recordation or application by itself shall not render valid any claim which would not be otherwise valid under applicable law. Nothing in this section shall be construed as a waiver of the assessment and other requirements of such law.

RECORDABLE DISCLAIMERS OF INTEREST IN LAND

43 USC 1745.

SEC. 315. (a) After consulting with any affected Federal agency, the Secretary is authorized to issue a document of disclaimer of interest or interests in any lands in any form suitable for recordation, where the disclaimer will help remove a cloud on the title of such lands and where he determines (1) a record interest of the United States in lands has terminated by operation of law or is otherwise invalid; or (2) the lands lying between the meander line shown on a plat of survey approved by the Bureau or its predecessors and the actual shoreline of a body of water are not lands of the United States; or (3) accreted, relicted, or avulsed lands are not lands of the United States.

(b) No document or disclaimer shall be issued pursuant to this section unless the applicant therefor has filed with the Secretary an application in writing and notice of such application setting forth the grounds supporting such application has been published in the Federal Register at least ninety days preceding the issuance of such disclaimer and until the applicant therefor has paid to the Secretary the administrative costs of issuing the disclaimer as determined by the Secretary. All receipts shall be deposited to the then-current appropriation from which expended.

(c) Issuance of a document of disclaimer by the Secretary pursuant to the provisions of this section and regulations promulgated hereunder shall have the same effect as a quit-claim deed from the United States.

SEC. 318. (a) There are hereby authorized to be appropriated such sums as are necessary to carry out the purposes and provisions of this Act, but no amounts shall be appropriated to carry out after October 1, 1978, any program, function, or activity of the Bureau under this or any other Act unless such sums are specifically authorized to be appropriated as of the date of approval of this Act or are authorized to be appropriated in accordance with the provisions of subsection (b) of this section.

(b) Consistent with section 607 of the Congressional Budget Act of 1974, beginning May 15, 1977, and not later than May 15 of each second even numbered year thereafter, the Secretary shall submit to the Speaker of the House of Representatives and the President of the Senate a request for the authorization of appropriations for all programs, functions, and activities of the Bureau to be carried out during the four-fiscal-year period beginning on October 1 of the calendar year following the calendar year in which such request is submitted. The Secretary shall include in his request, in addition to the information contained in his budget request and justification statement to the Office of Management and Budget, the funding levels which he determines can be efficiently and effectively utilized in the execution of his responsibilities for each such program, function, or activity, notwithstanding any budget guidelines or limitations imposed by any official or agency of the executive branch.

(c) Nothing in this section shall apply to the distribution of receipts of the Bureau from the disposal of lands, natural resources, and interests in lands in accordance with applicable law, nor to the use of contributed funds, private deposits for public survey work, and townsite trusteeships, nor to fund allocations from other Federal agencies, reimbursements from both Federal and non-Federal sources, and funds expended for emergency firefighting and rehabilitation.

TITLE IV—RANGE MANAGEMENT

GRAZING FEES

Study.
43 USC 1751.

Report to
Congress.

SEC. 401. (a) The Secretary of Agriculture and the Secretary of the Interior shall jointly cause to be conducted a study to determine the value of grazing on the lands under their jurisdiction in the eleven Western States with a view to establishing a fee to be charged for domestic livestock grazing on such lands which is equitable to the United States and to the holders of grazing permits and leases on such lands. In making such study, the Secretaries shall take into consideration the costs of production normally associated with domestic livestock grazing in the eleven Western States, differences in forage values, and such other factors as may relate to the reasonableness of such fees. The Secretaries shall report the result of such study to the Congress not later than one year from and after the date of approval of this Act, together with recommendations to implement a reasonable grazing fee schedule based upon such study. If the report required herein has not been submitted to the Congress within one year after the date of approval of this Act, the grazing fee charge then in effect shall not be altered and shall remain the same until such report has been submitted to the Congress. Neither Secretary shall increase the grazing fee in the 1977 grazing year.

(b)(1) Congress finds that a substantial amount of the Federal range lands is deteriorating in quality, and that installation of additional range improvements could arrest much of the continuing deterioration and could lead to substantial betterment of forage conditions with resulting benefits to wildlife, watershed protection, and livestock production. Congress therefore directs that 50 per centum

of all moneys received by the United States as fees for grazing domestic livestock on public lands (other than from ceded Indian lands) under the Taylor Grazing Act (48 Stat. 1269; 43 U.S.C. 315 et seq.) and the Act of August 28, 1937 (50 Stat. 874; 43 U.S.C. 1181d), and on lands in National Forests in the eleven contiguous Western States under the provisions of this section shall be credited to a separate account in the Treasury, one-half of which is authorized to be appropriated and made available for use in the district, region, or national forest from which such moneys were derived, as the respective Secretary may direct after consultation with district, regional, or national forest user representatives, for the purpose of on-the-ground range rehabilitation, protection, and improvements on such lands, and the remaining one-half shall be used for on-the-ground range rehabilitation, protection, and improvements as the Secretary concerned directs. Any funds so appropriated shall be in addition to any other appropriations made to the respective Secretary for planning and administration of the range betterment program and for other range management. Such rehabilitation, protection, and improvements shall include all forms of range land betterment including, but not limited to, seeding and reseedling, fence construction, weed control, water development, and fish and wildlife habitat enhancement as the respective Secretary may direct after consultation with user representatives. The annual distribution and use of range betterment funds authorized by this paragraph shall not be considered a major Federal action requiring a detailed statement pursuant to section 4332(c) of title 42 of the United States Code.

(2) The first clause of section 10(b) of the Taylor Grazing Act (48 Stat. 1269), as amended by the Act of August 6, 1947 (43 U.S.C. 315i), is hereby repealed. All distributions of moneys made under section 401(b)(1) of this Act shall be in addition to distributions made under section 10 of the Taylor Grazing Act and shall not apply to distribution of moneys made under section 11 of that Act. The remaining moneys received by the United States as fees for grazing domestic livestock on the public lands shall be deposited in the Treasury as miscellaneous receipts.

43 USC 1751.

43 USC 315j.

(3) Section 3 of the Taylor Grazing Act, as amended (43 U.S.C. 315), is further amended by—

43 USC 315b.

(a) Deleting the last clause of the first sentence thereof, which begins with “and in fixing,” deleting the comma after “time”, and adding to that first sentence the words “in accordance with governing law”.

(b) Deleting the second sentence thereof.

GRAZING LEASES AND PERMITS

Sec. 402. (a) Except as provided in subsection (b) of this section, permits and leases for domestic livestock grazing on public lands issued by the Secretary under the Act of June 28, 1934 (48 Stat. 1269, as amended; 43 U.S.C. 315 et seq.) or the Act of August 28, 1937 (50 Stat. 874, as amended; 43 U.S.C. 1181a–1181j), or by the Secretary of Agriculture, with respect to lands within National Forests in the eleven contiguous Western States, shall be for a term of ten years subject to such terms and conditions the Secretary concerned deems appropriate and consistent with the governing law, including, but not limited to, the authority of the Secretary concerned to cancel, suspend, or modify a grazing permit or lease, in whole or in part, pursuant to the terms and conditions thereof, or to cancel or suspend a grazing permit or

43 USC 1752.

lease for any violation of a grazing regulation or of any term or condition of such grazing permit or lease.

(b) Permits or leases may be issued by the Secretary concerned for a period shorter than ten years where the Secretary concerned determines that—

(1) the land is pending disposal; or

(2) the land will be devoted to a public purpose prior to the end of ten years; or

(3) it will be in the best interest of sound land management to specify a shorter term: *Provided*, That the absence from an allotment management plan of details the Secretary concerned would like to include but which are undeveloped shall not be the basis for establishing a term shorter than ten years.

(c) So long as (1) the lands for which the permit or lease is issued remain available for domestic livestock grazing in accordance with land use plans prepared pursuant to section 202 of this Act or section 5 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 477; 16 U.S.C. 1601), (2) the permittee or lessee is in compliance with the rules and regulations issued and the terms and conditions in the permit or lease specified by the Secretary concerned, and (3) the permittee or lessee accepts the terms and conditions to be included by the Secretary concerned in the new permit or lease, the holder of the expiring permit or lease shall be given first priority for receipt of the new permit or lease.

16 USC 1604.

(d) All permits and leases for domestic livestock grazing issued pursuant to this section, with the exceptions authorized in subsection (e) of this section, on and after October 1, 1988, may incorporate an allotment management plan developed by the Secretary concerned in consultation with the lessees or permittees involved. Prior to that date, allotment management plans shall be incorporated in grazing permits and leases when they are completed. The Secretary concerned may revise such plans from time to time after such consultation.

(e) Prior to October 1, 1988, or thereafter, in all cases where the Secretary concerned has not completed an allotment management plan or determines that an allotment management plan is not necessary for management of livestock operations and will not be prepared, the Secretary concerned shall incorporate in grazing permits and leases such terms and conditions as he deems appropriate for management of the permitted or leased lands pursuant to applicable law. The Secretary concerned shall also specify therein the numbers of animals to be grazed and the seasons of use and that he may reexamine the condition of the range at any time and, if he finds on reexamination that the condition of the range requires adjustment in the amount or other aspect of grazing use, that the permittee or lessee shall adjust his use to the extent the Secretary concerned deems necessary. Such readjustment shall be put into full force and effect on the date specified by the Secretary concerned.

(f) Allotment management plans shall not refer to livestock operations or range improvements on non-Federal lands except where the non-Federal lands are intermingled with, or, with the consent of the permittee or lessee involved, associated with, the Federal lands subject to the plan. The Secretary concerned under appropriate regulations shall grant to lessees and permittees the right of appeal from decisions which specify the terms and conditions of allotment management plans. The preceding sentence of this subsection shall not be construed as limiting any other right of appeal from decisions of such officials.

(g) Whenever a permit or lease for grazing domestic livestock is canceled in whole or in part, in order to devote the lands covered by

the permit or lease to another public purpose, including disposal, the permittee or lessee shall receive from the United States a reasonable compensation for the adjusted value, to be determined by the Secretary concerned, of his interest in authorized permanent improvements placed or constructed by the permittee or lessee on lands covered by such permit or lease, but not to exceed the fair market value of the terminated portion of the permittee's or lessee's interest therein. Except in cases of emergency, no permit or lease shall be canceled under this subsection without two years' prior notification.

(h) Nothing in this Act shall be construed as modifying in any way law existing on the date of approval of this Act with respect to the creation of right, title, interest or estate in or to public lands or lands in National Forests by issuance of grazing permits and leases.

GRAZING ADVISORY BOARDS

SEC. 403. (a) For each Bureau district office and National Forest headquarters office in the eleven contiguous Western States having jurisdiction over more than five hundred thousand acres of lands subject to commercial livestock grazing (hereinafter in this section referred to as "office"), the Secretary and the Secretary of Agriculture, upon the petition of a simple majority of the livestock lessees and permittees under the jurisdiction of such office, shall establish and maintain at least one grazing advisory board of not more than fifteen advisers. 43 USC 1753.

(b) The function of grazing advisory boards established pursuant to this section shall be to offer advice and make recommendations to the head of the office involved concerning the development of allotment management plans and the utilization of range-betterment funds.

(c) The number of advisers on each board and the number of years an adviser may serve shall be determined by the Secretary concerned in his discretion. Each board shall consist of livestock representatives who shall be lessees or permittees in the area administered by the office concerned and shall be chosen by the lessees and permittees in the area through an election prescribed by the Secretary concerned.

(d) Each grazing advisory board shall meet at least once annually.

(e) Except as may be otherwise provided by this section, the provisions of the Federal Advisory Committee Act (86 Stat. 770; 5 U.S.C. App. 1) shall apply to grazing advisory boards.

(f) The provisions of this section shall expire December 31, 1985.

MANAGEMENT OF CERTAIN HORSES AND BURROS

SEC. 404. Sections 9 and 10 of the Act of December 15, 1971 (85 Stat. 649, 651; 16 U.S.C. 1331, 1339-1340) are renumbered as sections 10 and 11, respectively, and the following new section is inserted after section 8:

"SEC. 9. In administering this Act, the Secretary may use or contract for the use of helicopters or, for the purpose of transporting captured animals, motor vehicles. Such use shall be undertaken only after a public hearing and under the direct supervision of the Secretary or of a duly authorized official or employee of the Department. The provisions of subsection (a) of the Act of September 8, 1959 (73 Stat. 470; 18 U.S.C. 47(a)) shall not be applicable to such use. Such use shall be in accordance with humane procedures prescribed by the Secretary." 16 USC 1338a.

AUTHORIZATION TO GRANT RIGHTS-OF-WAY

43 USC 1761.

SEC. 501. (a) The Secretary, with respect to the public lands and, the Secretary of Agriculture, with respect to lands within the National Forest System (except in each case land designated as wilderness), are authorized to grant, issue, or renew rights-of-way over, upon, under, or through such lands for—

(1) reservoirs, canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other facilities and systems for the impoundment, storage, transportation, or distribution of water;

(2) pipelines and other systems for the transportation or distribution of liquids and gases, other than water and other than oil, natural gas, synthetic liquid or gaseous fuels, or any refined product produced therefrom, and for storage and terminal facilities in connection therewith;

(3) pipelines, slurry and emulsion systems, and conveyor belts for transportation and distribution of solid materials, and facilities for the storage of such materials in connection therewith;

(4) systems for generation, transmission, and distribution of electric energy, except that the applicant shall also comply with all applicable requirements of the Federal Power Commission under the Federal Power Act of 1935 (49 Stat. 847; 16 U.S.C. 791);

(5) systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communication;

(6) roads, trails, highways, railroads, canals, tunnels, tramways, airways, livestock driveways, or other means of transportation except where such facilities are constructed and maintained in connection with commercial recreation facilities on lands in the National Forest System; or

(7) such other necessary transportation or other systems or facilities which are in the public interest and which require rights-of-way over, upon, under, or through such lands.

(b) (1) The Secretary concerned shall require, prior to granting, issuing, or renewing a right-of-way, that the applicant submit and disclose those plans, contracts, agreements, or other information reasonably related to the use, or intended use, of the right-of-way, including its effect on competition, which he deems necessary to a determination, in accordance with the provisions of this Act, as to whether a right-of-way shall be granted, issued, or renewed and the terms and conditions which should be included in the right-of-way.

(2) If the applicant is a partnership, corporation, association, or other business entity, the Secretary concerned, prior to granting a right-to-way pursuant to this title, shall require the applicant to disclose the identity of the participants in the entity, when he deems it necessary to a determination, in accordance with the provisions of this title, as to whether a right-of-way shall be granted, issued, or renewed and the terms and conditions which should be included in the right-of-way. Such disclosures shall include, where applicable: (A) the name and address of each partner; (B) the name and address of each shareholder owning 3 per centum or more of the shares, together with the number and percentage of any class of voting shares of the entity which such shareholder is authorized to vote; and (C) the name and address of each affiliate of the entity together with, in the case of an affiliate

COST-SHARE ROAD AUTHORIZATION

SEC. 502. (a) The Secretary, with respect to the public lands, is authorized to provide for the acquisition, construction, and maintenance of roads within and near the public lands in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management of such lands for utilization of the other resources thereof. Financing of such roads may be accomplished (1) by the Secretary utilizing appropriated funds, (2) by requirements on purchasers of timber and other products from the public lands, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public agencies and with private agencies or persons, or (4) by a combination of these methods: *Provided*, That, where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of timber and other products from public lands shall not, except when the provisions of the second proviso of this subsection apply, be required to bear that part of the costs necessary to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate: *Provided further*, That when timber is offered with the condition that the purchaser thereof will build a road or roads in accordance with standards specified in the offer, the purchaser of the timber will be responsible for paying the full costs of construction of such roads. 43 USC 1762.

Financing.

(b) Copies of all instruments affecting permanent interests in land executed pursuant to this section shall be recorded in each county where the lands are located.

(c) The Secretary may require the user or users of a road, trail, land, or other facility administered by him through the Bureau, including purchasers of Government timber and other products, to maintain such facilities in a satisfactory condition commensurate with the particular use requirements of each. Such maintenance to be borne by each user shall be proportionate to total use. The Secretary may also require the user or users of such a facility to reconstruct the same when such reconstruction is determined to be necessary to accommodate such use. If such maintenance or reconstruction cannot be so provided or if the Secretary determines that maintenance or reconstruction by a user would not be practical, then the Secretary may require that sufficient funds be deposited by the user to provide his portion of such total maintenance or reconstruction. Deposits made to cover the maintenance or reconstruction of roads are hereby made available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided*, That deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates: *And provided further*, That unexpended balances upon accomplishment of the purpose for which deposited shall be transferred to miscellaneous receipts or refunded. Maintenance.

(d) Whenever the agreement under which the United States has obtained for the use of, or in connection with, the public lands a right-

of-way or easement for a road or an existing road or the right to use an existing road provides for delayed payments to the Government's grantor, any fees or other collections received by the Secretary for the use of the road may be placed in a fund to be available for making payments to the grantor.

RIGHT-OF-WAY CORRIDORS

43 USC 1763.

SEC. 503. In order to minimize adverse environmental impacts and the proliferation of separate rights-of-way, the utilization of rights-of-way in common shall be required to the extent practical, and each right-of-way or permit shall reserve to the Secretary concerned the right to grant additional rights-of-way or permits for compatible uses on or adjacent to rights-of-way granted pursuant to this Act. In designating right-of-way corridors and in determining whether to require that rights-of-way be confined to them, the Secretary concerned shall take into consideration national and State land use policies, environmental quality, economic efficiency, national security, safety, and good engineering and technological practices. The Secretary concerned shall issue regulations containing the criteria and procedures he will use in designating such corridors. Any existing transportation and utility corridors may be designated as transportation and utility corridors pursuant to this subsection without further review.

Regulations.

GENERAL PROVISIONS

43 USC 1764.

SEC. 504. (a) The Secretary concerned shall specify the boundaries of each right-of-way as precisely as is practical. Each right-of-way shall be limited to the ground which the Secretary concerned determines (1) will be occupied by facilities which constitute the project for which the right-of-way is granted, issued, or renewed, (2) to be necessary for the operation or maintenance of the project, (3) to be necessary to protect the public safety, and (4) will do no unnecessary damage to the environment. The Secretary concerned may authorize the temporary use of such additional lands as he determines to be reasonably necessary for the construction, operation, maintenance, or termination of the project or a portion thereof, or for access thereto.

Limitation.

(b) Each right-of-way or permit granted, issued, or renewed pursuant to this section shall be limited to a reasonable term in light of all circumstances concerning the project. In determining the duration of a right-of-way the Secretary concerned shall, among other things, take into consideration the cost of the facility, its useful life, and any public purpose it serves. The right-of-way shall specify whether it is or is not renewable and the terms and conditions applicable to the renewal.

(c) Rights-of-way shall be granted, issued, or renewed pursuant to this title under such regulations or stipulations, consistent with the provisions of this title or any other applicable law, and shall also be subject to such terms and conditions as the Secretary concerned may prescribe regarding extent, duration, survey, location, construction, maintenance, transfer or assignment, and termination.

Right-of-way,
plan submittal.

(d) The Secretary concerned prior to granting or issuing a right-of-way pursuant to this title for a new project which may have a significant impact on the environment, shall require the applicant to submit a plan of construction, operation, and rehabilitation for such right-of-way which shall comply with stipulations or with regulations issued by that Secretary, including the terms and conditions required under section 505 of this Act.

(e) The Secretary concerned shall issue regulations with respect to the terms and conditions that will be included in rights-of-way pursuant to section 505 of this title. Such regulations shall be regularly revised as needed. Such regulations shall be applicable to every right-of-way granted or issued pursuant to this title and to any subsequent renewal thereof, and may be applicable to rights-of-way not granted or issued, but renewed pursuant to this title. Regulations.

(f) Mineral and vegetative materials, including timber, within or without a right-of-way, may be used or disposed of in connection with construction or other purposes only if authorization to remove or use such materials has been obtained pursuant to applicable laws.

(g) The holder of a right-of-way shall pay annually in advance the fair market value thereof as determined by the Secretary granting, issuing, or renewing such right-of-way: *Provided*, That when the annual rental is less than \$100, the Secretary concerned may require advance payment for more than one year at a time: *Provided further*, That the Secretary concerned may waive rentals where a Fair market value, annual payment.

a right-of-way is granted, issued, or renewed in reciprocation for a right-of-way conveyed to the United States in connection with a cooperative cost share program between the United States and the holder. The Secretary concerned may, by regulation or prior to promulgation of such regulations, as a condition of a right-of-way, require an applicant for or holder of a right-of-way to reimburse the United States for all reasonable administrative and other costs incurred in processing an application for such right-of-way and in inspection and monitoring of construction, operation, and termination of the facility pursuant to such right-of-way: *Provided, however*, That the Secretary concerned need not secure reimbursement in any situation where there is in existence a cooperative cost share right-of-way program between the United States and the holder of a right-of-way. Rights-of-way may be granted, issued, or renewed to a Federal, State, or local government or any agency or instrumentality thereof, to nonprofit associations or nonprofit corporations which are not themselves controlled or owned by profitmaking corporations or business enterprises, or to a holder where he provides without or at reduced charges a valuable benefit to the public or to the programs of the Secretary concerned, or to a holder in connection with the authorized use or occupancy of Federal land for which the United States is already receiving compensation for such lesser charge, including free use as the Secretary concerned finds equitable and in the public interest. Such rights-of-way issued at less than fair market value are not assignable except with the approval of the Secretary issuing the right-of-way. The moneys received for reimbursement of reasonable costs shall be deposited with the Treasury in a special account and are hereby authorized to be appropriated and made available until expended. Waiver. Reimbursement.

(h) (1) The Secretary concerned shall promulgate regulations specifying the extent to which holders of rights-of-way under this title shall be liable to the United States for damage or injury incurred by the United States caused by the use and occupancy of the rights-of-way. The regulations shall also specify the extent to which such holders shall indemnify or hold harmless the United States for liabilities, damages, or claims caused by their use and occupancy of the rights-of-way. Regulations.

(2) Any regulation or stipulation imposing liability without fault shall include a maximum limitation on damages commensurate with the foreseeable risks or hazards presented. Any liability for damage

or injury in excess of this amount shall be determined by ordinary rules of negligence.

(i) Where he deems it appropriate, the Secretary concerned may require a holder of a right-of-way to furnish a bond, or other security, satisfactory to him to secure all or any of the obligations imposed by the terms and conditions of the right-of-way or by any rule or regulation of the Secretary concerned.

(j) The Secretary concerned shall grant, issue, or renew a right-of-way under this title only when he is satisfied that the applicant has the technical and financial capability to construct the project for which the right-of-way is requested, and in accord with the requirements of this title.

TERMS AND CONDITIONS

43 USC 1765.

SEC. 505. Each right-of-way shall contain—

(a) terms and conditions which will (i) carry out the purposes of this Act and rules and regulations issued thereunder; (ii) minimize damage to scenic and esthetic values and fish and wildlife habitat and otherwise protect the environment; (iii) require compliance with applicable air and water quality standards established by or pursuant to applicable Federal or State law; and (iv) require compliance with State standards for public health and safety, environmental protection, and siting, construction, operation, and maintenance of or for rights-of-way for similar purposes if those standards are more stringent than applicable Federal standards; and

(b) such terms and conditions as the Secretary concerned deems necessary to (i) protect Federal property and economic interests; (ii) manage efficiently the lands which are subject to the right-of-way or adjacent thereto and protect the other lawful users of the lands adjacent to or traversed by such right-of-way; (iii) protect lives and property; (iv) protect the interests of individuals living in the general area traversed by the right-of-way who rely on the fish, wildlife, and other biotic resources of the area for subsistence purposes; (v) require location of the right-of-way along a route that will cause least damage to the environment, taking into consideration feasibility and other relevant factors; and (vi) otherwise protect the public interest in the lands traversed by the right-of-way or adjacent thereto.

SUSPENSION OR TERMINATION OF RIGHTS-OF-WAY

43 USC 1766.

SEC. 506. Abandonment of a right-of-way or noncompliance with any provision of this title, condition of the right-of-way, or applicable rule or regulation of the Secretary concerned may be grounds for suspension or termination of the right-of-way if, after due notice to the holder of the right-of-way and, and with respect to easements, an appropriate administrative proceeding pursuant to section 554 of title 5 of the United States Code, the Secretary concerned determines that any such ground exists and that suspension or termination is justified. No administrative proceeding shall be required where the right-of-way by its terms provides that it terminates on the occurrence of a fixed or agreed-upon condition, event, or time. If the Secretary concerned determines that an immediate temporary suspension of activities within a right-of-way for violation of its terms and conditions is necessary to protect public health or safety or the environment, he may abate such activities prior to an administrative proceeding. Prior to commencing any proceeding to suspend or terminate a right-of-way

Notice.

the Secretary concerned shall give written notice to the holder of the grounds for such action and shall give the holder a reasonable time to resume use of the right-of-way or to comply with this title, condition, rule, or regulation as the case may be. Failure of the holder of the right-of-way to use the right-of-way for the purpose for which it was granted, issued, or renewed, for any continuous five-year period, shall constitute a rebuttable presumption of abandonment of the right-of-way, except that where the failure of the holder to use the right-of-way for the purpose for which it was granted, issued, or renewed for any continuous five-year period is due to circumstances not within the holder's control, the Secretary concerned is not required to commence proceedings to suspend or terminate the right-of-way.

RIGHTS-OF-WAY FOR FEDERAL AGENCIES

SEC. 507. (a) The Secretary concerned may provide under applicable provisions of this title for the use of any department or agency of the United States a right-of-way over, upon, under or through the land administered by him, subject to such terms and conditions as he may impose. 43 USC 1767.

(b) Where a right-of-way has been reserved for the use of any department or agency of the United States, the Secretary shall take no action to terminate, or otherwise limit, that use without the consent of the head of such department or agency.

CONVEYANCE OF LANDS

SEC. 508. If under applicable law the Secretary concerned decides to transfer out of Federal ownership any lands covered in whole or in part by a right-of-way, including a right-of-way granted under the Act of November 16, 1973 (87 Stat. 576; 30 U.S.C. 185), the lands may be conveyed subject to the right-of-way; however, if the Secretary concerned determines that retention of Federal control over the right-of-way is necessary to assure that the purposes of this title will be carried out, the terms and conditions of the right-of-way complied with, or the lands protected, he shall (a) reserve to the United States that portion of the lands which lies within the boundaries of the right-of-way, or (b) convey the lands, including that portion within the boundaries of the right-of-way, subject to the right-of-way and reserving to the United States the right to enforce all or any of the terms and conditions of the right-of-way, including the right to renew it or extend it upon its termination and to collect rents. 43 USC 1768.

EXISTING RIGHTS-OF WAY

SEC. 509. (a) Nothing in this title shall have the effect of terminating any right-of-way or right-of-use heretofore issued, granted, or permitted. However, with the consent of the holder thereof, the Secretary concerned may cancel such a right-of-way or right-of-use and in its stead issue a right-of-way pursuant to the provisions of this title. 43 USC 1769.

Cancellation.

(b) When the Secretary concerned issues a right-of-way under this title for a railroad and appurtenant communication facilities in connection with a realignment of a railroad on lands under his jurisdiction by virtue of a right-of-way granted by the United States, he may, when he considers it to be in the public interest and the lands involved are not within an incorporated community and are of approximately equal value, notwithstanding the provisions of this title, provide in the new right-of-way the same terms and conditions as applied to the por-

tion of the existing right-of-way relinquished to the United States with respect to the payment of annual rental, duration of the right-of-way, and the nature of the interest in lands granted. The Secretary concerned or his delegate shall take final action upon all applications for the grant, issue, or renewal of rights-of-way under subsection (b) of this section no later than six months after receipt from the applicant of all information required from the applicant by this title.

EFFECT ON OTHER LAWS

43 USC 1770.

SEC. 510. (a) Effective on and after the date of approval of this Act, no right-of-way for the purposes listed in this title shall be granted, issued, or renewed over, upon, under, or through such lands except under and subject to the provisions, limitations, and conditions of this title: *Provided*, That nothing in this title shall be construed as affecting or modifying the provisions of the Act of October 13, 1964 (78 Stat. 1089; 16 U.S.C. 532-538) and in the event of conflict with, or inconsistency between, this title and the Act of October 13, 1964, the latter shall prevail: *Provided further*, That nothing in this Act should be construed as making it mandatory that, with respect to forest roads, the Secretary of Agriculture limit rights-of-way grants or their term of years or require disclosure pursuant to Section 501 (b) or impose any other condition contemplated by this Act that is contrary to present practices of that Secretary under the Act of October 13, 1964. Any pending application for a right-of-way under any other law on the effective date of this section shall be considered as an application under this title. The Secretary concerned may require the applicant to submit any additional information he deems necessary to comply with the requirements of this title.

(b) Nothing in this title shall be construed to preclude the use of lands covered by this title for highway purposes pursuant to sections 107 and 317 of title 23 of the United States Code.

(c) (1) Nothing in this title shall be construed as exempting any holder of a right-of-way issued under this title from any provision of the antitrust laws of the United States.

"Antitrust laws."

(2) For the purposes of this subsection, the term "antitrust laws" includes the Act of July 2, 1890 (26 Stat. 15 U.S.C. 1 et seq.); the Act of October 15, 1914 (38 Stat. 730, 15 U.S.C. 12 et seq.); the Federal Trade Commission Act (38 Stat. 717; 15 U.S.C. 41 et seq.); and sections 73 and 74 of the Act of August 27, 1894.

15 USC 8, 9.

COORDINATION OF APPLICATIONS

43 USC 1771.

SEC. 511. Applicants before Federal departments and agencies other than the Department of the Interior or Agriculture seeking a license, certificate, or other authority for a project which involve a right-of-way over, upon, under, or through public land or National Forest System lands must simultaneously apply to the Secretary concerned for the appropriate authority to use public lands or National Forest System lands and submit to the Secretary concerned all information furnished to the other Federal department or agency.

TITLE VI—DESIGNATED MANAGEMENT AREAS

CALIFORNIA DESERT CONSERVATION AREA

43 USC 1781.

SEC. 601. (a) The Congress finds that—

(1) the California desert contains historical, scenic, archeologi-

cal, environmental, biological, cultural, scientific, educational, recreational, and economic resources that are uniquely located adjacent to an area of large population;

(2) the California desert environment is a total ecosystem that is extremely fragile, easily scarred, and slowly healed;

(3) the California desert environment and its resources, including certain rare and endangered species of wildlife, plants, and fishes, and numerous archeological and historic sites, are seriously threatened by air pollution, inadequate Federal management authority, and pressures of increased use, particularly recreational use, which are certain to intensify because of the rapidly growing population of southern California;

(4) the use of all California desert resources can and should be provided for in a multiple use and sustained yield management plan to conserve these resources for future generations, and to provide present and future use and enjoyment, particularly outdoor recreation uses, including the use, where appropriate, of off-road recreational vehicles;

(5) the Secretary has initiated a comprehensive planning process and established an interim management program for the public lands in the California desert; and

(6) to insure further study of the relationship of man and the California desert environment, preserve the unique and irreplaceable resources, including archeological values, and conserve the use of the economic resources of the California desert, the public must be provided more opportunity to participate in such planning and management, and additional management authority must be provided to the Secretary to facilitate effective implementation of such planning and management.

(b) It is the purpose of this section to provide for the immediate and future protection and administration of the public lands in the California desert within the framework of a program of multiple use and sustained yield, and the maintenance of environmental quality.

(c) (1) For the purpose of this section, the term "California desert" means the area generally depicted on a map entitled "California Desert Conservation Area—Proposed" dated April 1974, and described as provided in subsection (c) (2).

"California desert."

(2) As soon as practicable after the date of approval of this Act, the Secretary shall file a revised map and a legal description of the California Desert Conservation Area with the Committees on Interior and Insular Affairs of the United States Senate and the House of Representatives, and such map and description shall have the same force and effect as if included in this Act. Correction of clerical and typographical errors in such legal description and a map may be made by the Secretary. To the extent practicable, the Secretary shall make such legal description and map available to the public promptly upon request.

Revised map filed with congressional committees.

(d) The Secretary, in accordance with section 202 of this Act, shall prepare and implement a comprehensive, long-range plan for the management, use, development, and protection of the public lands within the California Desert Conservation Area. Such plan shall take into account the principles of multiple use and sustained yield in providing for resource use and development, including, but not limited to, maintenance of environmental quality, rights-of-way, and mineral development. Such plan shall be completed and implementation thereof initiated on or before September 30, 1980.

Ante, p. 2747.

Interim
program.

(e) During the period beginning on the date of approval of this Act and ending on the effective date of implementation of the comprehensive, long-range plan, the Secretary shall execute an interim program to manage, use, and protect the public lands, and their resources now in danger of destruction, in the California Desert Conservation Area, to provide for the public use of such lands in an orderly and reasonable manner such as through the development of campgrounds and visitor centers, and to provide for a uniformed desert ranger force.

Mining claims.
Regulations.

(f) Subject to valid existing rights, nothing in this Act shall affect the applicability of the United States mining laws on the public lands within the California Desert Conservation Area, except that all mining claims located on public lands within the California Desert Conservation Area shall be subject to such reasonable regulations as the Secretary may prescribe to effectuate the purposes of this section. Any patent issued on any such mining claim shall recite this limitation and continue to be subject to such regulations. Such regulations shall provide for such measures as may be reasonable to protect the scenic, scientific, and environmental values of the public lands of the California Desert Conservation Area against undue impairment, and to assure against pollution of the streams and waters within the California Desert Conservation Area.

California Desert
Conservation
Area Advisory
Committee.
Establishment.

(g) (1) The Secretary, within sixty days after the date of approval of this Act, shall establish a California Desert Conservation Area Advisory Committee (hereinafter referred to as "advisory committee") in accordance with the provisions of section 309 of this Act.

(2) It shall be the function of the advisory committee to advise the Secretary with respect to the preparation and implementation of the comprehensive, long-range plan required under subsection (d) of this section.

Management.

(h) The Secretary of Agriculture and the Secretary of Defense shall manage lands within their respective jurisdictions located in or adjacent to the California Desert Conservation Area, in accordance with the laws relating to such lands and wherever practicable, in a manner consonant with the purpose of this section. The Secretary, the Secretary of Agriculture, and the Secretary of Defense are authorized and directed to consult among themselves and take cooperative actions to carry out the provisions of this subsection, including a program of law enforcement in accordance with applicable authorities to protect the archeological and other values of the California Desert Conservation Area and adjacent lands.

Consultation.

Report to
Congress.

(i) The Secretary shall report to the Congress no later than two years after the date of approval of this Act, and annually thereafter, on the progress in, and any problems concerning, the implementation of this section, together with any recommendations, which he may deem necessary, to remedy such problems.

Appropriation
authorization.

(j) There are authorized to be appropriated for fiscal years 1977 through 1981 not to exceed \$40,000,000 for the purpose of this section, such amount to remain available until expended.

KING RANGE

16 USC 460y-8.

SEC. 602. Section 9 of the Act of October 21, 1970 (84 Stat. 1067), is amended by adding a new subsection (c), as follows:

"(c) In addition to the lands described in subsection (a) of this section, the land identified as the Punta Gorda Addition and the Southern Additions on the map entitled 'King Range National Con-

servation Area Boundary Map No. 2, dated July 29, 1975, is included in the survey and investigation area referred to in the first section of this Act.”

BUREAU OF LAND MANAGEMENT WILDERNESS STUDY

SEC. 603. (a) Within fifteen years after the date of approval of this Act, the Secretary shall review those roadless areas of five thousand acres or more and roadless islands of the public lands, identified during the inventory required by section 201(a) of this Act as having wilderness characteristics described in the Wilderness Act of September 3, 1964 (78 Stat. 890; 16 U.S.C. 1131 et seq.) and shall from time to time report to the President his recommendation as to the suitability or nonsuitability of each such area or island for preservation as wilderness: *Provided*, That prior to any recommendations for the designation of an area as wilderness the Secretary shall cause mineral surveys to be conducted by the Geological Survey and the Bureau of Mines to determine the mineral values, if any, that may be present in such areas: *Provided further*, That the Secretary shall report to the President by July 1, 1980, his recommendations on those areas which the Secretary has prior to November 1, 1975, formally identified as natural or primitive areas. The review required by this subsection shall be conducted in accordance with the procedure specified in section 3(d) of the Wilderness Act.

Review;
report to
President.
43 USC 1782.

(b) The President shall advise the President of the Senate and the Speaker of the House of Representatives of his recommendations with respect to designation as wilderness of each such area, together with a map thereof and a definition of its boundaries. Such advice by the President shall be given within two years of the receipt of each report from the Secretary. A recommendation of the President for designation as wilderness shall become effective only if so provided by an Act of Congress.

Report to
President.

Recommendations
to President
of the Senate
and Speaker
of the House.

(c) During the period of review of such areas and until Congress has determined otherwise, the Secretary shall continue to manage such lands according to his authority under this Act and other applicable law in a manner so as not to impair the suitability of such areas for preservation as wilderness, subject, however, to the continuation of existing mining and grazing uses and mineral leasing in the manner and degree in which the same was being conducted on the date of approval of this Act: *Provided*, That, in managing the public lands the Secretary shall by regulation or otherwise take any action required to prevent unnecessary or undue degradation of the lands and their resources or to afford environmental protection. Unless previously withdrawn from appropriation under the mining laws, such lands shall continue to be subject to such appropriation during the period of review unless withdrawn by the Secretary under the procedures of section 204 of this Act for reasons other than preservation of their wilderness character. Once an area has been designated for preservation as wilderness, the provisions of the Wilderness Act which apply to national forest wilderness areas shall apply with respect to the administration and use of such designated area, including mineral surveys required by section 4(d)(2) of the Wilderness Act, and mineral development, access, exchange of lands, and ingress and egress for mining claimants and occupants.

"CONGRESSIONAL FINDINGS

42 USC 6901.

"SEC. 1002. (a) **SOLID WASTE.**—The Congress finds with respect to solid waste—

"(1) that the continuing technological progress and improvement in methods of manufacture, packaging, and marketing of consumer products has resulted in an ever-mounting increase, and in a change in the characteristics, of the mass material discarded by the purchaser of such products;

"(2) that the economic and population growth of our Nation, and the improvements in the standard of living enjoyed by our population, have required increased industrial production to meet

our needs, and have made necessary the demolition of old buildings, the construction of new buildings, and the provision of highways and other avenues of transportation, which, together with related industrial, commercial, and agricultural operations, have resulted in a rising tide of scrap, discarded, and waste materials;

“(3) that the continuing concentration of our population in expanding metropolitan and other urban areas has presented these communities with serious financial, management, intergovernmental, and technical problems in the disposal of solid wastes resulting from the industrial, commercial, domestic, and other activities carried on in such areas;

“(4) that while the collection and disposal of solid wastes should continue to be primarily the function of State, regional, and local agencies, the problems of waste disposal as set forth above have become a matter national in scope and in concern and necessitate Federal action through financial and technical assistance and leadership in the development, demonstration, and application of new and improved methods and processes to reduce the amount of waste and unsalvageable materials and to provide for proper and economical solid-waste disposal practices.

“(b) ENVIRONMENT AND HEALTH.—The Congress finds with respect to the environment and health, that—

“(1) although land is too valuable a national resource to be needlessly polluted by discarded materials, most solid waste is disposed of on land in open dumps and sanitary landfills;

“(2) disposal of solid waste and hazardous waste in or on the land without careful planning and management can present a danger to human health and the environment;

“(3) as a result of the Clean Air Act, the Water Pollution Control Act, and other Federal and State laws respecting public health and the environment, greater amounts of solid waste (in the form of sludge and other pollution treatment residues) have been created. Similarly, inadequate and environmentally unsound practices for the disposal or use of solid waste have created greater amounts of air and water pollution and other problems for the environment and for health;

“(4) open dumping is particularly harmful to health, contaminates drinking water from underground and surface supplies, and pollutes the air and the land;

“(5) hazardous waste presents, in addition to the problems associated with non-hazardous solid waste, special dangers to health and requires a greater degree of regulation than does non-hazardous solid waste; and

“(6) alternatives to existing methods of land disposal must be developed since many of the cities in the United States will be running out of suitable solid waste disposal sites within five years unless immediate action is taken;

“(c) MATERIALS.—The Congress finds with respect to materials, that—

“(1) millions of tons of recoverable material which could be used are needlessly buried each year;

“(2) methods are available to separate usable materials from solid waste; and

“(3) the recovery and conservation of such materials can reduce the dependence of the United States on foreign resources and reduce the deficit in its balance of payments.

42 USC 1857
note.

33 USC 1251
note.

“(d) **ENERGY.**—The Congress finds with respect to energy, that—

“(1) solid waste represents a potential source of solid fuel, oil, or gas that can be converted into energy;

“(2) the need exists to develop alternative energy sources for public and private consumption in order to reduce our dependence on such sources as petroleum products, natural gas, nuclear and hydroelectric generation; and

“(3) technology exists to produce usable energy from solid waste.

“OBJECTIVES

42 USC 6902.

“SEC. 1003. The objectives of this Act are to promote the protection of health and the environment and to conserve valuable material and energy resources by—

“(1) providing technical and financial assistance to State and local governments and interstate agencies for the development of solid waste management plans (including resource recovery and resource conservation systems) which will promote improved solid waste management techniques (including more effective organizational arrangements), new and improved methods of collection, separation, and recovery of solid waste, and the environmentally safe disposal of nonrecoverable residues;

“(2) providing training grants in occupations involving the design, operation, and maintenance of solid waste disposal systems;

“(3) prohibiting future open dumping on the land and requiring the conversion of existing open dumps to facilities which do not pose a danger to the environment or to health;

“(4) regulating the treatment, storage, transportation, and disposal of hazardous wastes which have adverse effects on health and the environment;

“(5) providing for the promulgation of guidelines for solid waste collection, transport, separation, recovery, and disposal practices and systems;

“(6) promoting a national research and development program for improved solid waste management and resource conservation techniques, more effective organizational arrangements, and new and improved methods of collection, separation, and recovery, and recycling of solid wastes and environmentally safe disposal of nonrecoverable residues;

“(7) promoting the demonstration, construction, and application of solid waste management, resource recovery, and resource conservation systems which preserve and enhance the quality of air, water, and land resources; and

“(8) establishing a cooperative effort among the Federal, State, and local governments and private enterprise in order to recover valuable materials and energy from solid waste.

"(b) IDENTIFICATION OF STATE AND LOCAL AGENCIES AND RESPONSIBILITIES.—(1) Within one hundred and eighty days after the Governor promulgates regulations under subsection (a), for purposes of facilitating the development and implementation of a State plan which will meet the minimum requirements of section 4003, the State, together with appropriate elected officials of general purpose units of local government, shall jointly (A) identify an agency to develop the State plan and identify one or more agencies to implement such plan, and (B) identify which solid waste functions will, under such State plan, be planned for and carried out by the State and which such functions will, under such State plan, be planned for and carried out by a regional or local authority or a combination of regional or local and State authorities. If a multi-functional regional agency authorized by State law to conduct solid waste planning and management (the members of which are appointed by the Governor) is in existence on the date of enactment of this Act, the Governor shall identify such authority for purposes of carrying out within such region clause (A) of this paragraph. Where feasible, designation of the agency for the affected area designated under section 208 of the Federal Water Pollution Control Act (86 Stat. 839) shall be considered. "(c) INTERSTATE REGIONS.—(1) In the case of any region which, pursuant to the guidelines published by the Administrator under section 4002(a) (relating to identification of regions), would be located in two or more States, the Governors of the respective States, after consultation with local elected officials, shall consult, cooperate, and enter into agreements identifying the boundaries of such region pursuant to subsection (a).

"(2) Within one hundred and eighty days after an interstate region is identified by agreement under paragraph (1), appropriate elected officials of general purpose units of local government within such region shall jointly establish or designate an agency to develop a plan for such region. If no such agency is established or designated within such period by such officials, the Governors of the respective States may, by agreement, establish or designate for such purpose a single

representative organization including elected officials of general purpose units of local government within such region.

“(3) Implementation of interstate regional solid waste management plans shall be conducted by units of local government for any portion of a region within their jurisdiction, or by multijurisdictional agencies or authorities designated in accordance with State law, including those designated by agreement by such units of local government for such purpose. If no such unit, agency, or authority is so designated, the respective Governors shall designate or establish a single interstate agency to implement such plan.

**"APPLICATION OF FEDERAL, STATE, AND LOCAL LAW TO
FEDERAL FACILITIES**

"SEC. 6001. Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government (1) having jurisdiction over any solid waste management facility or disposal site, or (2) engaged in any activity resulting, or which may result, in the disposal of solid waste or hazardous waste shall be subject to, and comply with, all Federal, State, interstate, and local requirements, both substantive and procedural (including any requirement for permits or reporting or any provisions for injunctive relief and such sanctions as may be imposed by a court to enforce such relief), respecting control and abatement of solid waste or hazardous waste disposal in the same manner, and to the same extent, as any person is subject to such requirements, including the payment of reasonable service charges. Neither the United States, nor any agent, employee, or officer thereof, shall be immune or exempt from any process or sanction of any State or Federal Court with respect to the enforcement of any such injunctive relief. The President may exempt any solid waste management facility of any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption. 42 USC 6961.

"(b) PROCUREMENT SUBJECT TO OTHER LAW.—Any procurement, by any procuring agency, which is subject to regulations of the Administrator under section 6004 (as promulgated before the date of enactment of this section under comparable provisions of prior law) shall not be subject to the requirements of this section to the extent that such requirements are inconsistent with such regulations.

"(c) REQUIREMENTS.—(1) (A) After two years after the date of enactment of this section, each procuring agency shall procure items composed of the highest percentage of recovered materials practicable consistent with maintaining a satisfactory level of competition. The decision not to procure such items shall be based on a determination that such procurement items—

"(i) are not reasonably available within a reasonable period of time;

"(ii) fail to meet the performance standards set forth in the applicable specifications or fail to meet the reasonable performance standards of the procuring agencies; or

"(iii) are only available at an unreasonable price. Any determination under clause (ii) shall be made on the basis of the guidelines of the Bureau of Standards in any case in which such material is covered by such guidelines.

"(B) Agencies that generate heat, mechanical, or electrical energy from fossil fuel in systems that have the technical capability of using recovered material and recovered-material-derived fuel as a primary or supplementary fuel shall use such capability to the maximum extent practicable.

"(C) Contracting officers shall require that vendors certify the percentage of the total material utilized for the performance of the contract which is recovered materials.

"(d) SPECIFICATIONS.—(1) All Federal agencies that have the responsibility for drafting or reviewing specifications for procurement item procured by Federal agencies shall, in reviewing those specifications, ascertain whether such specifications violate the prohibitions contained in subparagraphs (A) through (C) of paragraph (2). Such review shall be undertaken not later than eighteen months after the date of enactment of this section.

"(2) In drafting or revising such specifications, after the date of enactment of this section—

"(A) any exclusion of recovered materials shall be eliminated;

"(B) such specification shall not require the item to be manufactured from virgin materials; and

"(C) such specifications shall require reclaimed materials to the maximum extent possible without jeopardizing the intended end use of the item.

"(e) GUIDELINES.—The Administrator, after consultation with the Administrator of General Services, the Secretary of Commerce (acting through the Bureau of Standards), and the Public Printer, shall

prepare, and from time to time revise, guidelines for the use of procuring agencies in complying with the requirements of this section. 28 USC 1330.

“(a) The district courts shall have original jurisdiction without regard to amount in controversy of any nonjury civil action against a foreign state as defined in section 1603(a) of this title as to any claim for relief in personam with respect to which the foreign state is not entitled to immunity either under sections 1605-1607 of this title or under any applicable international agreement.

“(4) a foreign state, defined in section 1603(a) of this title, as plaintiff and citizens of a State or of different States.”.

SEC. 4. (a) That title 28, United States Code, is amended by inserting after chapter 95 the following new chapter:

“Chapter 97.—JURISDICTIONAL IMMUNITIES OF FOREIGN STATES

“Sec.

“1602. Findings and declaration of purpose.

“1603. Definitions.

“1604. Immunity of a foreign state from jurisdiction.

“1605. General exceptions to the jurisdictional immunity of a foreign state.

“1606. Extent of liability.

"1607. Counterclaims.

"1608. Service; time to answer default.

"1609. Immunity from attachment and execution of property of a foreign state.

"1610. Exceptions to the immunity from attachment or execution.

"1611. Certain types of property immune from execution.

28 USC 1602.

"§ 1602. Findings and declaration of purpose

"The Congress finds that the determination by United States courts of the claims of foreign states to immunity from the jurisdiction of such courts would serve the interests of justice and would protect the rights of both foreign states and litigants in United States courts. Under international law, states are not immune from the jurisdiction of foreign courts insofar as their commercial activities are concerned, and their commercial property may be levied upon for the satisfaction of judgments rendered against them in connection with their commercial activities. Claims of foreign states to immunity should henceforth be decided by courts of the United States and of the States in conformity with the principles set forth in this chapter.

28 USC 1603.

"§ 1603. Definitions

"For purposes of this chapter—

"(a) A 'foreign state', except as used in section 1608 of this title, includes a political subdivision of a foreign state or an agency or instrumentality of a foreign state as defined in subsection (b).

"(b) An 'agency or instrumentality of a foreign state' means any entity—

"(1) which is a separate legal person, corporate or otherwise, and

"(2) which is an organ of a foreign state or political subdivision thereof, or a majority of whose shares or other ownership interest is owned by a foreign state or political subdivision thereof, and

"(3) which is neither a citizen of a State of the United States as defined in section 1332 (c) and (d) of this title, nor created under the laws of any third country.

"(c) The 'United States' includes all territory and waters, continental or insular, subject to the jurisdiction of the United States.

"(d) A 'commercial activity' means either a regular course of commercial conduct or a particular commercial transaction or act. The commercial character of an activity shall be determined by reference to the nature of the course of conduct or particular transaction or act, rather than by reference to its purpose.

"(e) A 'commercial activity carried on in the United States by a foreign state' means commercial activity carried on by such state and having substantial contact with the United States.

28 USC 1604.

"§ 1604. Immunity of a foreign state from jurisdiction

"Subject to existing international agreements to which the United States is a party at the time of enactment of this Act a foreign state shall be immune from the jurisdiction of the courts of the United States and of the States except as provided in sections 1605 to 1607 of this chapter.

28 USC 1605.

"§ 1605. General exceptions to the jurisdictional immunity of a foreign state

"(a) A foreign state shall not be immune from the jurisdiction of courts of the United States or of the States in any case—

"(1) in which the foreign state has waived its immunity either explicitly or by implication, notwithstanding any withdrawal of

the waiver which the foreign state may purport to effect except in accordance with the terms of the waiver;

“(2) in which the action is based upon a commercial activity carried on in the United States by the foreign state; or upon an act performed in the United States in connection with a commercial activity of the foreign state elsewhere; or upon an act outside the territory of the United States in connection with a commercial activity of the foreign state elsewhere and that act causes a direct effect in the United States;

“(3) in which rights in property taken in violation of international law are in issue and that property or any property exchanged for such property is present in the United States in connection with a commercial activity carried on in the United States by the foreign state; or that property or any property exchanged for such property is owned or operated by an agency or instrumentality of the foreign state and that agency or instrumentality is engaged in a commercial activity in the United States;

“(4) in which rights in property in the United States acquired by succession or gift or rights in immovable property situated in the United States are in issue; or

“(5) not otherwise encompassed in paragraph (2) above, in which money damages are sought against a foreign state for personal injury or death, or damage to or loss of property, occurring in the United States and caused by the tortious act or omission of that foreign state or of any official or employee of that foreign state while acting within the scope of his office or employment; except this paragraph shall not apply to—

“(A) any claim based upon the exercise or performance or the failure to exercise or perform a discretionary function regardless of whether the discretion be abused, or

“(B) any claim arising out of malicious prosecution, abuse of process, libel, slander, misrepresentation, deceit, or interference with contract rights.

“(b) A foreign state shall not be immune from the jurisdiction of the courts of the United States in any case in which a suit in admiralty is brought to enforce a maritime lien against a vessel or cargo of the foreign state, which maritime lien is based upon a commercial activity of the foreign state: *Provided, That—*

Suit in admiralty.

“(1) notice of the suit is given by delivery of a copy of the summons and of the complaint to the person, or his agent, having possession of the vessel or cargo against which the maritime lien is asserted; but such notice shall not be deemed to have been delivered, nor may it thereafter be delivered, if the vessel or cargo is arrested pursuant to process obtained on behalf of the party bringing the suit—unless the party was unaware that the vessel or cargo of a foreign state was involved, in which event the service of process of arrest shall be deemed to constitute valid delivery of such notice; and

Notice.

“(2) notice to the foreign state of the commencement of suit as provided in section 1608 of this title is initiated within ten days either of the delivery of notice as provided in subsection (b) (1) of this section or, in the case of a party who was unaware that the vessel or cargo of a foreign state was involved, of the date such party determined the existence of the foreign state's interest.

Whenever notice is delivered under subsection (b) (1) of this section, the maritime lien shall thereafter be deemed to be an in personam

claim against the foreign state which at that time owns the vessel or cargo involved: *Provided*, That a court may not award judgment against the foreign state in an amount greater than the value of the vessel or cargo upon which the maritime lien arose, such value to be determined as of the time notice is served under subsection (b) (1) of this section.

28 USC 1606.

“§ 1606. Extent of liability

“As to any claim for relief with respect to which a foreign state is not entitled to immunity under section 1605 or 1607 of this chapter, the foreign state shall be liable in the same manner and to the same extent as a private individual under like circumstances; but a foreign state except for an agency or instrumentality thereof shall not be liable for punitive damages; if, however, in any case wherein death was caused, the law of the place where the action or omission occurred provides, or has been construed to provide, for damages only punitive in nature, the foreign state shall be liable for actual or compensatory damages measured by the pecuniary injuries resulting from such death which were incurred by the persons for whose benefit the action was brought.

28 USC 1607.

“§ 1607. Counterclaims

“In any action brought by a foreign state, or in which a foreign state intervenes, in a court of the United States or of a State, the foreign state shall not be accorded immunity with respect to any counterclaim—

“(a) for which a foreign state would not be entitled to immunity under section 1605 of this chapter had such claim been brought in a separate action against the foreign state; or

“(b) arising out of the transaction or occurrence that is the subject matter of the claim of the foreign state; or

“(c) to the extent that the counterclaim does not seek relief exceeding in amount or differing in kind from that sought by the foreign state.

28 USC 1608.

“§ 1608. Service; time to answer; default

“(a) Service in the courts of the United States and of the States shall be made upon a foreign state or political subdivision of a foreign state:

“(1) by delivery of a copy of the summons and complaint in accordance with any special arrangement for service between the plaintiff and the foreign state or political subdivision; or

“(2) if no special arrangement exists, by delivery of a copy of the summons and complaint in accordance with an applicable international convention on service of judicial documents; or

“(3) if service cannot be made under paragraphs (1) or (2), by sending a copy of the summons and complaint and a notice of suit, together with a translation of each into the official language of the foreign state, by any form of mail requiring a signed receipt, to be addressed and dispatched by the clerk of the court to the head of the ministry of foreign affairs of the foreign state concerned, or

“(4) if service cannot be made within 30 days under paragraph (3), by sending two copies of the summons and complaint and a notice of suit, together with a translation of each into the official language of the foreign state, by any form of mail requiring a signed receipt, to be addressed and dispatched by the clerk of the court to the Secretary of State in Washington, District of

Columbia, to the attention of the Director of Special Consular Services—and the Secretary shall transmit one copy of the papers through diplomatic channels to the foreign state and shall send to the clerk of the court a certified copy of the diplomatic note indicating when the papers were transmitted.

As used in this subsection, a 'notice of suit' shall mean a notice addressed to a foreign state and in a form prescribed by the Secretary of State by regulation.

"Notice of suit."

"(b) Service in the courts of the United States and of the States shall be made upon an agency or instrumentality of a foreign state:

"(1) by delivery of a copy of the summons and complaint in accordance with any special arrangement for service between the plaintiff and the agency or instrumentality; or

"(2) if no special arrangement exists, by delivery of a copy of the summons and complaint either to an officer, a managing or general agent, or to any other agent authorized by appointment or by law to receive service of process in the United States; or in accordance with an applicable international convention on service of judicial documents; or

"(3) if service cannot be made under paragraphs (1) or (2), and if reasonably calculated to give actual notice, by delivery of a copy of the summons and complaint, together with a translation of each into the official language of the foreign state—

"(A) as directed by an authority of the foreign state or political subdivision in response to a letter rogatory or request or

"(B) by any form of mail requiring a signed receipt, to be addressed and dispatched by the clerk of the court to the agency or instrumentality to be served, or

"(C) as directed by order of the court consistent with the law of the place where service is to be made.

"(c) Service shall be deemed to have been made—

"(1) in the case of service under subsection (a) (4), as of the date of transmittal indicated in the certified copy of the diplomatic note; and

"(2) in any other case under this section, as of the date of receipt indicated in the certification, signed and returned postal receipt, or other proof of service applicable to the method of service employed.

"(d) In any action brought in a court of the United States or of a State, a foreign state, a political subdivision thereof, or an agency or instrumentality of a foreign state shall serve an answer or other responsive pleading to the complaint within sixty days after service has been made under this section.

"(e) No judgment by default shall be entered by a court of the United States or of a State against a foreign state, a political subdivision thereof, or an agency or instrumentality of a foreign state, unless the claimant establishes his claim or right to relief by evidence satisfactory to the court. A copy of any such default judgment shall be sent to the foreign state or political subdivision in the manner prescribed for service in this section.

28 USC 1610.

“§ 1610. Exceptions to the immunity from attachment or execution

“(a) The property in the United States of a foreign state, as defined in section 1603(a) of this chapter, used for a commercial activity in the United States, shall not be immune from attachment in aid of execution, or from execution, upon a judgment entered by a court of the United States or of a State after the effective date of this Act, if—

“(1) the foreign state has waived its immunity from attachment in aid of execution or from execution either explicitly or by implication, notwithstanding any withdrawal of the waiver the foreign state may purport to effect except in accordance with the terms of the waiver, or

An Act

To expedite a decision on the delivery of Alaska natural gas to United States markets, and for other purposes.

Oct. 22, 1976
[S. 3521]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Alaska Natural
Gas
Transportation
Act of 1976.
15 USC 719 note.

SHORT TITLE

SECTION 1. This Act may be cited as the "Alaska Natural Gas Transportation Act of 1976".

CONGRESSIONAL FINDINGS

SEC. 2. The Congress finds and declares that—

15 USC 719.

(1) a natural gas supply shortage exists in the contiguous States of the United States;

(2) large reserves of natural gas in the State of Alaska could help significantly to alleviate this supply shortage;

(3) the expeditious construction of a viable natural gas transportation system for delivery of Alaska natural gas to United States markets is in the national interest; and

(4) the determinations whether to authorize a transportation system for delivery of Alaska natural gas to the contiguous States and, if so, which system to select, involve questions of the utmost importance respecting national energy policy, international relations, national security, and economic and environmental impact, and therefore should appropriately be addressed by the Congress and the President in addition to those Federal officers and agencies assigned functions under law pertaining to the selection, construction, and initial operation of such a system.

STATEMENT OF PURPOSE

SEC. 3. The purpose of this Act is to provide the means for making a sound decision as to the selection of a transportation system for delivery of Alaska natural gas to the contiguous States for construction and initial operation by providing for the participation of the President and the Congress in the selection process, and, if such a system is approved under this Act, to expedite its construction and initial operation by (1) limiting the jurisdiction of the courts to review the actions of Federal officers or agencies taken pursuant to the direction and authority of this Act, and (2) permitting the limitation of administrative procedures and effecting the limitation of judicial procedures related to such actions. To accomplish this purpose it is the intent of the Congress to exercise its constitutional powers to the fullest extent in the authorizations and directions herein made, and particularly with respect to the limitation of judicial review of actions of Federal officers or agencies taken pursuant thereto.

15 USC 719c.
15 USC 717w.

SEC. 5. (a) (1) Notwithstanding any provision of the Natural Gas Act or any other provision of law, the Commission shall suspend all proceedings pending before the Commission on the date of enactment of this Act relating to a system for the transportation of Alaska natural gas as soon as the Commission determines to be practicable after such date, and the Commission may refuse to act on any application, amendment thereto, or other requests for action under the Natural Gas Act relating to a system for the transportation of Alaska natural gas until such time as (A) a decision of the President designating such a system for approval takes effect pursuant to section 8, (B) no such decision takes effect pursuant to section 8, or (C) the President decides not to designate such a system for approval under section 8 and so advises the Congress pursuant to section 7.

(2) In the event a decision of the President designating such a system takes effect pursuant to this Act, the Commission shall forthwith vacate proceedings suspended under paragraph (1) and, pursuant to section 9 and in accordance with the President's decision, issue a certificate of public convenience and necessity respecting such system.

(3) In the event such a decision of the President does not take effect pursuant to this Act or the President decides not to designate such a system and so advises the Congress pursuant to section 7, the suspension provided for in paragraph (1) of this subsection shall be removed.

Recommendation,
submittal
to President.

(b) (1) The Commission shall review all applications for the issuance of a certificate of public convenience and necessity relating to the transportation of Alaska natural gas pending on the date of enactment of this Act, and any amendments thereto which are timely made, and after consideration of any alternative transportation system which the Commission determines to be reasonable, submit to the President not later than May 1, 1977, a recommendation concerning the selection of such a transportation system. Such recommendation may be in the form of a proposed certificate of public convenience and necessity, or in such other form as the Commission determines to be appropriate, or may recommend that no decision respecting the selection of such a transportation system be made at this time or pursuant to this Act. Any recommendation that the President approve a particular transportation system shall (A) include a description of the nature and route of the system, (B) designate

a person to construct and operate the system, which person shall be the applicant, if any, which filed for a certificate of public convenience and necessity to construct and operate such system, (C) if such recommendation is for an all-land pipeline transportation system, or a transportation system involving water transportation, include provision for new facilities to the extent necessary to assure direct pipeline delivery of Alaska natural gas contemporaneously to points both east and west of the Rocky Mountains in the lower continental United States.

(2) The Commission may, by rule, provide for the presentation of data, views, and arguments before the Commission or a delegate of the Commission pursuant to such procedures as the Commission determines to be appropriate to carry out its responsibilities under paragraph (1) of this subsection. Such a rule shall, to the extent determined by the Commission, apply, notwithstanding any provision of law that would otherwise have applied to the presentation of data, views, and arguments.

Rule.

(3) The Commission may request such information and assistance from any Federal agency as the Commission determines to be necessary or appropriate to carry out its responsibilities under this Act. Any Federal agency requested to submit information or provide assistance shall submit such information to the Commission at the earliest practicable time after receipt of a Commission request.

Cooperation.

(c) The Commission shall accompany any recommendation under subsection (b) (1) with a report, which shall be available to the public, explaining the basis for such recommendation and including for each transportation system reviewed or considered a discussion of the following:

Report, public availability.

(1) for each year of the 20-year period which begins with the first year following the date of enactment of this Act, the estimated—

(A) volumes of Alaska natural gas which would be available to each region of the United States directly, or indirectly by displacement or otherwise, and

(B) transportation costs and delivered prices of any such volumes of gas by region;

(2) the effects of each of the factors described in subparagraphs (A) and (B) of paragraph (1) on the projected natural gas supply and demand for each region of the United States and on the projected supplies of alternative fuels available by region to offset shortages of natural gas occurring in such region for each such year;

(3) the impact upon competition;

(4) the extent to which the system provides a means for the transportation to United States markets of natural resources or other commodities from sources in addition to the Prudhoe Bay Reserve;

(5) environmental impacts;

(6) safety and efficiency in design and operation and potential for interruption in deliveries of Alaska natural gas;

(7) construction schedules and possibilities for delay in such schedules or for delay occurring as a result of other factors;

(8) feasibility of financing;

(9) extent of reserves, both proven and probable and their deliverability by year for each year of the 20-year period which

begins with the first year following the date of enactment of this Act;

(10) the estimate of the total delivered cost to users of the natural gas to be transported by the system by year for each year of the 20-year period which begins with the first year following the date of enactment of this Act;

(11) capability and cost of expanding the system to transport additional volumes of natural gas in excess of initial system capacity;

(12) an estimate of the capital and operating costs, including an analysis of the reliability of such estimates and the risk of cost overruns; and

(13) such other factors as the Commission determines to be appropriate.

(d) The recommendation by the Commission pursuant to this section shall not be based upon the fact that the Government of Canada or agencies thereof have not, by then rendered a decision as to authorization of a pipeline system to transport Alaska natural gas through Canada.

(e) If the Commission recommends the approval of a particular transportation system, it shall submit to the President with such recommendation (1) an identification of those facilities and operations which are proposed to be encompassed within the term "construction and initial operation" in order to define the scope of directions contained in section 9 of this Act and (2) the terms and conditions permitted under the Natural Gas Act, which the Commission determines to be appropriate for inclusion in a certificate of public convenience and necessity to be issued respecting such system. The Commission shall submit to the President contemporaneously with its report an environmental impact statement prepared respecting the recommended system, if any, and each environmental impact statement which may have been prepared respecting any other system reported on under this section.

PRESIDENTIAL DECISION AND REPORT

SEC. 7. (a) (1) As soon as practicable after July 1, 1977, but not later than September 1, 1977, the President shall issue a decision as to whether a transportation system for delivery of Alaska natural gas should be approved under this Act. If he determines such a system should be so approved, his decision shall designate such a system for approval pursuant to section 8 and shall be consistent with section 5(b)(1)(C) to assure delivery of Alaska natural gas to points both east and west of the Rocky Mountains in the continental United States. The President in making his decision shall take into consideration the Commission's recommendation pursuant to section 5, the report under section 5(c), and any comments submitted under section 6; and his decision to designate a system for approval shall be based on his determination as to which system, if any, best serves the national interest.

15 USC 719e.

(2) The President, for a period of up to 90 additional calendar days after September 1, 1977, may delay the issuance of his decision and transmittal thereof to the House of Representatives and the Senate, if he determines (A) that there exists no environmental impact statement prepared relative to a system he wishes to consider or that any prepared environmental impact statement relative to a system he wishes to consider is legally or factually insufficient, or (B) that the additional time is otherwise necessary to enable him to make a sound decision on an Alaska natural gas transportation system. The President shall promptly, but in no case any later than September 1, 1977, notify the House of Representatives and the

Senate if he so delays his decision and submit a full explanation of the basis of any such delay.

(3) If, on or before May 1, 1977, the President determines to delay issuance and transmittal of his decision to the House of Representatives and the Senate pursuant to paragraph (2) of this subsection, he may authorize a delay of not more than 90 days in the date of taking of any action specified in sections 5 and 6. The President shall promptly notify the House of Representatives and the Senate of any such authorization of delay and submit a full explanation of the basis of any such authorization.

(4) If the President determines to designate for approval a transportation system for delivery of Alaska natural gas to the contiguous States, he shall in such decision—

(A) describe the nature and route of the system designated for approval;

(B) designate a person to construct and operate such a system, which person shall be the applicant, if any, which filed for a certificate of public convenience and necessity to construct and operate such system;

(C) identify those facilities, the construction of which, and those operations, the conduct of which, shall be encompassed within the term "construction and initial operation" for purposes of defining the scope of the directions contained in section 9 of this Act, taking into consideration any recommendation of the Commission with respect thereto; and

(D) identify those provisions of law, relating to any determination of a Federal officer or agency as to whether a certificate, permit, right-of-way, lease, or other authorization shall be issued or be granted, which provisions the President finds (i) involve determinations which are subsumed in his decision and (ii) require waiver pursuant to section 8(g) in order to permit the expeditious construction and initial operation of the transportation system.

(5) After a decision of the President designating an Alaska natural gas transportation system takes effect under section 8, the President shall appoint an officer of the United States, with the advice and consent of the Senate, or designate a board (consisting of such an officer, so appointed with the advice and consent of the Senate, as chairman and such other individuals as the President determines appropriate to serve on such board by reason of background, experience, or position) to serve as Federal inspector of construction of such transportation system, except that no such individual or officer may have a financial interest in the approved transportation system. Upon enactment of a joint resolution pursuant to section 8 approving such a system the Federal inspector shall—

(E) keep the President and the Congress currently informed on any significant departures from compliance and issue quarterly reports to the President and the Congress concerning existing or potential failures to meet construction schedules or other factors which may delay the construction and initial operation of the system and the extent to which quality of construction, cost control, safety and environmental protection objectives have been achieved.

(6) If the President determines to designate for approval a transportation system for delivery of Alaska natural gas to the contiguous States, he may identify in such decision such terms and conditions permissible under existing law as he determines appropriate for inclusion with respect to any issuance or authorization directed to be made pursuant to section 9.

(b) The decision of the President made pursuant to subsection (a) of this section shall be transmitted to both Houses of Congress and shall be considered received by such Houses for the purposes of this section on the first day on which both are in session occurring after such decision is transmitted. (d) In making his decision under subsection (a) the President shall inform himself, through appropriate consultation, of the views and objectives of the States, the Government of Canada, and other governments with respect to those aspects of such a decision that may involve intergovernmental and international cooperation among the Government of the United States, the States, the Government of Canada, and any other government.

(e) If the President determines to designate a transportation system for approval, the decision of the President shall take effect as provided in section 8, except that the approval of a decision of the President shall not be construed as amending or otherwise affecting the laws of the United States so as to grant any new financing authority as may have been identified by the President pursuant to subsection (c).

CONGRESSIONAL REVIEW

SEC. 8. (a) Any decision under section 7(a) or 8(b) designating for approval a transportation system for the delivery of Alaska natural gas shall take effect upon enactment of a joint resolution within the first period of 60 calendar days of continuous session of Congress beginning on the date after the date of receipt by the Senate and House of Representatives of a decision transmitted pursuant to section 7(b) or subsection (b) of this section.

15 USC 719f.

(b) If the Congress does not enact such a joint resolution within such 60-day period, the President, not later than the end of the 30th day following the expiration of the 60-day period, may propose a new decision and shall provide a detailed statement concerning the reasons for such proposal. The new decision shall be submitted in accordance with section 7(a) and transmitted to the House of Representatives and the Senate on the same day while both are in session and shall take effect pursuant to subsection (a) of this section. In the event that a resolution respecting the President's decision was defeated by vote of either House, no new decision may be transmitted pursuant to this subsection unless such decision differs in a material respect from the previous decision.

(c) For purposes of this section—

(1) continuity of session of Congress is broken only by an adjournment sine die; and

(2) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of the 60-day calendar period.

(d) (1) This subsection is enacted by Congress—

(A) as an exercise of the rulemaking power of each House of Congress, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by paragraph (2) of this subsection; and it supercedes other rules only to the extent that it is inconsistent therewith; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as those rules relate to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of such House.

“Resolution.”

(2) For purposes of this Act, the term “resolution” means (A) a joint resolution, the resolving clause of which is as follows: “That the House of Representatives and Senate approve the Presidential decision on an Alaska natural gas transportation system submitted to the Congress on _____, 19 , and find that any environmental impact statements prepared relative to such system and submitted with the President's decision are in compliance with the Natural Environmental Policy Act of 1969.”; the blank space therein shall be filled with the date on which the President submits his decision to the House of Representatives and the Senate; or (B) a joint resolution described in subsection (g).

42 USC 4321
note.

Referral to
congressional
committees.

(3) A resolution once introduced with respect to a Presidential decision on an Alaska natural gas transportation system shall be referred to one or more committees (and all resolutions with respect to the same Presidential decision on an Alaska natural gas transportation system shall be referred to the same committee or committees) by the President of the Senate or the Speaker of the House of Representatives, as the case may be.

(4) (A) If any committee to which a resolution with respect to a Presidential decision on an Alaska natural gas transportation system has been referred has not reported it at the end of 30 calendar days after its referral, it shall be in order to move either to discharge such committee from further consideration of such resolution or to discharge such committee from consideration of any other resolution with respect to such Presidential decision on an Alaska natural gas transportation system which has been referred to such committee.

(B) A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported a resolution with respect to the same Presidential decision on an Alaska natural gas transportation system), and debate thereon shall be limited to not more than 1 hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

Debate
limitation.

(C) If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same Presidential decision on an Alaska natural gas transportation system.

(5)(A) When any committee has reported, or has been discharged from further consideration of, a resolution, but in no case earlier than 30 days after the date of receipt of the President's decision to the Congress, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(B) Debate on the resolution described in subsection (d)(2)(A) shall be limited to not more than 10 hours and on any resolution described in subsection (g) to one hour. This time shall be divided equally between those favoring and those opposing such resolution. A motion further to limit debate shall not be debatable. (B) Appeals from the decision of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedures relating to a resolution shall be decided without debate.

(e) The President shall find that any required environmental impact statement relative to the Alaska natural gas transportation system designated for approval by the President has been prepared and that such statement is in compliance with the National Environmental Policy Act of 1969. Such finding shall be set forth in the report of the President submitted under section 7. The President may supplement or modify the environmental impact statements prepared by the Commission or other Federal officers or agencies. Any such environmental impact statement shall be submitted contemporaneously with the transmittal to the Senate and House of Representatives of the President's decision pursuant to section 7(b) or subsection (b) of this section.

The committees in each House of Congress to which a resolution has been referred under subsection (d)(3) shall conduct hearings on the Council's report and include in any report of the committee respecting such resolution the findings of the committee on the legal and factual sufficiency of any environmental impact statement submitted by the President relative to any system designated by him for approval.

(g)(1) At any time after a decision designating a transportation system is submitted to the Congress pursuant to this section, if the President finds that any provision of law applicable to actions to be taken under subsection (a) or (c) of section 9 require waiver in order to permit expeditious construction and initial operation of the approved transportation system, the President may submit such proposed waiver to both Houses of Congress.

(2) Such provision shall be waived with respect to actions to be taken under subsection (a) or (c) of section 9 upon enactment of a joint resolution pursuant to the procedures specified in subsections (c) and (d) of this section (other than subsection (d)(2) thereof) within the first period of 60 calendar days of continuous session of Congress beginning on the date after the date of receipt by the Senate and House of Representatives of such proposal.

SEC. 9. (a) To the extent that the taking of any action which is necessary or related to the construction and initial operation of the approved transportation system requires a certificate, right-of-way, permit, lease, or other authorization to be issued or granted by a Federal officer or agency, such Federal officer or agency shall—

(1) to the fullest extent permitted by the provisions of law administered by such officer or agency, but

Terms and conditions.

(d) Any Federal officer or agency, with respect to any certificate, permit, right-of-way, lease, or other authorization issued or granted by such officer or agency, may, to the extent permitted under laws administered by such officer or agency add to, amend or abrogate any term or condition included in such certificate, permit, right-of-way, lease, or other authorization except that with respect to any such action which is permitted but not required by law, such Federal officer or agency, notwithstanding any such other provision of law, shall have no authority to take such action if the terms and conditions to be added, or as amended, would compel a change in the basic nature and general route of the approved transportation system or would otherwise prevent or impair in any significant respect the expeditious construction and initial operation of such transportation system.

(e) Any Federal officer or agency to which subsection (a) applies, to the extent permitted under laws administered by such officer or agency, shall include in any certificate, permit, right-of-way, lease, or authorization issued or granted those terms and conditions identified in the President's decision as appropriate for inclusion except that the requirement to include such terms and conditions shall not limit the Federal officer or agency's authority under subsection (d) of this section.

Such court shall have exclusive jurisdiction to determine such proceeding in accordance with the procedures hereinafter provided, and no other court of the United States, of any State, territory, or possession of the United States, or of the District of Columbia, shall have jurisdiction of any such claim in any proceeding instituted prior to or on or after the date of enactment of this Act.

Demonstration
program.
33 USC 426k.

SEC. 166. (a) In order to alleviate water damage on the shoreline of Lake Michigan and others of the Great Lakes during periods of abnormally high water levels in the Great Lakes, and to improve the water quality of the Illinois Waterway, the Secretary of the Army, acting through the Chief of Engineers, is authorized to carry out a five-year demonstration program to temporarily increase the diversion of water from Lake Michigan at Chicago, Illinois, for the purpose of testing the practicability of increasing the average annual diversion from the present limit of three thousand two hundred cubic feet per second to ten thousand cubic feet per second. The demonstration program will increase the controllable diversion by various amounts calculated to raise the average annual diversion above three thousand two hundred cubic feet per second up to ten thousand cubic feet per second. The increase in diversion rate will be accomplished incrementally and will take into consideration the effects of such increase on the Illinois Waterway. The program will be developed by the Chief of Engineers in cooperation with the State of Illinois and the Metropolitan Sanitary District of Greater Chicago. The program will be implemented by the State of Illinois and the Metropolitan Sanitary District of Greater Chicago under the supervision of the Chief of Engineers.

Controllable
diversion rate.

(b) During the demonstration program a controllable diversion rate will be established for each month calculated to establish an annual average diversion from three thousand two hundred cubic feet per second to not more than ten thousand cubic feet per second. When the level of Lake Michigan is below its average level, the total

diversion for the succeeding accounting year shall not exceed three thousand two hundred cubic feet per second on an annual basis. The average level of Lake Michigan will be based upon the average monthly level for the period from 1900 to 1975.

(c) When river stages approach or are predicted to approach bank-full conditions at the established flood warning stations on the Illinois Waterway or the Mississippi River, or when further increased diversion of water from Lake Michigan would adversely affect water levels necessary for navigational requirements of the Saint Lawrence Seaway in its entirety throughout the Saint Lawrence River and Great Lakes-Saint Lawrence Seaway, water shall not be diverted directly from Lake Michigan at the Wilmette, O'Brien, or Chicago River control structures other than as necessary for navigational requirements.

Study and demonstration program.

(d) The Chief of Engineers shall conduct a study and a demonstration program to determine the effects of the increased diversion on the levels of the Great Lakes, on the water quality of the Illinois Waterway, and on the susceptibility of the Illinois Waterway to additional flooding. The study and demonstration program will also investigate any adverse or beneficial impacts which result from this section. The Chief of Engineers, at the end of five years after the enactment of this section, will submit to the Congress the results of this study and demonstration program including recommendations whether to continue this authority or to change the criteria stated in subsection (b) of this section.

Results, submittal to Congress.

(e) For purposes of this section, controllable diversion is defined as that diversion at Wilmette, O'Brien, and Chicago River control structures which is not attributable to leakage or which is not necessary for navigational requirements.

SEC. 167. (a) The Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to conduct a study of the most efficient methods of utilizing the hydroelectric power resources at water resource development projects under the jurisdiction of the Secretary of the Army and to prepare a plan based upon the findings of such study. Such study shall include, but not be limited to, an analysis of—

(3) the integration of hydroelectric power generation with generation from other types of generating facilities;

(4) measures necessary to assure that generation from hydroelectric projects will efficiently contribute to meeting the national electric energy demands;

(5) the timing of hydroelectric development to properly coincide with changes in the demand for electric energy;

(6) conventional hydroelectric potential, both high head and low head projects utilizing run-of-rivers and possible advances in mechanical technology, and pumped storage hydroelectric potential at sites which evidence such potential;

(7) the feasibility of adding or reallocating storage and modifying operation rules to increase power production at corps projects with existing hydroelectric installations;

(8) measures deemed necessary or desirable to insure that the potential contribution of hydroelectric resources to the overall electric energy supply are realized to the maximum extent possible; and

(9) any other pertinent factors necessary to evaluate the development and operation of hydroelectric projects of the Corps of Engineers.

(c) The Federal share of the cost of any project developed pursuant to subsection (b) of this section shall be two-thirds of the cost of the project. The remainder of such costs shall be paid by the State, municipality, or other political subdivision in which the project is to be located, except that any costs associated with the collections and removal of drift and debris from federally owned lands shall be borne by the Federal Government. Non-Federal interests in future project development under subsection (b) of this section shall be required to recover the full cost of drift or debris removal from any identified owner of piers or other potential sources of drift or debris, or to repair such sources so that they no longer create a potential source of drift or debris.

(2) The Congress therefore declares that the expertise of the Chief of Engineers can and should be utilized for the benefit of local public bodies in the development of projects which yield 90 per centum or more of the benefits of the project are attributable to hydroelectric power generation when the project is fully operational.
- Alaska (b) To meet the goals of this section, there is hereby established in the Treasury of the United States an Alaska Hydroelectric Power Development Fund (hereafter referred to as the “fund”) to be and remain available for use by the Secretary of the Army (hereinafter referred to as the “Secretary”) to make expenditures authorized by this section. The fund shall consist of (1) all receipts and collections by the Secretary of repayments in accordance with subsection (e) of this section and payments by non-Federal public authorities to the Secretary to finance the cost of construction of projects in accordance with subsection (f) of this section, and which the Secretary is hereby directed to deposit in the fund as they are received, and (2) any appropriations made by the Congress to the fund.

(2) With the approval of the Secretary of the Treasury, the Secretary may deposit moneys of the fund in any Federal Reserve bank or other depository for funds of the United States, or in such other banks and financial institutions and under such terms and conditions as the Secretary and the Secretary of the Treasury may mutually agree.
- (e) The Secretary is authorized to make expenditures from the fund for the phase I design memorandum stage of advanced engineering and design for any project in Alaska that meets the requirements of subsection (a) (2) of this section, if appropriate non-Federal public authorities, approved by the Secretary, agree with the Secretary, in writing, to repay the Secretary for all the separable and joint costs of preparing such design memorandum, if such report is favorable. Following the completion of the phase I design memorandum stage of advanced engineering and design under this subsection, the Secretary shall not transmit any favorable report to Congress prior to being repaid in full by the appropriate non-Federal public authorities for the costs incurred during such phase I. The Secretary is also author-

ized to make expenditures from non-Federal funds deposited in the fund as an advance against construction costs.

(f) In connection with water resources development projects which meet the criteria established by subsection (a) (2) of this section and which are to be constructed by the Secretary, acting through the Chief of Engineers, in accordance with an authorization by Congress and a contract between the non-Federal public authorities and the Secretary, pursuant to subsection (g) (1) of this section occurring on or subsequent to the date of enactment of this Act, the Secretary, acting through the Chief of Engineers, is authorized to construct such projects including activities for engineering and design land acquisition, site development, and off-site improvements necessary for the authorized construction by making expenditures from (1) the Fund established in subsection (b) of this section of funds deposited by non-Federal public authorities as payments for construction and (2) payments of non-Federal public authorities held by the Secretary as payment of construction costs for a project authorized by this section.

(g) (1) Prior to initiating any construction work under the authorities of this section, the Secretary and the appropriate non-Federal public authorities shall agree in writing, and submit such agreement to the Committees on Public Works and Appropriations of the Senate and House of Representatives for review and reporting to the Congress for its consideration and approval that the appropriate non-Federal public authorities will pay the full anticipated costs of constructing the project at the time such costs are incurred, together with normal contingencies and related administrative expenses of the Secretary, and such payments shall be deposited in the fund or held by the Secretary for payment of obligations incurred by the Secretary on an authorized project under this section. The agreement shall provide for an initial determination of feasibility and compliance by the project with law. The total non-Federal obligation shall be paid on or prior to the date the Chief of Engineers has estimated by agreement, that the project concerned will be available for actual generation of all or a substantial portion of the authorized hydroelectric power of the project.

(2) In consideration of the obligations to be assumed by non-Federal public authorities under the provisions of this section and in recognition of the substantial investments which will be made by these authorities in reliance on the program established by this section, the United States shall assume the responsibility for paying for all costs over those fixed in the agreement with the non-Federal public authorities, if such costs are occasioned by acts of God, failure on the part of the Secretary, acting through the Chief of Engineers, to adhere to the agreed schedule of work or a failure of design: *Provided*, That payments by the Secretary of such costs shall be subject to appropriations acts.

(h) The Secretary is authorized and directed, pursuant to the agreement, to convey all title, rights, and interests of the United States to any project, its lands and water areas, and appurtenant facilities to the non-Federal public authorities which have agreed to assume ownership of the project and responsibility for its performance, operation, and maintenance, as well as necessary replacements in accordance with this section upon full payment by such non-Federal public authorities as required under subsection (g) (1) of this section. An Act

To amend the Forest and Rangeland Renewable Resources Planning Act of 1974, and for other purposes.

Oct. 22, 1976
[S. 3091]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the “National Forest Management Act of 1976”.

National Forest
Management Act
of 1976.
16 USC 1600
note.

FINDINGS

SEC. 2. The Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 476; 16 U.S.C. 1601-1610) is amended by redesignating sections 2 through 11 as sections 3 through 12, respectively; and by adding a new section 2 as follows:

“SEC. 2. FINDINGS.—The Congress finds that—

16 USC 1600.

“(1) the management of the Nation’s renewable resources is highly complex and the uses, demand for, and supply of the various resources are subject to change over time;

“(2) the public interest is served by the Forest Service, Department of Agriculture, in cooperation with other agencies, assessing the Nation’s renewable resources, and developing and preparing a national renewable resource program, which is periodically reviewed and updated;

“(3) to serve the national interest, the renewable resource program must be based on a comprehensive assessment of present and anticipated uses, demand for, and supply of renewable resources from the Nation’s public and private forests and rangelands, through analysis of environmental and economic impacts, coordination of multiple use and sustained yield opportunities as provided in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C. 528-531), and public participation in the development of the program;

“(4) the new knowledge derived from coordinated public and private research programs will promote a sound technical and ecological base for effective management, use, and protection of the Nation’s renewable resources;

“(5) inasmuch as the majority of the Nation’s forests and rangeland is under private, State, and local governmental management and the Nation’s major capacity to produce goods and services is based on these nonfederally managed renewable resources, the Federal Government should be a catalyst to encourage and assist these owners in the efficient long-term use and improvement of these lands and their renewable resources consistent with the principles of sustained yield and multiple use;

“(6) the Forest Service, by virtue of its statutory authority for management of the National Forest System, research and cooperative programs, and its role as an agency in the Department of Agriculture, has both a responsibility and an opportunity to be a leader in assuring that the Nation maintains a natural resource conservation posture that will meet the requirements of our people in perpetuity; and

“(7) recycled timber product materials are as much a part of our renewable forest resources as are the trees from which they originally came, and in order to extend our timber and timber fiber resources and reduce pressures for timber production from Federal lands, the Forest Service should expand its research in the use of recycled and waste timber product materials, develop techniques for the substitution of these secondary materials for primary materials, and promote and encourage the use of recycled timber product materials.”

REPORTS ON FIBER POTENTIAL, WOOD UTILIZATION BY MILLS, WOOD WASTES
AND WOOD PRODUCT RECYCLING

16 USC 1601.

SEC. 3. Section 3 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as redesignated by section 2 of this Act, is amended by adding at the end thereof a new subsection (c) as follows:

“(c) The Secretary shall report in the 1979 and subsequent Assessments on:

“(1) the additional fiber potential in the National Forest System including, but not restricted to, forest mortality, growth, salvage potential, potential increased forest products sales, economic constraints, alternate markets, contract considerations, and other multiple use considerations;

“(2) the potential for increased utilization of forest and wood product wastes in the National Forest System and on other lands, and of urban wood wastes and wood product recycling, including recommendations to the Congress for actions which would lead to increased utilization of material now being wasted both in the forests and in manufactured products; and

“(3) the milling and other wood fiber product fabrication facilities and their location in the United States, noting the public and private forested areas that supply such facilities, assessing the degree of utilization into product form of harvested trees by such facilities, and setting forth the technology appropriate to the facilities to improve utilization either individually or in aggregate units of harvested trees and to reduce wasted wood fibers. The Secretary shall set forth a program to encourage the adoption by these facilities of these technologies for improving wood fiber utilization.

Program.

Public
involvement,
consultation.

“(d) In developing the reports required under subsection (c) of this section, the Secretary shall provide opportunity for public involvement and shall consult with other interested governmental departments and agencies.”

REFORESTATION

16 USC 1601.

SEC. 4. Section 3 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as redesignated by section 2 of this Act, is amended by adding at the end thereof new subsections (d) and (e) as follows:

“(d) (1) It is the policy of the Congress that all forested lands in the National Forest System shall be maintained in appropriate forest cover with species of trees, degree of stocking, rate of growth, and conditions of stand designed to secure the maximum benefits of multiple use sustained yield management in accordance with land management plans. Accordingly, the Secretary is directed to identify and report to the Congress annually at the time of submission of the President's budget together with the annual report provided for under section 8(c) of this Act, beginning with submission of the President's

Annual report to
Congress.

budget for fiscal year 1978, the amount and location by forests and States and by productivity class, where practicable, of all lands in the National Forest System where objectives of land management plans indicate the need to reforest areas that have been cut-over or otherwise denuded or deforested, and all lands with stands of trees that are not growing at their best potential rate of growth. All national forest lands treated from year to year shall be examined after the first and third growing seasons and certified by the Secretary in the report provided for under this subsection as to stocking rate, growth rate in relation to potential and other pertinent measures. Any lands not certified as satisfactory shall be returned to the backlog and scheduled for prompt treatment. The level and types of treatment shall be those which secure the most effective mix of multiple use benefits.

“(2) Notwithstanding the provisions of section 9 of this Act, the Secretary shall annually for eight years following the enactment of this subsection, transmit to the Congress in the manner provided in this subsection an estimate of the sums necessary to be appropriated, in addition to the funds available from other sources, to replant and otherwise treat an acreage equal to the acreage to be cut over that year, plus a sufficient portion of the backlog of lands found to be in need of treatment to eliminate the backlog within the eight-year period. After such eight-year period, the Secretary shall transmit annually to the Congress an estimate of the sums necessary to replant and otherwise treat all lands being cut over and maintain planned timber production on all other forested lands in the National Forest System so as to prevent the development of a backlog of needed work larger than the needed work at the beginning of the fiscal year. The Secretary’s estimate of sums necessary, in addition to the sums available under other authorities, for accomplishment of the reforestation and other treatment of National Forest System lands under this section shall be provided annually for inclusion in the President’s budget and shall also be transmitted to the Speaker of the House and the President of the Senate together with the annual report provided for under section 8(c) of this Act at the time of submission of the President’s budget to the Congress beginning with the budget for fiscal year 1978. The sums estimated as necessary for reforestation and other treatment shall include moneys needed to secure seed, grow seedlings, prepare sites, plant trees, thin, remove deleterious growth and underbrush, build fence to exclude livestock and adverse wildlife from regeneration areas and otherwise establish and improve growing forests to secure planned production of trees and other multiple use values.

end of paragraph (4) and inserting in lieu thereof a semicolon and the word "and"; and by adding a new paragraph (5) as follows:

"(5) Program recommendations which—

"(A) evaluate objectives for the major Forest Service programs in order that multiple-use and sustained-yield relationships among and within the renewable resources can be determined;

"(B) explain the opportunities for owners of forests and rangeland to participate in programs to improve and enhance the condition of the land and the renewable resource products therefrom;

"(C) recognize the fundamental need to protect and, where appropriate, improve the quality of soil, water, and air resources;

"(D) state national goals that recognize the interrelationships between and interdependence within the renewable resources; and

"(E) evaluate the impact of the export and import of raw logs upon domestic timber supplies and prices."

NATIONAL FOREST SYSTEM RESOURCE PLANNING

16 USC 1604. SEC. 6. Section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as redesignated by section 2 of this Act, is amended by adding at the end thereof new subsections (c) through (m) as follows:

Standards and
guidelines,
incorporation.

Report to
Congress.
Management.
Post, p. 2956.

Public
participation,
meetings.

Plans.

"(c) The Secretary shall begin to incorporate the standards and guidelines required by this section in plans for units of the National Forest System as soon as practicable after enactment of this subsection and shall attempt to complete such incorporation for all such units by no later than September 30, 1985. The Secretary shall report to the Congress on the progress of such incorporation in the annual report required by section 8(c) of this Act. Until such time as a unit of the National Forest System is managed under plans developed in accordance with this Act, the management of such unit may continue under existing land and resource management plans.

"(d) The Secretary shall provide for public participation in the development, review, and revision of land management plans including, but not limited to, making the plans or revisions available to the public at convenient locations in the vicinity of the affected unit for a period of at least three months before final adoption, during which period the Secretary shall publicize and hold public meetings or comparable processes at locations that foster public participation in the review of such plans or revisions.

"(e) In developing, maintaining, and revising plans for units of the National Forest System pursuant to this section, the Secretary shall assure that such plans—

"(1) provide for multiple use and sustained yield of the products and services obtained therefrom in accordance with the Multiple-Use Sustained-Yield Act of 1960, and, in particular, include coordination of outdoor recreation, range, timber, watershed, wildlife and fish, and wilderness; and

"(2) determine forest management systems, harvesting levels, and procedures in the light of all of the uses set forth in subsection (c) (1), the definition of the terms 'multiple use' and 'sustained yield' as provided in the Multiple-Use Sustained-Yield Act of 1960, and the availability of lands and their suitability for resource management.

16 USC 528 note.

“(f) Plans developed in accordance with this section shall—

“(1) form one integrated plan for each unit of the National Forest System, incorporating in one document or one set of documents, available to the public at convenient locations, all of the features required by this section;

“(2) be embodied in appropriate written material, including maps and other descriptive documents, reflecting proposed and possible actions, including the planned timber sale program and the proportion of probable methods of timber harvest within the unit necessary to fulfill the plan;

“(3) be prepared by an interdisciplinary team. Each team shall prepare its plan based on inventories of the applicable resources of the forest;

“(4) be amended in any manner whatsoever after final adoption after public notice, and, if such amendment would result in a significant change in such plan, in accordance with the provisions of subsections (e) and (f) of this section and public involvement comparable to that required by subsection (d) of this section; and

“(5) be revised (A) from time to time when the Secretary finds conditions in a unit have significantly changed, but at least every fifteen years, and (B) in accordance with the provisions of subsections (e) and (f) of this section and public involvement comparable to that required by subsection (d) of this section.

“(g) As soon as practicable, but not later than two years after enactment of this subsection, the Secretary shall in accordance with the procedures set forth in section 553 of title 5, United States Code, promulgate regulations, under the principles of the Multiple-Use Sustained-Yield Act of 1960, that set out the process for the development and revision of the land management plans, and the guidelines and standards prescribed by this subsection. The regulations shall include, but not be limited to—

“(1) specifying procedures to insure that land management plans are prepared in accordance with the National Environmental Policy Act of 1969, including, but not limited to, direction on when and for what plans an environmental impact statement required under section 102(2)(C) of that Act shall be prepared;

“(2) specifying guidelines which—

“(A) require the identification of the suitability of lands for resource management;

“(B) provide for obtaining inventory data on the various renewable resources, and soil and water, including pertinent maps, graphic material, and explanatory aids; and

“(C) provide for methods to identify special conditions or situations involving hazards to the various resources and their relationship to alternative activities;

“(3) specifying guidelines for land management plans developed to achieve the goals of the Program which—

“(A) insure consideration of the economic and environmental aspects of various systems of renewable resource management, including the related systems of silviculture and protection of forest resources, to provide for outdoor recreation (including wilderness), range, timber, watershed, wildlife, and fish;

“(B) provide for diversity of plant and animal communities based on the suitability and capability of the specific land area in order to meet overall multiple-use objectives, and within the multiple-use objectives of a land management plan adopted pursuant to this section, provide, where appropriate,

to the degree practicable, for steps to be taken to preserve the diversity of tree species similar to that existing in the region controlled by the plan;

“(C) insure research on and (based on continuous monitoring and assessment in the field) evaluation of the effects of each management system to the end that it will not produce substantial and permanent impairment of the productivity of the land;

“(D) permit increases in harvest levels based on intensified management practices, such as reforestation, thinning, and tree improvement if (i) such practices justify increasing the harvests in accordance with the Multiple-Use Sustained-Yield Act of 1960, and (ii) such harvest levels are decreased at the end of each planning period if such practices cannot be successfully implemented or funds are not received to permit such practices to continue substantially as planned;

“(E) insure that timber will be harvested from National Forest System lands only where—

“(i) soil, slope, or other watershed conditions will not be irreversibly damaged;

“(ii) there is assurance that such lands can be adequately restocked within five years after harvest;

“(iii) protection is provided for streams, streambanks, shorelines, lakes, wetlands, and other bodies of water from detrimental changes in water temperatures, blockages of water courses, and deposits of sediment, where harvests are likely to seriously and adversely affect water conditions or fish habitat; and

“(iv) the harvesting system to be used is not selected primarily because it will give the greatest dollar return or the greatest unit output of timber; and

“(F) insure that clearcutting, seed tree cutting, shelter-wood cutting, and other cuts designed to regenerate an even-aged stand of timber will be used as a cutting method on National Forest System lands only where—

“(i) for clearcutting, it is determined to be the optimum method, and for other such cuts it is determined to be appropriate, to meet the objectives and requirements of the relevant land management plan;

“(ii) the interdisciplinary review as determined by the Secretary has been completed and the potential environmental, biological, esthetic, engineering, and economic impacts on each advertised sale area have been assessed, as well as the consistency of the sale with the multiple use of the general area;

“(iii) cut blocks, patches, or strips are shaped and blended to the extent practicable with the natural terrain;

“(iv) there are established according to geographic areas, forest types, or other suitable classifications the maximum size limits for areas to be cut in one harvest operation, including provision to exceed the established limits after appropriate public notice and review by the responsible Forest Service officer one level above the Forest Service officer who normally would approve the harvest proposal: *Provided*, That such limits shall not apply to the size of areas harvested as a result of natural catastrophic conditions such as fire, insect and disease attack, or windstorm; and

“(v) such cuts are carried out in a manner consistent with the protection of soil, watershed, fish, wildlife, recreation, and esthetic resources, and the regeneration of the timber resource.

“(h) (1) In carrying out the purposes of subsection (g) of this section, the Secretary of Agriculture shall appoint a committee of scientists who are not officers or employees of the Forest Service. The committee shall provide scientific and technical advice and counsel on proposed guidelines and procedures to assure that an effective interdisciplinary approach is proposed and adopted. The committee shall terminate upon promulgation of the regulations, but the Secretary may, from time to time, appoint similar committees when considering revisions of the regulations. The views of the committees shall be included in the public information supplied when the regulations are proposed for adoption.

Committee,
appointment.

Termination,

“(2) Clerical and technical assistance, as may be necessary to discharge the duties of the committee, shall be provided from the personnel of the Department of Agriculture.

“(3) While attending meetings of the committee, the members shall be entitled to receive compensation at a rate of \$100 per diem, including traveltime, and while away from their homes or regular places of business they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

Compensation
and travel
expenses.

“(i) Resource plans and permits, contracts, and other instruments for the use and occupancy of National Forest System lands shall be consistent with the land management plans. Those resource plans and permits, contracts, and other such instruments currently in existence shall be revised as soon as practicable to be made consistent with such plans. When land management plans are revised, resource plans and permits, contracts, and other instruments, when necessary, shall be revised as soon as practicable. Any revision in present or future permits, contracts, and other instruments made pursuant to this section shall be subject to valid existing rights.

“(j) Land management plans and revisions shall become effective thirty days after completion of public participation and publication of notification by the Secretary as required under section 6(d) of this Act.

“(k) In developing land management plans pursuant to this Act, the Secretary shall identify lands within the management area which are not suited for timber production, considering physical, economic, and other pertinent factors to the extent feasible, as determined by the Secretary, and shall assure that, except for salvage sales or sales necessitated to protect other multiple-use values, no timber harvesting shall occur on such lands for a period of 10 years. Lands once identified as unsuitable for timber production shall continue to be treated for reforestation purposes, particularly with regard to the protection of other multiple-use values. The Secretary shall review his decision to classify these lands as not suited for timber production at least every 10 years and shall return these lands to timber production whenever he determines that conditions have changed so that they have become suitable for timber production.

Review.

“(1) The Secretary shall—

“(1) formulate and implement, as soon as practicable, a process for estimating long-terms costs and benefits to support the program evaluation requirements of this Act. This process shall

include requirements to provide information on a representative sample basis of estimated expenditures associated with the reforestation, timber stand improvement, and sale of timber from the National Forest System, and shall provide a comparison of these expenditures to the return to the Government resulting from the sale of timber; and

“(2) include a summary of data and findings resulting from these estimates as a part of the annual report required pursuant to section 8(c) of this Act, including an identification on a representative sample basis of those advertised timber sales made below the estimated expenditures for such timber as determined by the above cost process; and

Standards,
establishment.

“(m) The Secretary shall establish—

“(1) standards to insure that, prior to harvest, stands of trees throughout the National Forest System shall generally have reached the culmination of mean annual increment of growth (calculated on the basis of cubic measurement or other methods of calculation at the discretion of the Secretary): *Provided*, That these standards shall not preclude the use of sound silvicultural practices, such as thinning or other stand improvement measures: *Provided further*, That these standards shall not preclude the Secretary from salvage or sanitation harvesting of timber stands which are substantially damaged by fire, windthrow or other catastrophe, or which are in imminent danger from insect or disease attack; and

“(2) exceptions to these standards for the harvest of particular species of trees in management units after consideration has been given to the multiple uses of the forest including, but not limited to, recreation, wildlife habitat, and range and after completion of public participation processes utilizing the procedures of subsection (d) of this section.”.

NATIONAL PARTICIPATION

16 USC 1606. SEC. 7. Section 8 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as redesignated by section 2 of this Act, is amended—

(a) by striking out “sixty” in the second sentence of subsection (a) and inserting in lieu thereof the word “ninety”; and by striking out “sixty-day period” in the third sentence of subsection (a) and inserting in lieu thereof “ninety-day period”; and

(b) by adding a new sentence at the end of subsection (c) as follows: “With regard to the research component of the program, the report shall include, but not be limited to, a description of the status of major research programs, significant findings, and how these findings will be applied in National Forest System management.”.

TRANSPORTATION SYSTEM

16 USC 1608. SEC. 8. Section 10 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as redesignated by section 2 of this Act, is amended by inserting “(a)” immediately before the words “The Congress” and inserting at the end thereof new subsections (b) and (c) as follows:

Road design.

“(b) Unless the necessity for a permanent road is set forth in the forest development road system plan, any road constructed on land of the National Forest System in connection with a timber contract or other permit or lease shall be designed with the goal of reestablishing

vegetative cover on the roadway and areas where the vegetative cover has been disturbed by the construction of the road, within ten years after the termination of the contract, permit, or lease either through artificial or natural means. Such action shall be taken unless it is later determined that the road is needed for use as a part of the National Forest Transportation System.

“(c) Roads constructed on National Forest System lands shall be designed to standards appropriate for the intended uses, considering safety, cost of transportation, and impacts on land and resources.”

SEC. 11. The Forest and Rangeland Renewable Resources Planning Act of 1974 is amended by adding at the end thereof new sections 13 through 16 as follows:

“SEC. 13. LIMITATIONS ON TIMBER REMOVAL.—(a) The Secretary of Agriculture shall limit the sale of timber from each national forest to a quantity equal to or less than a quantity which can be removed from such forest annually in perpetuity on a sustained-yield basis: *Provided*, That, in order to meet overall multiple-use objectives, the Secretary may establish an allowable sale quantity for any decade which departs from the projected long-term average sale quantity that would otherwise be established: *Provided further*, That any such planned departure must be consistent with the multiple-use management objectives of the land management plan. Plans for variations in the allowable sale quantity must be made with public participation as required by section 6(d) of this Act. In addition, within any decade, the Secretary may sell a quantity in excess of the annual allowable sale quantity established pursuant to this section in the case of any national forest so long as the average sale quantities of timber from such national forest over the decade covered by the plan do not exceed such quantity limitation. In those cases where a forest has less than two hundred thousand acres of commercial forest land, the Secretary may use two or more forests for purposes of determining the sustained yield.

TIMBER SALES ON NATIONAL FOREST SYSTEM LANDS

Rules and
regulations.
16 USC 472a.

SEC. 14. (a) For the purpose of achieving the policies set forth in the Multiple-Use Sustained-Yield Act of 1960 (74 Stat. 215; 16 U.S.C.

528-531) and the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 476; 16 U.S.C. 1601-1610), the Secretary of Agriculture, under such rules and regulations as he may prescribe, may sell, at not less than appraised value, trees, portions of trees, or forest products located on National Forest System lands.

(b) All advertised timber sales shall be designated on maps, and a prospectus shall be available to the public and interested potential bidders.

(c) The length and other terms of the contract shall be designed to promote orderly harvesting consistent with the principles set out in section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended. Unless there is a finding by the Secretary of Agriculture that better utilization of the various forest resources (consistent with the provisions of the Multiple-Use Sustained-Yield Act of 1960) will result, sales contracts shall be for a period not to exceed ten years: *Provided*, That such period may be adjusted at the discretion of the Secretary to provide additional time due to time delays caused by an act of an agent of the United States or by other circumstances beyond the control of the purchaser. The Secretary shall require the purchaser to file as soon as practicable after execution of a contract for any advertised sale with a term of two years or more, a plan of operation, which shall be subject to concurrence by the Secretary. The Secretary shall not extend any contract period with an original term of two years or more unless he finds (A) that the purchaser has diligently performed in accordance with an approved plan of operation or (B) that the substantial overriding public interest justifies the extension.

(d) The Secretary of Agriculture shall advertise all sales unless he determines that extraordinary conditions exist, as defined by regulation, or that the appraised value of the sale is less than \$10,000. If, upon proper offering, no satisfactory bid is received for a sale, or the bidder fails to complete the purchase, the sale may be offered and sold without further advertisement.

(e) The Secretary of Agriculture shall take such action as he may deem appropriate to obviate collusive practices in bidding for trees, portions of trees, or forest products from National Forest System lands, including but not limited to—

- (1) establishing adequate monitoring systems to promptly identify patterns of noncompetitive bidding;
- (2) requiring sealed bidding on all sales except where the Secretary determines otherwise by regulation; and
- (3) requiring that a report of instances of such collusive practices or patterns of noncompetitive bidding be submitted to the Attorney General of the United States with any and all supporting data.

(f) The Secretary of Agriculture, under such rules and regulations as he may prescribe, is authorized to dispose of, by sale or otherwise, trees, portions of trees, or other forest products related to research and demonstration projects.

(g) Designation, marking when necessary, and supervision of harvesting of trees, portions of trees, or forest products shall be conducted by persons employed by the Secretary of Agriculture. Such persons shall have no personal interest in the purchase or harvest of such products and shall not be directly or indirectly in the employment of the purchaser thereof.

(h) The Secretary of Agriculture shall develop utilization standards, methods of measurement, and harvesting practices for the removal of trees, portions of trees, or forest products to provide for

the optimum practical use of the wood material. Such standards, methods, and practices shall reflect consideration of opportunities to promote more effective wood utilization, regional conditions, and species characteristics and shall be compatible with multiple use resource management objectives in the affected area. To accomplish the purpose of this subsection in situations involving salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement, the Secretary is authorized to require the purchasers of such timber to make monetary deposits, as a part of the payment for the timber, to be deposited in a designated fund from which sums are to be used, to cover the cost to the United States for design, engineering, and supervision of the construction of needed roads and the cost for Forest Service sale preparation and supervision of the harvesting of such timber. Deposits of money pursuant to this subsection are to be available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: *Provided*, That such deposits shall not be considered as moneys received from the national forests within the meaning of sections 500 and 501 of title 16, United States Code: *And provided further*, That sums found to be in excess of the cost of accomplishing the purposes for which deposited on any national forest shall be transferred to miscellaneous receipts in the Treasury of the United States.

Road

regulations.

(1) (1) For sales of timber which include a provision for purchaser credit for construction of permanent roads with an estimated cost in excess of \$20,000, the Secretary of Agriculture shall promulgate regulations requiring that the notice of sale afford timber purchasers qualifying as "small business concerns" under the Small Business Act, as amended, and the regulations issued thereunder, an estimate of the cost and the right, when submitting a bid, to elect that the Secretary build the proposed road: *Provided*, That the provisions of this subsection shall not apply to sales of timber on National Forest System lands in the State of Alaska.

Completion date.

(2) If the purchaser makes such an election, the price subsequently paid for the timber shall include all of the estimated cost of the road. In the notice of sale, the Secretary of Agriculture shall set a date when such road shall be completed which shall be applicable to either construction by the purchaser or the Secretary, depending on the election. To accomplish requested work, the Secretary is authorized to use from any receipts from the sale of timber a sum equal to the estimate for timber purchaser credits, and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to construct a road that meets the standards specified in the notice of sale.

Effective date.

(3) The provisions of this subsection shall become effective on October 1, 1976.

VALIDATION OF TIMBER SALES CONTRACTS

16 USC 476 note.

SEC. 15. (a) Timber sales made pursuant to the Act of June 4, 1897 (30 Stat. 35, as amended; 16 U.S.C. 476), prior to the date of enactment of this section shall not be invalid if the timber was sold in accord with Forest Service silvicultural practices and sales procedures in effect at the time of the sale, subject to the provisions of subsection (b) of this section.

Revision.

(b) The Secretary of Agriculture is directed, in developing five-year operating plans under the provisions of existing fifty-year timber sales contracts in Alaska, to revise such contracts to make them consistent with the guidelines and standards provided for in the Forest

and Rangeland Renewable Resources Planning Act of 1974, as amended, and to reflect such revisions in the contract price of timber. Any such action shall not be inconsistent with valid contract rights approved by the final judgment of a court of competent jurisdiction.

The Secretary of Agriculture shall, from time to time as he goes through his process of developing the budget revenue estimates, make available to the States his current projections of revenues and payments estimated to be made under the Act of May 23, 1908, as amended, or any other special Acts making payments in lieu of taxes, for their use for local budget planning purposes."

(3) Section 6 is amended to read as follows: "The Secretary of Agriculture is hereby authorized and directed to examine, locate, and purchase such forested, cut-over, or denuded lands within the watersheds of navigable streams as in his judgment may be necessary to the regulation of the flow of navigable streams or for the production of timber. No deed or other instrument of conveyance of lands referred to herein shall be accepted or approved by the Secretary of Agriculture under this Act until the legislature of the State in which the land lies shall have consented to the acquisition of such land by the United States for the purpose of preserving the navigability of navigable streams."

(4) Section 7, as amended, is amended to read as follows: "When the public interests will be benefited thereby, the Secretary of Agriculture is hereby authorized, in his discretion, to accept on behalf of the United States title to any lands within the exterior boundaries of national forests which, in his opinion, are chiefly valuable for the purposes of this Act, and in exchange therefor to convey by deed not to exceed an equal value of such national forest land in the same State, or he may authorize the grantor to cut and remove an equal value of timber within such national forests in the same State, the values in each case to be determined by him: *Provided*, That before any such exchange is effected notice of the contemplated exchange reciting the lands involved shall be published once each week for four successive
